

# 15+ invented strange, somewhat strange invention of the ancients

Let's TipsMake.com reference 15+ invented strange inventions, somewhat weird of the old in this article offline!

1. 14 extremely "cool" inventions will take you to the future
2. Laughing with 11 "unbelievable" inventions that people thought of
3. 20 unique products on Amazon that you want to own right away

**Albert Einstein** once said: "*If at first the idea is not unreasonable, there is no hope. I have never discovered anything by rational thinking.*" That means, the best things always come from "strange" thinking and unusual ways.

People have invented a lot of strange, completely meaningless things before . and continue to maintain that way. So we have inventions about everyday objects in today's life. Although there are somewhat strange and sometimes meaningless items, they also make us understand more about the creation of the ancients.

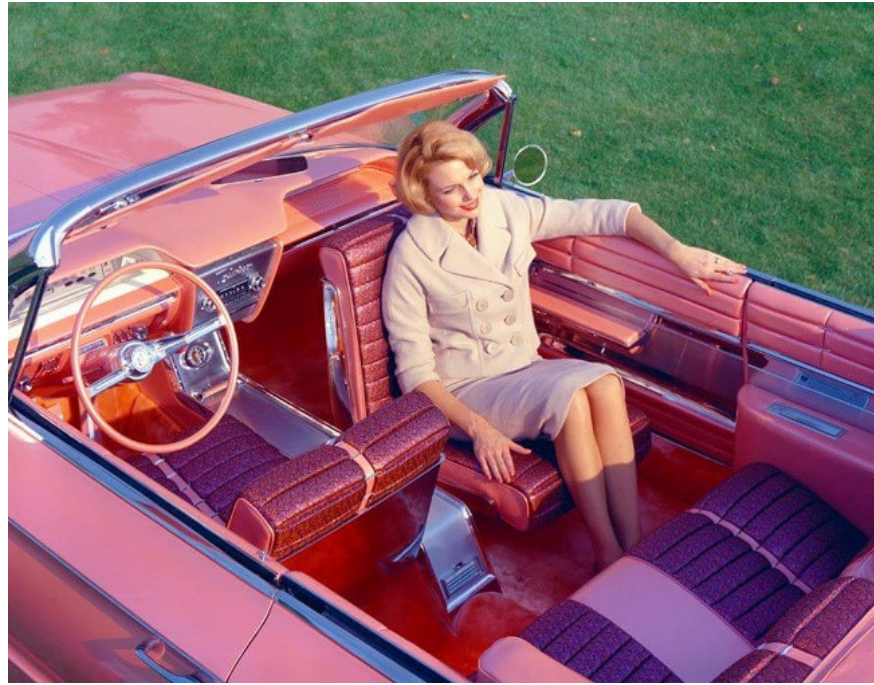

Let's TipsMake.com reference **15+ invented strange inventions, somewhat weird of the old** in this article offline!

## 1. Luminous tires

This magic tire is made of synthetic rubber and is lit with a light bulb mounted inside the wheel rim. This interesting invention was born in 1961.

## **2. Buick Flamingo**

© unknown / imgur

This is another invention that has been around since 1961. We have to admit, this car looks pretty impressive with passenger seats facing each other. But where is the seat belt?

### **3. Hair dryer connected to the stove**

© Nijs, Jac de / Wikimedia Commons

In the 1990s, French hair stylist **Alexandre-Ferdinand Godefroy** invented a combination of seat and a long exhaust pipe connected to the stove. In particular, the person sitting under the exhaust pipe will have to use a crank to blow the heat from the stove to the hair, helping the hair to dry faster and softer. This hair dryer design was then widely copied and became the symbol of hair salons.

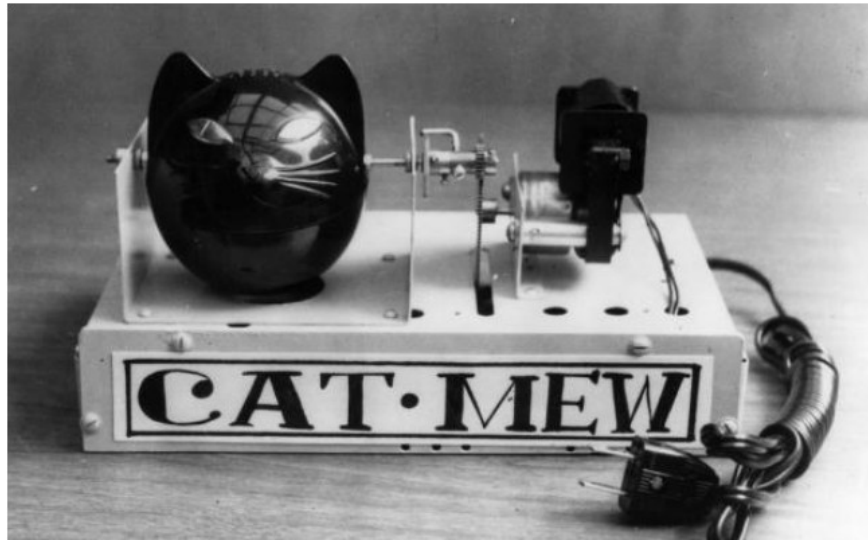

## 4. Roller skates

© George Grantham Bain Collection, Library of Congress / Wikimedia Commons
