1. All about Elon Musk's life, career path and success

Elon Musk - founder of Tesla, SpaceX and SolarCity is rated as one of the "crazy" billionaires in the world's technology village with many genius and bold inventions.

Genius is often quite eccentric. Elon Musk is a thinker, a creative person and also a confusing proof. From an early age, Elon Musk did not care about the world around him but always played with the brain in a certain planet in video games. Also because of that absent-minded look, in the middle school, Elon Musk was bullied. After graduating with a degree in Economics and Physics from the University of Pennsylvania, Elon Musk dropped out of doctoral studies after only 2 days to follow the call of the Internet. Elon Musk is always looking for ways to make money and after graduating from college, Elon Musk chose to do business instead of waiting for an Internet company to pay attention to him.

From many passionate sources that inspired Elon Musk, Musk now manages companies and projects on electric vehicles, self-driving cars, aerospace exploration, Mars colony, solar power and location. artificial intelligence.

As CEO at Tesla, SpaceX, SolarCity and OpenAI, Musk has time for "fatherhood", Hollywood, playing video games and thinking about big ideas. Here are **16 surprising facts about Musk** - a picture of an eccentric multi-disciplinary engineer:

1. Elon Musk's parents thought he might be deaf

When he was a kid, Elon Musk often stared at the space when his parents talked to him; So, they thought, maybe he had a problem with hearing. Musk's parents invited the doctor to visit but found nothing unusual.

Perhaps, at that time Elon Musk was busy dreaming. Later, Musk's mother, Maye, commented to a biographer - Ashlee Vance said: " *The boy is constantly*" playing "with his mind. Other . Now, I ignore it because I know: maybe it's designing a new rocket or something like that . "

2. Elon Musk was bullied badly at school

As a child, Elon Musk looked skinny and smaller than most of his peers. The boy is smart but often bullied at school.

While living in South Africa, Musk was constantly bullied by classmates by mocking his bad habits. Occasionally, Elon Musk was beaten. Once Musk was beaten, pushed down the stairs and fell unconscious. This caused an injury that caused him to have respiratory problems to this day. At the age of 41, Elon Musk had surgery to correct the deflected nasal septum from sequelae of violence since his childhood.

Was beat up pretty badly as a kid & left jagged septum. C? th? t?o c? s? d? li?u v?i I ?ã c?, so th?i gian ?? fix.

- Elon Musk (@elonmusk) May 25, 2013

During the recovery process, he regularly tweeted social networking ideas for Tesla, hoping that the action would help him forget about the pain.

Had a minor operation, so am in bed in meds. Probably should not be tweeting :)

3. Musk used to write a selling video game to make money at 12 years old

At 10 years old, Musk was bought by his father for a computer. He learned the code himself at a time when educational sites like Quora or CodeAcademy were not yet available. At the age of 12, Elon Musk wrote a selling video game that made money. It is called **Blastar** and has received 500 USD, when the source of this game was posted in South Africa's *PC and Office Technology* magazine.

In 2015, a Google software engineer, modified the code and ran it on HTML5 to turn it into playable. The main task of the player in the game is to destroy alien ships filled with destructive weapons and objects. Although this is a relatively simple game, you should remember that it was created by a boy 33 years ago.

" *It's a normal game . but I think it's better than Flappy Bird,* " Musk commented.

4. Elon pays college fees by organizing a party to collect money

While studying at the University of Pennsylvania, this self-made billionaire often held a party for his friends at the public house, earning 5 USD each for admission. Elon Musk and her roommate had to squeeze together in the common house for all boys. Their rooms were so poor that they had to take the black garbage bags to block the windows. Once, his mother had to be reluctant to " *ticket* ". Elon Musk is always conscious during the party, because he wants everything to be under his control. So, he never drank too much, even if it was the wildest party.

5. Elon Musk left school

In 1995, after graduating with a BA in Economics and Physics from the University of Pennsylvania, Musk decided to study for a doctorate at Stanford University. However, after just two days of coming to California, Elon Musk decided to postpone his studies and try his luck in the early Internet boom. Elon Musk left school to create Zip2, which specializes in developing maps and directions to online newspapers.

6. Musk is the father of 5 children

Elon Musk has 5 sons with his ex-wife - Justine Wilson. Griffin and Xavier twins were born in 2004; Damian - Saxon trio - Kai was born in 2006. Before that, Elon Musk and Justine Wilson had a son named Nevada, born in 2002; But then I suddenly died when I slept when I was only 10 weeks old.

7. Elon Musk is a real Tony Stark

Elon Musk is the inspiration for actor Robert Downey Jr. to play Tony Stark, in the blockbuster series Iron Man superhero. Actor Robert Downey was given a tour of SpaceX's headquarters from Musk in 2007 and what Downey described about Musk was " *an easy-going eccentric* ". When *Iron Man* was first released, director Jon Favreau also revealed: " *Musk is the ideal model for Downey to follow when acting as Ironman. Musk is a guest in Iron Man 2* ".

8. Elon Musk also has a very difficult time

After the divorce from his first wife, Wilson, her needy bloggers on LiveJournal, Elon Musk was almost exhausted and had to borrow rich friends to live through the day. Elon Musk decided to invest his last \$ 35 million in Tesla, to maintain the company. Tesla is getting more and more popular and currently costs about \$ 33.4 billion. Elon Musk's current assets are estimated at \$ 12.7 billion, according to Forbes.

9. Elon Musk owns a car of James Bond

In 2013, Elon Musk spent 866 thousand USD in the auction to own the car Lotus Esprit, used to film 1977 007 spy - " *The spy who loved me - Spy who I love* ". Elon Musk is very excited to get Lotus Esprit: " *It's great that a kid in South Africa can see James Bond and see him drive the Lotus Esprit at the pier in 'Spy who I love', push a button and the car can wade under water, and later I was disappointed to know that, in real life, that transformation couldn't be done, now I'm trying to upgrade Tesla to make that into reality* ".

10. Elon Musk appeared in The big bang theory program as a guest

In October 2015, Musk appeared as a guest on CBS's " *The Big Bang Theory* ", which is called " *The Platonic Permutation* ". In one scene, Elon Musk confessed that, instead of making chicken soup for the thanksgiving ceremony, he was distracted to wash dishes!

11. Elon Musk uses a tree to describe things: why he learns new things so quickly

Elon Musk is well versed in many fields and many people have wondered how he can study effectively on his own. During the exchange on *Reddit AMA* in 2015, an account asked about the process.

Elon Musk replied: " *When I feel like my head is full, the capacity is overloaded at a high level, I won't use it anymore. Actually, though, I think most people can learn more than they think, they differentiate themselves in a few areas without trying to tolerate more, small advice: It's important that you look at knowledge like a tree - make sure that you understand the root of the problem before you learn about the body and the big branches, then the leaves / details, otherwise, there is nothing to hang things on .* "

12. Elon Musk has an idea for "5th generation transport"

Big cities, especially in Asia, are still struggling to develop air transport systems, trains, self-driving cars and boats, and Elon Musk has considered building a new transport system by pipeline, extremely high speed named *Hyperloop* - dubbed the 5th generation transport.

1. Hyperloop's dream will be completed by the end of 2017 in Eastern Europe

" *Hyperloop never causes accidents, operates day and night despite the weather; especially passengers only take about 30 minutes for the 560km long journey from Los Angeles to San Francisco. Hyperloop will operate based on effective energy sources. High capacity, can also charge itself with the help of solar panels on the pipes, so Hyperloop has a good price, lower than the plane,* "Musk told PandoDaily in one trip. interview.

13. Elon Musk proposes to use a nuclear bomb in Mars

While appearing in *The late show with Stephen Colbert* , the host asked Musk to share the plan to take over Mars; Elon Musk replied: " *In the end, you can transform Mars into an Earth-like planet. You can warm it up.* "

When host Colbert inquired more about the issue, Musk went on to comment : "*There is a fast and slow way. The quick way is to use nuclear weapons to level the holes .*" After that, Elon Musk further explained: " *That idea can create two" suns "near Mars because of the explosion .* "

1. Is Elon Musk's plan to send people to Mars feasible?

14. Elon Musk wants to cover the Internet around the globe

On October 15, 2016, SpaceX applied to the US Federal Communications Commission (*FCC*) for permission to release 4,425 satellites, to bring the Internet to every corner of the Earth. Currently, more than 4,000 satellites (*active and inactive*) are floating in Earth's orbit.

15. Musk's secret of success is always clean
