

10 tricks 'players' that Casino staff never reveal

Gamblers and casino makers know how to withdraw money from your pocket and still feel excited and happy with that secret? Here are 10 tips to 'entice' players that Casino employees never reveal. Invite people to consult!

Bright anchor lights, beautiful people smiling at you, luxurious lifestyles, easy money making are things we often associate when it comes to casinos. But after all, will it become brighter and better? We are sure that there are countless things you don't know about how they make you spend more money.

Here are 10 tips to "entice" players that Casino employees never reveal . Invite everyone to consult!

10. Bright lights and vibrant music make you bet at a faster pace

Have you ever wondered why in all casinos are equipped with many lights and eye-catching details? Yes, this is just one of many casino tricks used to make players spend more .

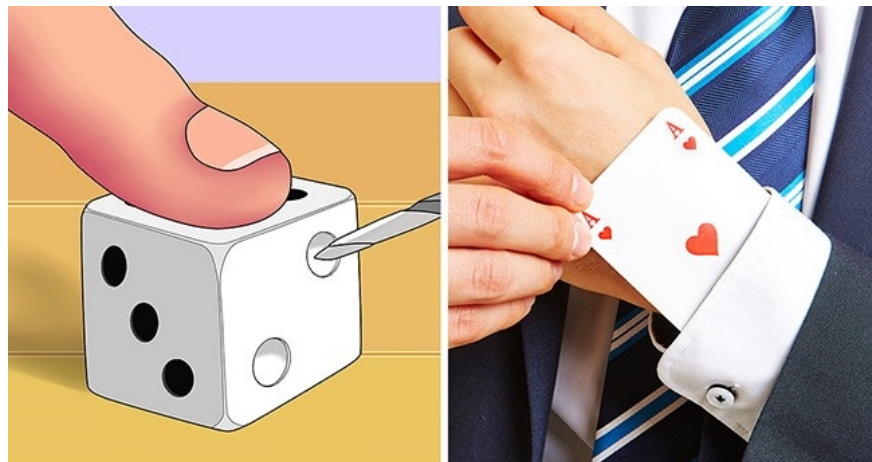

Psychologists say that red lights and music quickly push gamblers to make quicker decisions and ultimately, spend more money to bet.

9. The fewer players, the faster you lose

Surprisingly, professional gamblers often choose to play at a table with many people for several reasons. First of all, more people mean that the game changes more slowly with more time to think. In addition, free services (such as drinks) will be charged to players who have enough time at the casino.

8. Tracking devices everywhere

When you step into the casinos, you will find that in the hidden corners, observation devices are always installed. The casino owner wants to use it to capture the player's winning mentality .

In addition, face recognition devices will save data so that as soon as they enter the room, they will immediately know who you are, a good player or a gambling addict who is in debt.

7. Larger chips make losing cards easier

Casinos always encourage you to buy big value chips instead of small value chips. It is associated with psychology. Large chips make spending much easier because most people always want to throw a \$ 25 chip instead of counting 5 \$ 5 chips.

6. There are no clocks or windows in the casinos

It's easy for people to spend a lot of time in a casino. One of the reasons is that there is usually no clock or window so you know how much time you have spent inside. The game takes you along and the time at the casino becomes longer than planned. Therefore, you will spend more money.

5. Never play Keno .

The winning rate in Keno game is completely remote. In this case, you'd better raise money for charity than that.

But if you still want to play Keno, remember that you are actually putting your money on fire. Seriously, the chance to eat a game of Keno is like the chance to win a lottery.

4. or Roulette

Big wheels in the center of the casino always seem attractive and tempt many people to check their fortunes. Roulette usually occupies a better position and stands out than any other machine in the room. However, the winning rate is very small (although still higher than Keno). Therefore, less noticeable machines at less central points in casinos are probably a better option.

3. Environment is an important factor

How do players not detect casino tricks? Simply, the casino owner will make you feel like you are well cared for. Gentle music, soft light, cozy comfort. Soft chairs and carefully selected carpet patterns along with everything else, it puts people in a "lightheaded " state that they don't want to return.

2. Location, location and location

Have you ever noticed to go to the toilet, dining room or chip selling place, need to go through countless gambling machines and casinos big or small? The trick here is to attract and tempt you wherever you go so you

can't keep your pocket.

1. Sometimes win

There is nothing attractive you bet by seeing players happy "collecting money". "If someone can win, so am I" the casino's biggest trick. Unfortunately, you cannot know the risk of losing money is more than the ability to win, the opportunity is extremely fragile.

Therefore, when you have the opportunity to visit the Casino, even if you only intend to play for fun, you should pay attention to these sophisticated tricks to avoid spending too much money at any time!

Having fun!
