

10 great uses of Aspirin may not be known

Aspirin can treat acne, lighten the skin, remove dandruff, exfoliate and ...

Have you ever wondered if there **are any** other effects of **aspirin** in addition to analgesic and antipyretic effects? Usually, aspirin can be purchased directly at pharmacies without a doctor's prescription, there are many special uses that most of us do not know. Here are **10 great uses of Aspirin** for you.

1. Reduce acne

Aspirin helps treat acne effectively thanks to its anti-inflammatory properties. Just crush 2-3 aspirin tablets, mix with lemon juice, then apply this mixture to the acne area, leave for about 5-10 minutes then rinse with water. However, you should be careful to avoid using this mixture before going out in the sun or if you feel uncomfortable after using it, wash it immediately with water as your skin may be sensitive to Aspirin.

2. Reduces insect bite marks

Aspirin can also **reduce swelling** and **soothe itching** caused by mosquito bites. You only need to moisten an aspirin by dipping it in water, then apply it to the skin of the mosquito or insect bite for a few minutes.

3. Brightens skin

Aspirin contains a fat soluble ingredient used in the production of **skin lightening creams** and skin cleansers. Mix 7 Aspirin tablets bare with 3 tablespoons yogurt and a spoon of honey. Wash your face, then apply this mixture to your face and leave on for about 15 minutes. This mixture will help your skin become more **radiant** and **smooth** , while also blurring scars and pigmentation.

4. Flying dandruff

Dandruff not only makes you feel itchy but also causes aesthetics. To **prevent dandruff** , mix 2 pureed aspirin tablets with shampoo you are using and shampoo normally.

5. Exfoliating

Aspirin is an excellent method for **removing dead skin cells** . In addition, it helps to remove mucus and shrink pores on the face. Just mix 2 - 3 aspirin tablets that have been finely ground with water, apply to the face and leave for a few minutes and then rinse with water. If your skin is sensitive, be careful when using to avoid skin irritation.

6. Eliminate lumpy foot calluses
