

10 best-selling laptops in November 2009

Although only available in the market 1-2 months recently, but the 11.6-inch CULV battery-saving laptop has attracted customers, especially the Acer Aspire AS1410.

Although only available in the market 1-2 months recently, but the 11.6-inch CULV battery-saving laptop has attracted customers, especially the Acer Aspire AS1410.

The CULV processor was not impressed by the slightly faster processing speed than the Atom chip, but the price was very competitive. Moreover, the 11.6-inch screen laptop offers a more comfortable experience than netbooks. Especially, laptops using CULV chips have a longer battery life than Atom netbooks.

List of best-selling laptops in November are still cheap, affordable, affordable versions.

1. Acer Aspire 4736G (Core 2 Duo P8600 Processor 2.4GHz, 3GB RAM)

Design inspired by the Gemstone series of entertainment computers, Acer's 14.1-inch laptop has a high resolution of 1,366 x 768 pixels and is equipped with Nvidia GeForce G105M graphics card quite powerful, making it easy to take over handling 3D graphics, games or complex applications.

Price: from VND 12 million (depending on configuration).

2. Acer Aspire 5738Z (Pentium Dual-Core T4200 Processor 2.0GHz, 3GB RAM)

The 15.6-inch screen has a high resolution with a 16: 9 aspect ratio, allowing viewers to enjoy widescreen movies without annoying black borders around. Some configurations are equipped with Blu-ray optical drive.

Price: from VND 11.3 million (depending on configuration)

3. Acer Aspire AS1410 (Celeron SU2300 Z520 Processor 1.33GHz, 2GB RAM)

As one of the first 11.6-inch laptops equipped with Intel's low-cost and battery-saving CULV processors, the Aspire AS1410 is far better than netbooks.

Acer Aspire AS1410 equipped with Intel CULV Dual-Core SU2300 1.33 GHz CPU, 2 GB RAM, 250 GB HDD, and integrated Intel GMA 4500MHD graphics chip. With 6-cell battery, Aspire AS1410 has a battery life of about 6 hours continuously.

4. Acer Extensa 4630Z (Pentium Dual-Core T4200 Processor 2.0GHz, 2GB RAM)

Acer's consumer-friendly laptop is powered by a 2.0GHz Core Duo T4200 processor, 2GB of RAM, a DVD burner and an HDMI port. The special thing is that this laptop still has an Nvidia GeForce 9300M GS processor that can meet the demand for game crushers. It also supports Bluetooth connectivity, USB port, Wi-Fi connection and integrated webcam.

The Acer Extensa 4630G 14.1-inch screen, measures 331 x 248 x 41.1 mm, weighs 2.4 kg.

5 Compaq Presario CQ40 (Core 2 Duo P7350 processor 2.0GHz; 2GB RAM)

It has a 14.1-inch screen, has a sleek outer shell with silver and black tones, feels elegant, and is also resistant to scratches. CQ40 is equipped with new generation CPU Intel Celeron M 575 and Intel Pentium Dual Core T3200, graphics card is upgraded to GMA 4500 instead of GMA 3100 as before. Compaq Presario CQ40 is also equipped with 1GB Ram memory with the ability to upgrade to 4GB. Hard disk capacity is also expanded to 120GB and 160GB.

In addition, the device also supports connections, such as Wi-Fi, LAN Gigabit connection, 56K Modem, webcam, microphone, dual-layer DVD RW drive, memory card reader slot, .

6. HP ProBook 4410 (2.0GHz Core 2 Duo T5870 Processor, 2GB RAM)

With charming 'wings' in red or black colors, HP ProBook is not an expensive laptop for business people, affordable price is suitable for individual users.

The device is still equipped with some powerful features, such as fingerprint sensors, security software of HP.

7. Lenovo G450 (Pentium Dual-Core T4300 processor 2.1GHz; 2GB RAM)

Compared to the previous version of Lenovo G series, G450 is better designed with rounded corners that look softer, colors are also more elegant, the connection lines are also more (more expansion card slots). The device is still equipped with Pentium Dual Core T4300, 1GB of RAM, a regular DVD burner and 0.3MP camera.

Price: 514 USD.

8. Lenovo IdeaPad Y450 (2.2GHz Core 2 Duo T6600 Processor, 2GB RAM)

Beautiful design, eye-catching, impressive speaker system and equipped with multiple connection ports are the strengths of IdeaPad Y450. However, the graphics processing capabilities of Y450 are included, the device does not support Bluetooth and the 'body' is thick.

9. Samsung R420 (Pentium Dual-Core T4300 processor 2.16GHz, 2GB RAM)

Towards users who like entertainment, Samsung R420 is one of the popular laptops, but is equipped with a backlit 14-inch LED display and features a water overflow keyboard.

It is equipped with Dual-Core T4300 processor, 2.16GHz speed, 2GB RAM.

10. Toshiba Satellite L510 (Pentium Dual-Core T4200 Processor 2.0GHz, 2GB RAM)

Although affordable, Toshiba Satellite L510 is still equipped with many unique features, such as scratch-resistant paint, webcam face detection.
