

# 15+ artistic masterpieces created from avocado seeds

Let us admire 15+ artistic masterpieces created with avocado seeds, which are thought to be just thrown away!

1. 8 fun, simple crafts for babies this summer
2. Admire the old TV that "turned" into a classic Raspberry Pi gaming machine
3. "Round the eyes" with 21 innovative ways to recycle old plastic bottles

Surely none of us strangely with avocado, delicious, can process quite a lot of dishes, right? Although the meat of the avocado is extremely nutritious, but the avocado seed is always considered to be discarded, the housewives always want to buy avocados with the smaller the better.

Like many others, **Jan Campbell** has thrown away the seeds of avocado many times, but until once at noon food preparation, Campbell accidentally created a nice cut on the grain. When removing the outer shell of the avocado seed, its beauty is revealed. Jan Campbell began to reflect on doing something with this kind of seed that just left.

Later, Jan Campbell created **very unique sculptures from avocado seeds, inspired by the close cultural fairy material** : maybe peaceful faces, ancient goddesses, but the god of the forest or any shape that inspired her.

The sculptures created by Jan Campbell can be displayed as figurines or used as pendants and decorations. They make the viewers curious and special because this item is made entirely from nature and also inspired by the most natural things.
