

# 18 proofs of 'virtual living' on social networks make us laugh

Let's see through 18 virtual living evidence on social networks that make us laugh!

1. "Vach face" 15 masters live virtual in the community
2. 17 "very impressive" advertising ideas on social networks
3. Round eyes with 10+ most hegemonic toilet icons on the planet

In today's modern life, **social networking** has become an indispensable part of many people's lives, having impressive pictures or pictures of 'likes' is not only is a pure entertainment game on social networks, sometimes it is also seen as a way to build a personal image.

There are many people trying to "show off" images of their "beautiful life" through social networks, but in the end it turned out to be extremely impressive trolls. Social networking is the place where activities that young people often refer to as 'virtual living'. Virtual in the status, emotions, virtual lines in each caption of each photo and the most virtual of the photos they post. This article will continue the classic virtual life series of young people on the current social network. Let us take a look at **18 "living virtual" evidence on social networks that make us laugh !**
