Most of us often decorate our homes by buying tables and chairs in one set. And if you buy a bed then you will definitely put it in the bedroom, right?

Today, we will help you forget all these old stereotypes. Here are **10 creative interior designs for your home** . Invite you to consult!

## 10. Combination of sofa and armchair

© depositphotos

Many people are used to the idea that furniture should only be bought with one set: sofas and armchairs should be the same. However, you do not need to follow this rule. You can absolutely buy other armchairs set with indoor sofas. What really matters is that they **fit into other things in your home** .

## 9. Bedroom furniture

© depositphotos

You don't have to buy a set of bedroom furniture, just a few matching tables. In addition, you can decorate your room with the things you like and of course it must be in harmony with everything else in the room.

## 8. White wall

© depositphotos

If you are worried that the white wall will make the room look like a hospital, you should not put too much white in the room and everything will be fine. The most important thing is to create a suitable highlight and your room will be very gentle and attractive.

## 7. Interior hanging along the wall

© depositphotos

This is very popular because people think it gives their room more space. But if the room is small and there is no other option, it is okay. If your room is big enough, you can forget about this pattern.

## 6. Tiles in bathroom

© depositphotos

There are so many ways to decorate your bathroom. You can try bricks that look like stone, concrete or even wood.

## 5. Harmony between tables and chairs

© depositphotos

You can make your kitchen furniture more diverse if you buy tables and chairs from different collections. Don't be afraid to try this.

#### **4. Large furniture**

© depositphotos

Currently, large benches and large back seats are no longer popular. Instead chairs with simple shapes and small sizes are increasingly popular. When choosing furniture, remember one principle: the smaller your room, the smaller the chair and table.

#### **3. Decorate children's rooms with colorful colors**

© depositphotos © depositphotos

Children's rooms can be harmoniously decorated without too bright colors. In such a room, a child's imagination can grow better. A soothing room can be made more interesting with different toys, posters and drawings.

## 2. Concrete is too rough

© depositphotos

There are many ways to use concrete in your interior. It seems to be used a lot in a modern design. Its great advantage is waterproof, so you can even use in a bathroom.

## 1. Curtains

© depositphotos

For small rooms you should not use blinds. Curtains will make the room become smaller and narrower.
