

# 17 animations help you understand how the world around us operates?

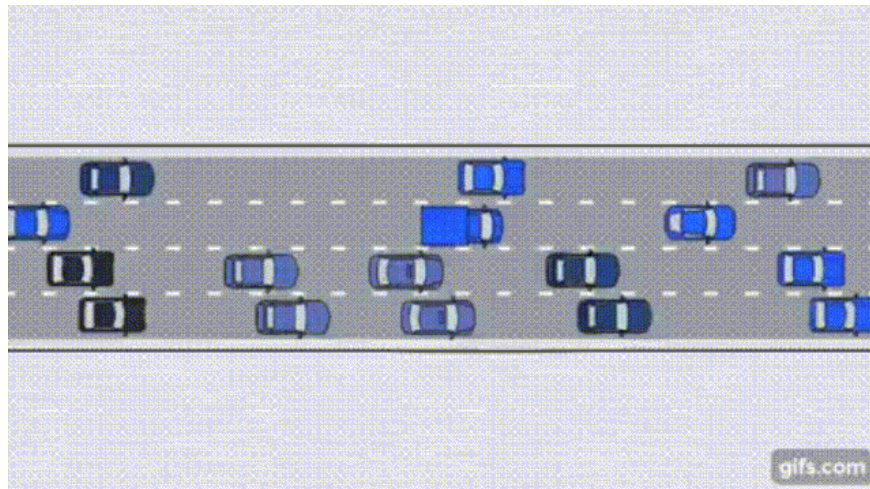

From the smallest things. This is how our world works every day. There are simple things that appear before our eyes every day, but perhaps until now you know its principles.

From the smallest things.

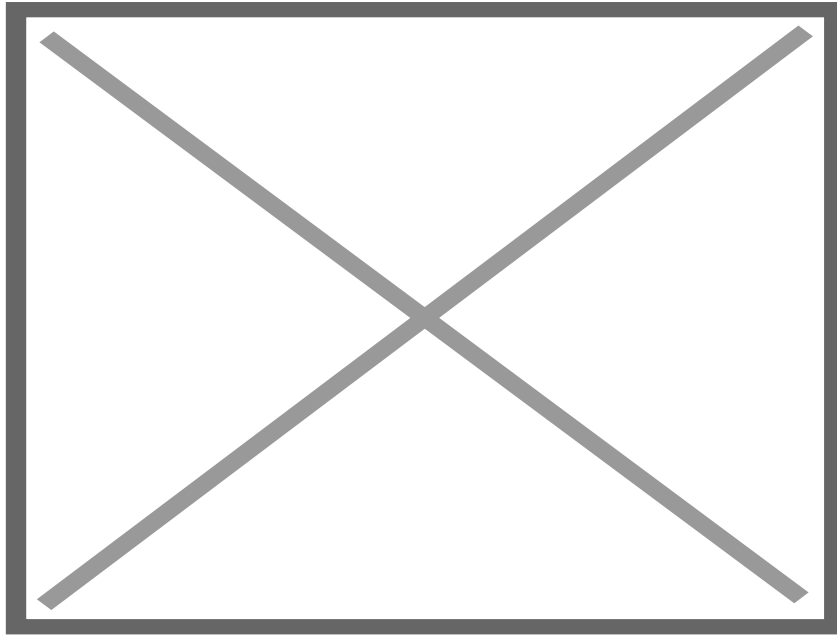

This is how our world works every day.

There are simple things that appear before our eyes every day, but perhaps until now you know its principles.

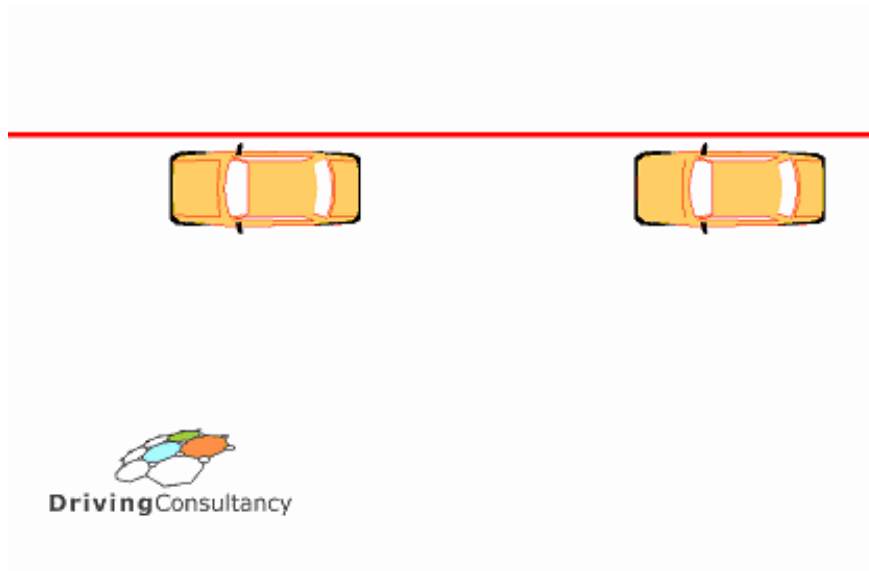

## 1. Like how the cars (red as in the example below) cause traffic jams.

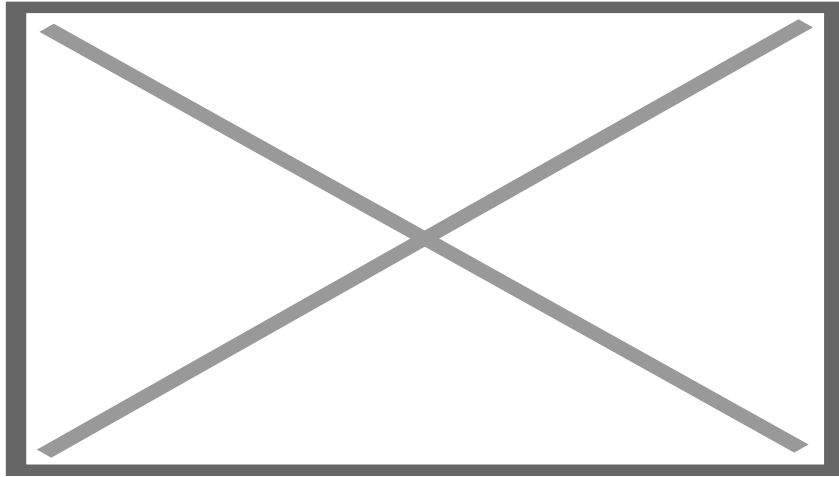

## 2. This is the number way to operate the car.

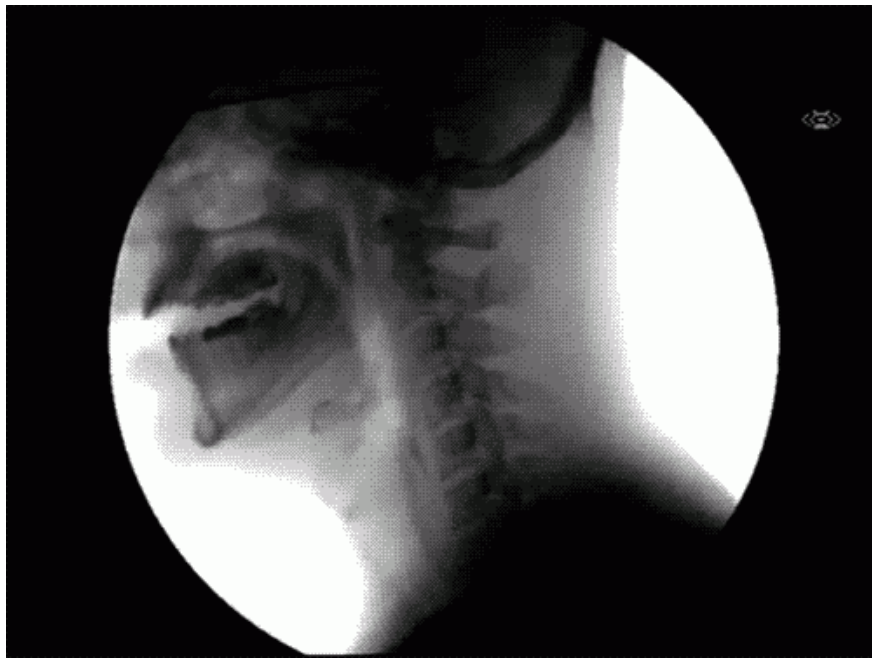

**3. For those who are not yet proficient, this is a guide for parking.**

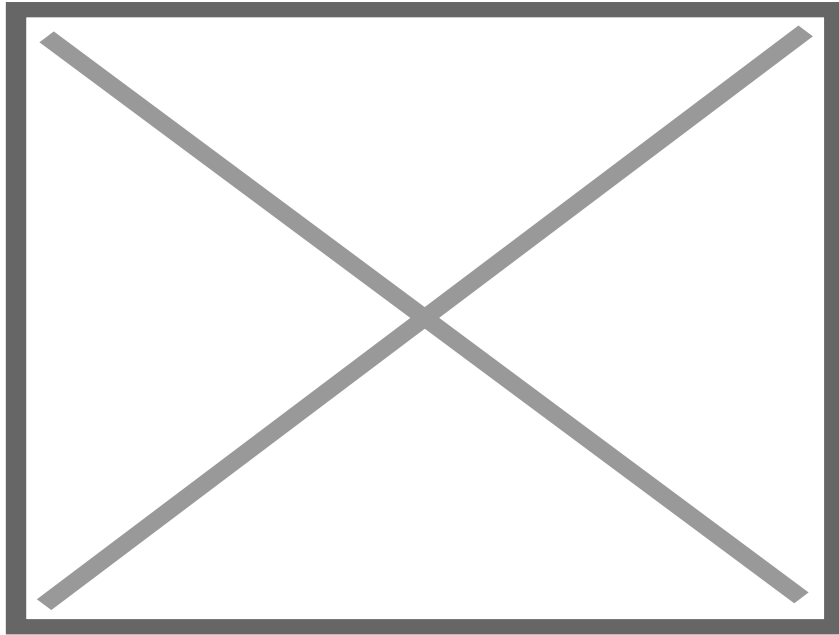

**4. How the key works.**

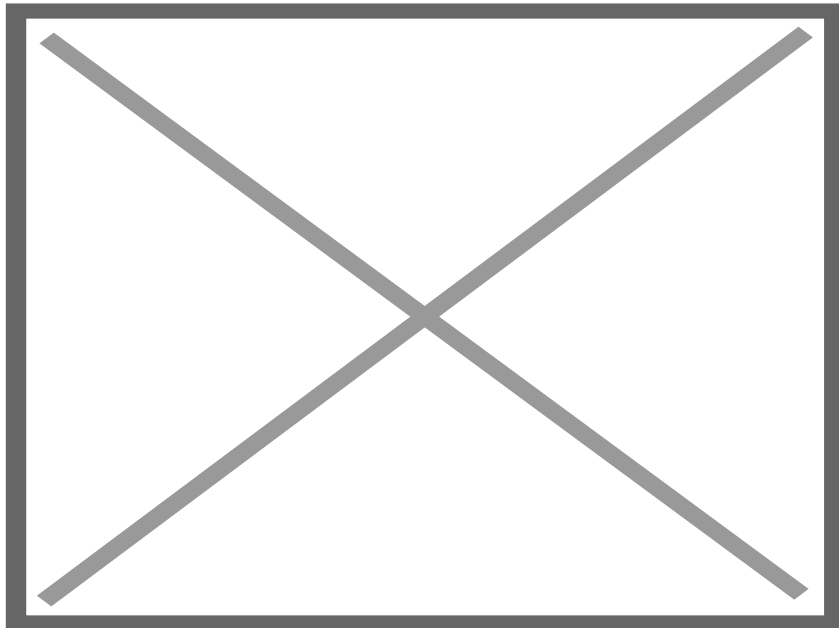

**5. This is a solution that flows from the mouth to the abdomen like this.**

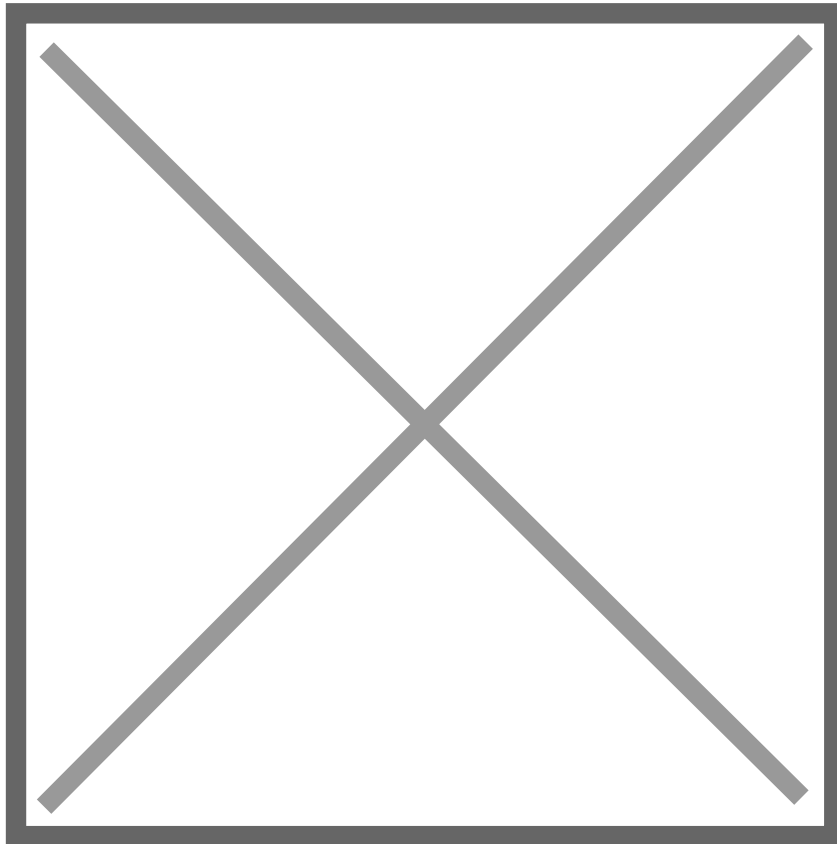

**6. Dogs have a natural cup that is more convenient than us.**

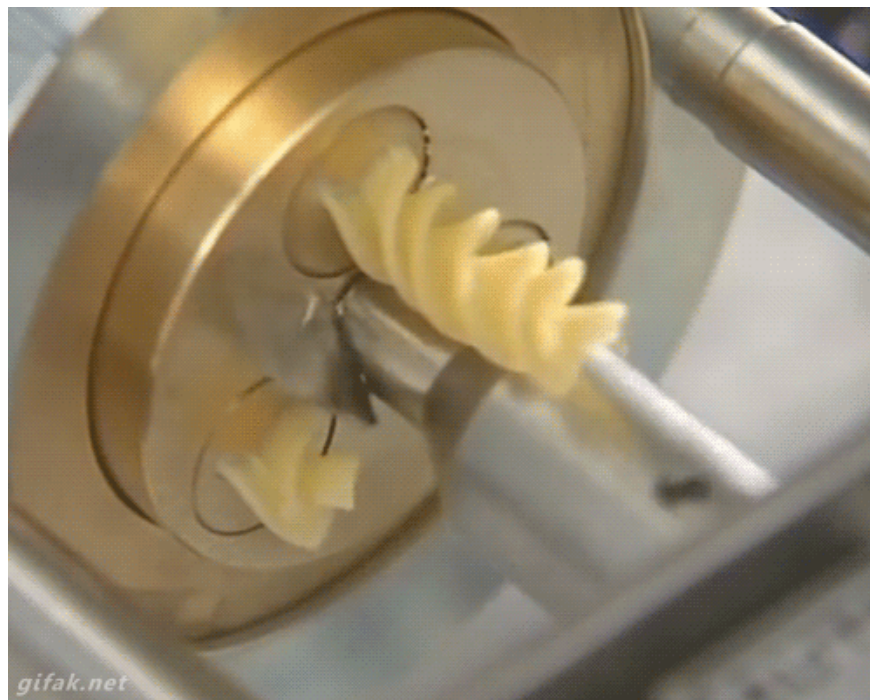

**7. This is an X-ray image of a dog drinking water.**

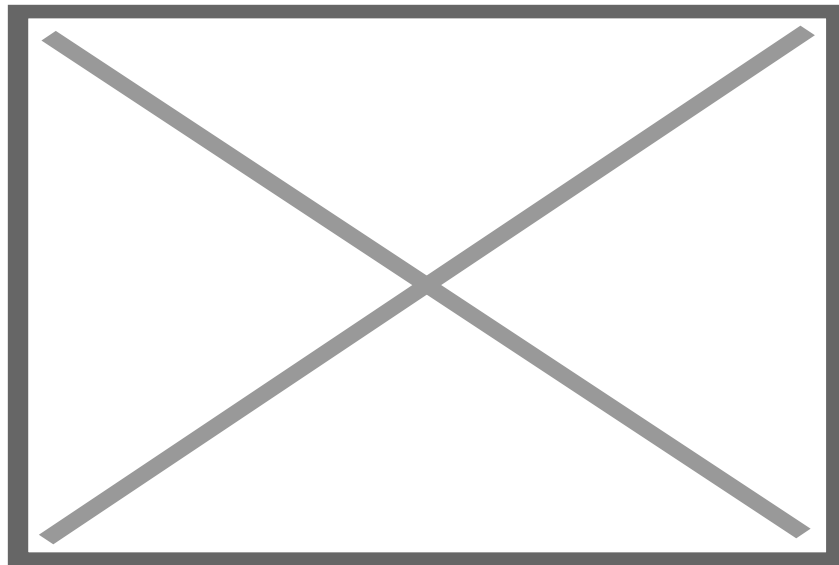

**8. How to lock our shirts / pants together.**

**9. Pasta packing is cut like this here.**

**10. And this is how to make pasta**

**11. This is how people create plates.**
