

12 principles of teaching children of the Royal Family are worth learning

According to fairy tales or historical lessons, royal children often sleep on silk velvet, eat with gold dishes and spend the day playing and entertaining. But is that the reality? Invite you to see the 12 principles of teaching children of the Royal Family, it is worth learning!

1. 15 pictures illustrating the only things he can do
2. 8 dangerous toys can harm children and make the right choice
3. 12 simple tips to be a good father

According to fairy tales or historical lessons, royal children often sleep on silk velvet, eat with gold dishes and spend the day playing and entertaining. But is that the reality?

We decided to explore how the famous prince and princess - **George** and **Charlotte** , the son of the duke and princess of Cambridge - were raised through the following article. **Invite you to see the 12 principles of teaching children of the Royal Family, it is worth learning!**

1. There is no reason to live the "not sitting" lifestyle.

In the Duke of Cambridge family, only one babysitter helps them take care of their children. All tasks related to eating, bathing and walking with the children are done by their parents.

Although, the father of **William** , the father, worked as a helicopter pilot in emergency medical services, he still took the time to take care of his children.

2. Respect the work of others

Queen Elizabeth's grandchildren soon understood that anyone's work should be respected, even if it was simply a mother's cooking to prepare dinner or the maid's house cleaning.

That is why **George** and **Charlotte** did not give up their meals every day and had to collect their own clothes.

3. Family is the top priority of life

Even now, Prince George is only 4 years old but still doing a good job of caring for Charlotte, even becoming a close friend of his sister. As a child, these children knew family history and often visited her grandmother's grave, Princess Diana.

Kate and William also try to spend as much time as possible for their children. For example, George likes to chatter enough about everything with his father, while Charlotte likes to cook with her mother. Children sit with adults during dinner, different from previous traditions.

4. Everyone has the freedom to express their thoughts and feelings

Although " *restraining* " the idea is the tradition of the royal family, Princess Kate and Prince William still actively create opportunities for the minds and minds of children to be comfortable to develop.

Prince William said: " *Seeing the children communicate with each other at school, I understand that we are living in a completely different era. Everyone has the freedom to express their thoughts and feelings .* "

5. Appreciate education

Reading is the favorite activity of Prince George and Princess Charlotte. Princess Kate regularly takes her children to museums and exhibitions. The children's favorite museum is the Museum of Natural History in London. " *The kids love to come here. And believe me, definitely not just by the dinosaurs,* " said Princess Kate.

6. Sports is essential

Prince William and his wife are famous for sports lovers. Duke Kate liked hockey on the grass, and Princess William liked to play football, basketball and polo.

Currently, Prince George and Princess Charlotte are too young, showing no particular interest in the subject but the spirit of sports is highly encouraged in the royal family.

7. Children must adhere to principles and behave in a public place

Children are aware that they will be "fired" from community events as well as public places in case of bad deeds or doing weird things.

Strict royal rules are not just for adults. Children who are aware of their behavior when in public. If he was too rebellious, Prince George and Princess Charlotte would have to stay at home for a special occasion.

8. Children can have fun at home

9. Physical penalties are completely excluded

No matter how bad the children behave, the Duke and Duke of Cambridge never use physical punishment to deter. Every parent often has his or her own ways to teach children. If Prince George is whining and making noise, Princess Kate will find a way to distract her child like singing loudly or pretending to fall and shout. These are often very effective and calm the children.

10. Tablets and computers are adult toys

George and Charlotte often spend a lot of time on outdoor activities like cycling and playing water.

Children are limited when using electronic devices . Kate and William believe that these toys are only suitable for older ages. Meanwhile, balls, jump ropes and some other outdoor activities are the best games in developing children's imagination and creativity.

11. Watch cartoons

Watching children's TV is always allowed in the family. However, it should have a specific time for it. Royal children have their own favorite animated films. Charlotte often likes to watch **Peppa Pig** (*the film revolves around very cute stories about pig family like playing water, hide and seek games, camping*); and George is always loyal to **Fireman Sam** (*Fireman Sam*).

12. Reasonable spending

You can see the prince's dress, the princess is very careful.

It is mainly expressed in refusing to buy new fashion items. People often see Prince George or Princess Charlotte wearing childhood clothes of their parents or Prince Harry (*brother Prince William*).

If you need to buy new clothes, the duchess will also choose clothes from popular brands, not the famous fashion houses.
