

# 15 best Android games 2024

It won't be long before we see some even more impressive titles than we are now. That's the future, but for now, let's take a look at the best Android games of 2024.

Games on mobile platforms are growing strongly. Especially games on the Android platform have made strong progress in the past year. It can be seen that more and more games are being released, challenging the limits of what mobile devices can do. In particular, this year there are 15 particularly outstanding names that TipsMake.com wants to introduce to you. Let's explore details through the article below now.

## Apex Legends Mobile

Apex Legends Mobile is a shooting style game similar to Fortnite and PUBG New State. However, this game has some more interesting control modes, attractive game modes, and many features that attract players. The basic mode has 60 players divided into 20 teams. There are also modes such as team survival, ranking. You can also unlock new characters during the game, each character will have different special skills.

Apex Legends Mobile has just been launched but has attracted more than 10 million downloads in just the first month.

## Call of Duty: Mobile

Call of Duty: Mobile is a name in the top best games from 2019. This game has both the usual FPS online PvP mode along with a 100-player life and death mode. This makes Call of Duty: Mobile more different than other games of the same genre.

## Genshin Impact

Genshin Impact is an action RPG with gacha mechanics. This is also a game that is in the top best games on the Android platform in 2020. After release, it received many compliments from critics thanks to its impressive images and excellent gameplay. Its visuals and gameplay are a bit similar to Zelda: Breath of the Wild but still have a certain element of attraction.

The game has a party system and you can summon new characters through the gacha system. However, the visual elements, gameplay mechanics, and completely open world make the game feel much less restricted than most games in the genre. Not only on the Android platform, you can also experience this game on PC, PlayStation.

## **GRID Autosport**

GRID Autosport launched in 2019 and immediately became one of the best racing games for Android. This is a premium game with no ads or in-app purchases, a rarity in this space.

The game has top-notch graphics, excellent control system, external controller support, countless attractive content and a rich racing system of all types.

## **League of Legends: Wild Rift**

Wild Rift is the highest rated 5v5 MOBA game at the present time. Matches usually last about 15 to 20 minutes, where you are required to combine well with your teammates and skills to win.

With beautiful graphics, characters with unique and interesting moves, Wild Rift is definitely a good game, worth playing and experiencing.

## **Legends of Runeterra**

Legends of Runeterra is one of the new games appearing on this list. It is an online fighting game similar to Hearthstone. Players need to collect cards and heroes and build their strongest deck from them. Then use what you have to fight online opponents. The game minimizes randomness, making gameplay more interesting. Legends of Runeterra includes 24 championships, countless cards, you can also invite friends to challenge together.

## **Levelhead**

Levelhead is a new game released by Butterscotch Shenanigans, the same company that released the game Crashlands. This is a side-scrolling game with 90 different levels, with interesting and humorous gameplay. However, what makes it stand out from other games of the same genre is its excellent customization mode. Players can build their own tables and upload them. Other players can download and join the experience.

Besides, the game has an acceleration feature, each level will have its own rankings. Final. Levelhead also supports multi-platform and cloud storage allowing you to comfortably experience the game. This is really an interesting side-scrolling game that you should try.
