

# 10 things you can create with Canva

You may have heard about Canva and even used this tool to create logos, social networking posts, collages or blog banners. But this easy-to-use graphic design tool can do more than you know.

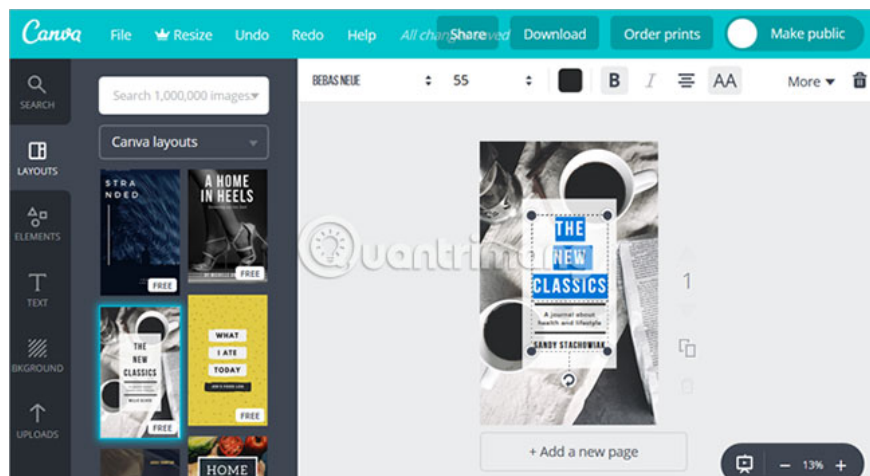

You may have heard about Canva and even used this tool to create logos, social networking posts, collages or blog banners. But this easy-to-use graphic design tool can do more than you know.

Take a look at the great things you can create with Canva right away, with both businesses and individuals, through the following article!

## What can you design with Canva tool?

1. Book cover
2. Invitation to the event
3. Channel Art YouTube
4. Cover photos and icons for online stores on Etsy
5. Business cards
6. Curriculum vitae in infographic format
7. Gift certificates
8. Yearbook cover
9. CD cover
10. Restaurant menu

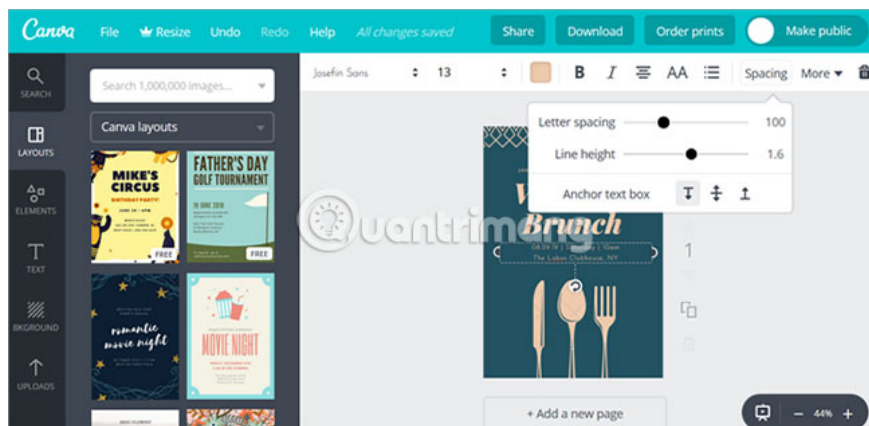

## 1. Book cover

If you are an author, then creating a cover for your book is simple with Canva. To get started, choose Canva layout from many of the free options available. From cookbooks to romantic novels, you will definitely find an option that suits your needs.

Click on the layout you want and then select the text elements to add your own details. If you like the layout but want another image, just add the image to the layout.

## 2. Invitation to the event

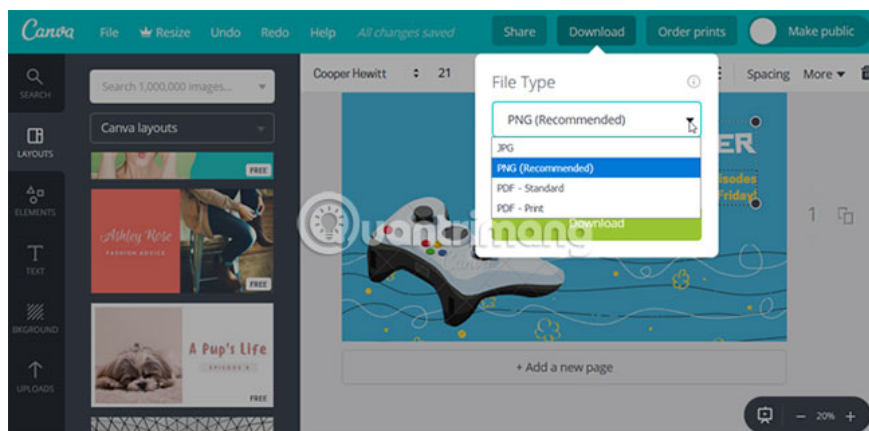

For weddings, birthday parties, charity events, etc., Canva offers great invitation creation options. Just like with the book cover, you just need to select the layout and then click on the elements to adjust the text.

You can change the font style, size, color and format for anything you design. You can even adjust letter spacing, line height, alignment and transparency.

Another great feature of Canva will be useful when designing invitations as sharing options. You can post it on Twitter and Facebook or get a link to share on other social networks.

## 3. Channel Art YouTube

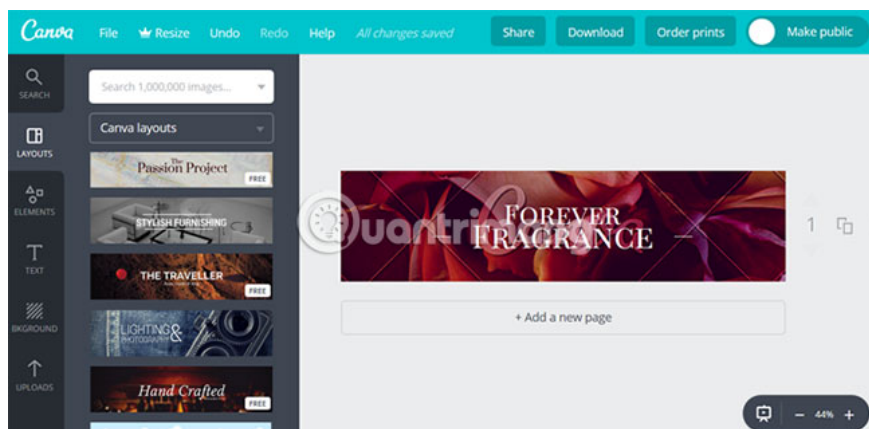

If you have your own YouTube channel, you can make it stand out with great channel art. Check out the different layouts for music, beauty, nature, food, gaming and more.

All elements on the design can be changed, rearranged or removed. This gives you complete flexibility in creating the artwork you want.

When completed, just download the design as a JPG, PNG or PDF file. So easy!

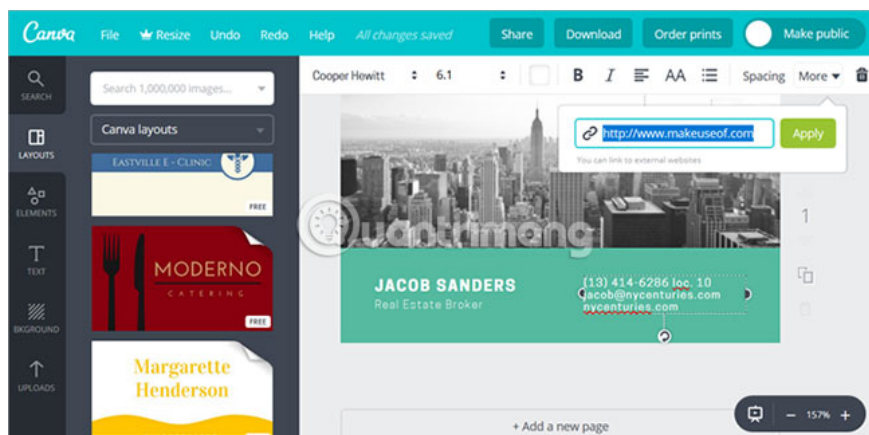

## 4. Cover photos and icons for online stores on Etsy

If you sell your goods on Etsy, draw attention to the store with an interesting cover or logo. Canva offers the option to design both of these, suitable for those who are selling products such as gifts, accessories, clothing and perfume online.

The great thing about using Canva for these designs is that they are the right size. The size of the store cover photo on Etsy is 1200 x 300 pixels and the icon is 500 x 500 pixels. So, just change the text and images needed, the size is already set up so you don't need to bother anymore.

## 5. Business cards

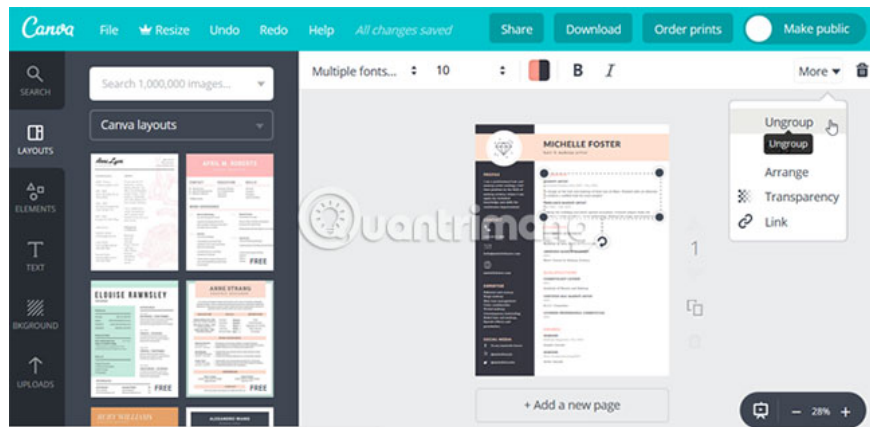

Many applications can handle business card creation, including Microsoft Word and Adobe Photoshop. However, Canva can also help you create new business cards quickly.

### 1. Instructions for creating Business Card in Photoshop

From simple to elegant, you can choose from a variety of options for your business card. If you send business cards via email or post them on social networks, the **Link** feature is ideal. Just select the design element, click the **Link** button at the top, enter or paste the URL in the box and click **Apply**.

## 6. Curriculum vitae in infographic format

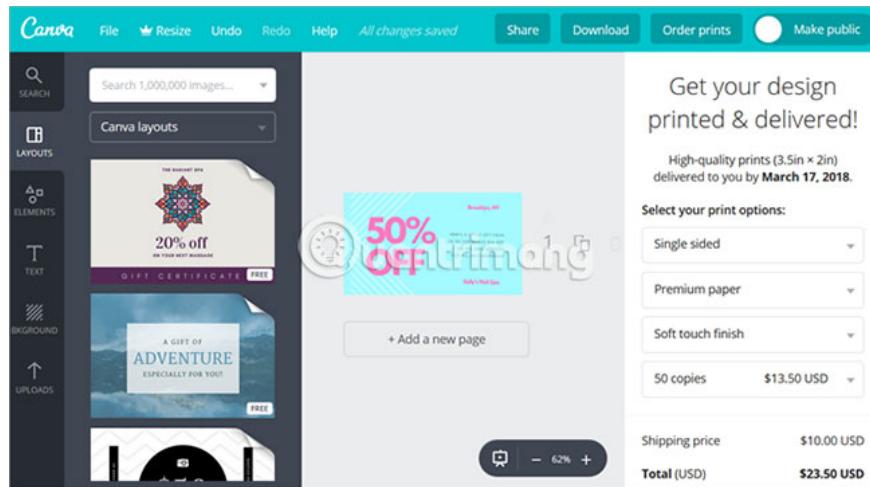

If an infographic resume will benefit you, see what Canva can do. Canva has clean, professional layouts and helps highlight your skills, experiences and achievements in many ways.

### 1. How to create a resume with Canva

For example, you can choose a curriculum vitae that demonstrates your skills using a scale of 1 to 5. And remember, if you like a layout but are not happy with the position elements, just click to rearrange them.

You can select all element blocks to move or use the **Ungroup** button from the top to separate what's inside. If you have made a change that you don't like anymore, just press the **Undo** button at the top left.

## 7. Gift certificates

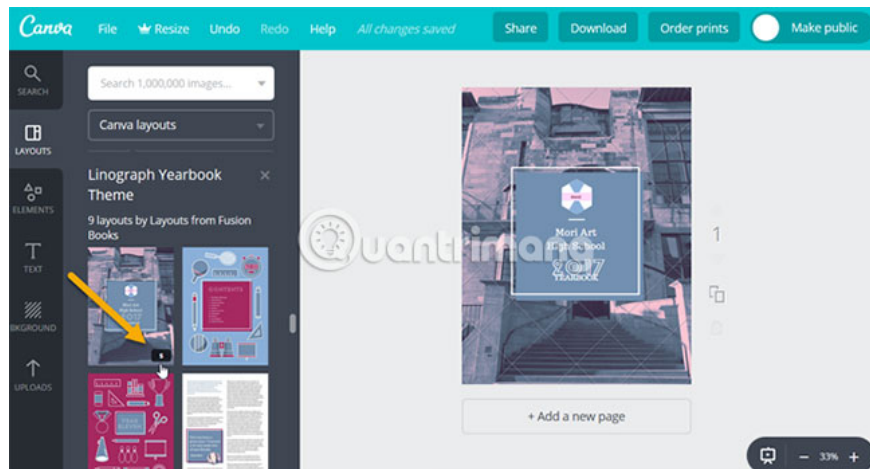

You can design gift certificates for holidays, seasonal or year-round. For food, drinks, or other types of gifts, Canva has a large collection of different layouts.

You can also use these layouts to create coupons. If you are offering discounts for your services, Canva also offers you a great way to advertise it.

Another handy feature when designing gift certificates is that you can order prints directly from Canva. Just select the format and printing options, then start ordering. Printing costs will appear. Great!

## 8. Yearbook cover

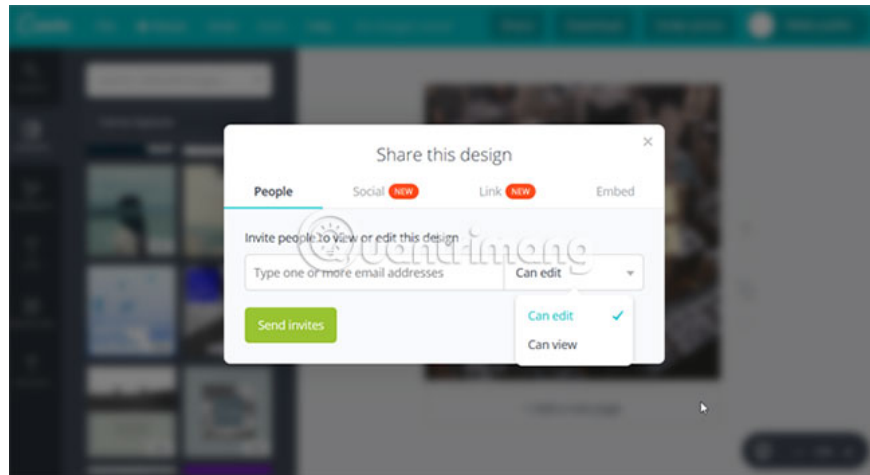

If you're in charge of designing the school yearbook cover, you're lucky. Canva has available layouts that you will definitely love.

You can simply choose a layout and update the school cover or pay for a complete theme.

Note that some layouts may not be free. This is easy to see when you hover over the theme pages. A dollar sign will appear on pages you have to pay.

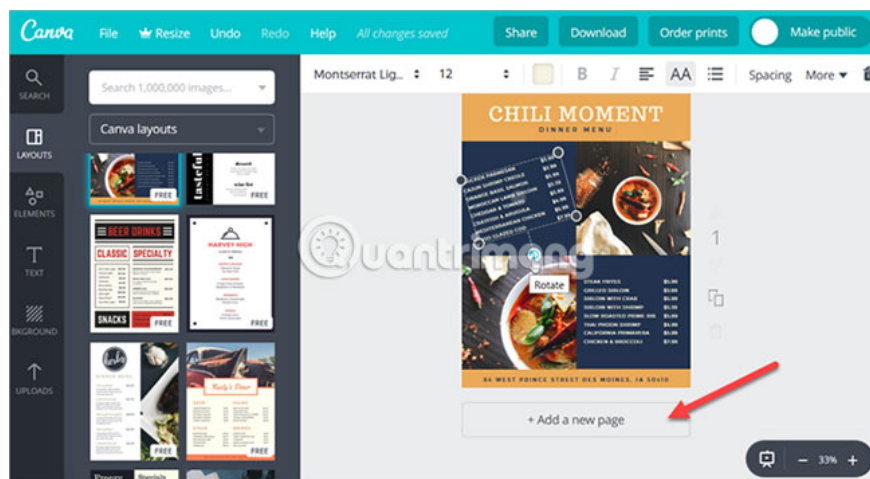

## 9. CD cover

For musicians, perfect album covers are essential and Canva has a layout for all genres of music. Choose one of the genres like symphony, lullaby or country music.

Sharing options can be helpful when you need to get opinions from other members of the band. Click the **Share** button at the top, add an email address and then select **Can edit** or **Can view**. This is a great way to collaborate with others when designing.

## 10. Restaurant menu

Do you need some help to design a menu for your shop, cafe or restaurant? No need to look further because Canva has great menu options.

Designing the menu with Canva is easy. You can edit or delete individual components, group or cancel groups, rotate or resize boxes flexibly. Note that if there is a long menu, you can click the **Add a new page** button to continue creating.

As you can see, Canva offers many options other than logo design, social networking posts, collages and banners. The biggest plus when using this tool is that you don't need any kind of design experience. This tool is very simple to use that you can create professional designs immediately.

Hope you are succesful.
