

# 10 ways to 'recycle' your Mac, iPhone, iPad and iPod devices

We can say, we are living in a world of technology. Removing used goods to find alternative products is easy.

**QuanTrimang - It can be said, we live in a world of technology. Removing used goods to find alternative products is easy. However, recycling them for use will benefit our pockets and the green planet we live in.**

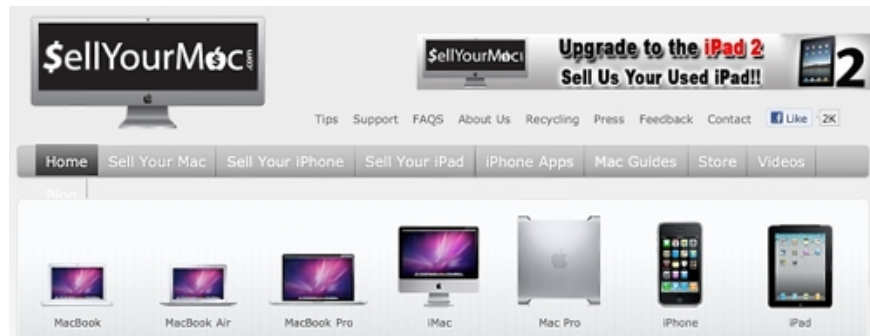

With older Apple technology products, such as Macs, iPhones, iPads and iPods, you don't need to throw them away. Recycle it, you can even get some money if you return it or sell it to other retailers.

*Here are some ways you can apply to recycle these products.*

**1. Apple** - you can send Apple their old device that you've ever used like Mac, iPhone, iPad and iPod. They will give you their market value in the form of a gift card. You just need to write a few lines of online quotes and send them, after checking you will get this card. If the product is not converted into market value, Apple will recycle it for you. If you buy a new iPod, bring an old device to Apple's retail store for a 10% discount.

**2. SellYourMac** - Here they are ready to buy used Macs and iOS devices. You can write a piece of content describing the image, serial number of the product. After sending the mail to them, the product will be checked and there will be a check sent to you, or the money will be sent directly to your PayPal account. Then your old device will be cleaned, repaired if needed and reformatted completely and sold on eBay.

**3. PowerMax** - Devices such as Mac, iPhone, iPad and iPod can be traded here. There are two ways: you can call them or send a request. Once you agree with the contract, please email them about your device information.

If you do not have the original packaging, they can send you an appropriate packaging to store the device. After PowerMax receives it, they will conduct aesthetic assessment and a full inspection to ensure it is good enough and they can resell. You will then receive money in your credit card.
