

## 2 simple steps to download videos and audio online from YouTube

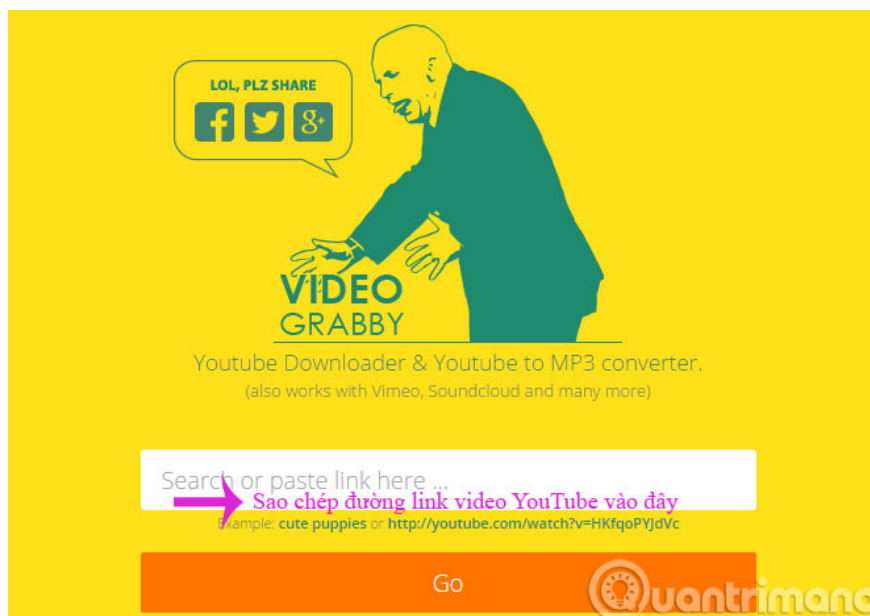

There are many different online tools that allow you to download videos directly from YouTube, but if someone wants to download a video file and wants to download the audio file to listen, they will have to use 2 different tools. This is quite inconvenient, especially for those who are not familiar with technology or do not have much free time. Therefore, today, TipsMake.com will introduce you a versatile tool that allows people to download both video and audio from YouTube. Please consult with us.

There are many different online tools that allow you to download videos directly from YouTube, but if someone wants to download a video file and wants to download the audio file to listen, they will have to use 2 different tools. This is quite inconvenient, especially for those who are not familiar with technology or do not have much free time. Therefore, today, TipsMake.com will introduce you a versatile tool that allows people to download both video and audio from YouTube. Please consult with us.

1. Rip MP3 from YouTube videos

### Step 1:

Access **VideoGrabby** homepage, paste the YouTube video link to download into the box below

## Step 2:

After the website has finished identifying the link, there will be 2 options for you

1. **Download Video** : Download both video and audio files as MP4 files.
2. **Download Audio** : Download audio files as M4A file

You choose 1 of 2 options or both depending on your needs.

**Good luck!**
