1. **Adobe Premiere Pro**
2. **Movavi Slideshow Maker**
3. **Magisto**
4. **iSkysoft Slideshow Maker**
5. **Slidely**
6. **Renderforest**
7. **DVD Slideshow Builder Deluxe**
8. **ProShow Gold**
9. **SmartShow**
10. **Photo Stage Slideshow Pro**
11. **FotoMagico 5**

## 1. Adobe Premiere Pro

Adobe Premiere Pro is an extremely professional and popular video editing software for computers. Almost all film editors, businesses, and advertising agencies use this software to edit videos. However, the software has a fairly large capacity (8GB) and requires a computer with a strong configuration.

Adobe Premiere Pro has a powerful configuration

### **Features of Adobe Premiere Pro video making software:**

1. Make videos from photos, add effects, edit beautiful videos
2. Edit videos in various formats and resolutions from low resolution to 8k or virtual reality.
3. Easily shoot, edit, and share videos on social media on your phone with Premiere Rush
4. Adobe Premiere Pro provides many creative tools such as: sound, color, effects, etc. to create videos easily and professionally.
5. Has a rich application ecosystem from Adobe such as Photoshop, After Effects, Adobe Stock, Adobe Audition,.
6. Available for both Windows and macOS operating systems
7. Regularly updated with bug fixes and new features.

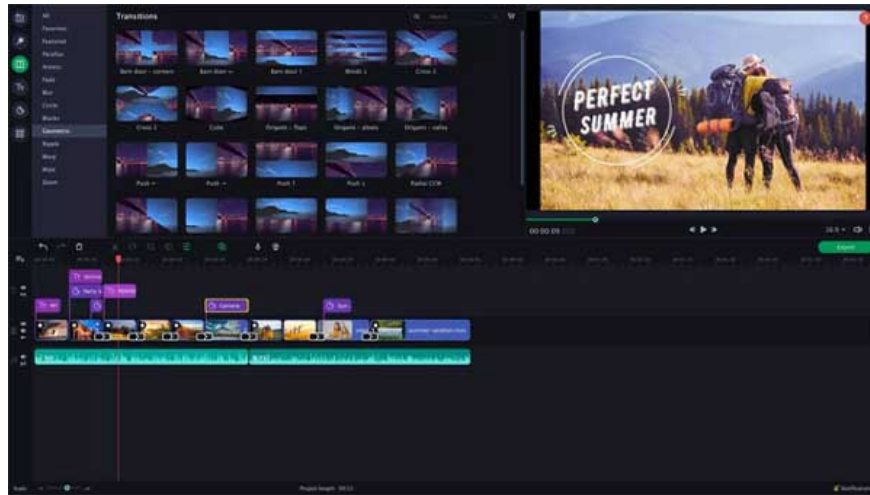

### **Disadvantages of Adobe Premiere Pro video making software:**

1. The interface displays too many features and is quite complicated for new users.
2. Requires high computer configuration for smooth use.
3. Expensive to buy. 7-day trial available.
