

20 advantages of HP ProBook laptop 4x30s

HP DuraFinish technology alloy case and Intel Sandy Bridge processor are 2 of 20 advantages of this model.

HP DuraFinish technology alloy case and Intel Sandy Bridge processor are 2 of 20 advantages of this model.

HP ProBook 4x30s are compact and elegant, with sophisticated comfort details.

The 20 advantages of HP ProBook 4x30s are:

- HP DuraFinish technology alloy case is impact resistant, anti-fouling, scratch-resistant.
- Waterproof chiclet keyboard reduces the risk of fire of important components inside the machine.
- Intel Sandy Bridge microprocessor for the highest performance in work
- Support up to 8GB of RAM, enough memory to run software that requires high performance.
- HP Fast Charge fast charging technology to fully charge up to 90% in just 90 minutes, in case the machine is completely turned off.

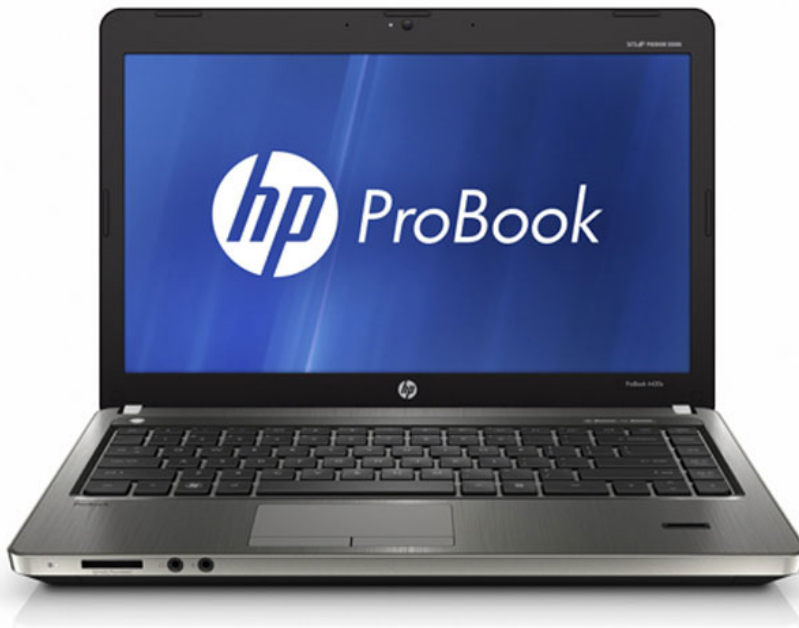

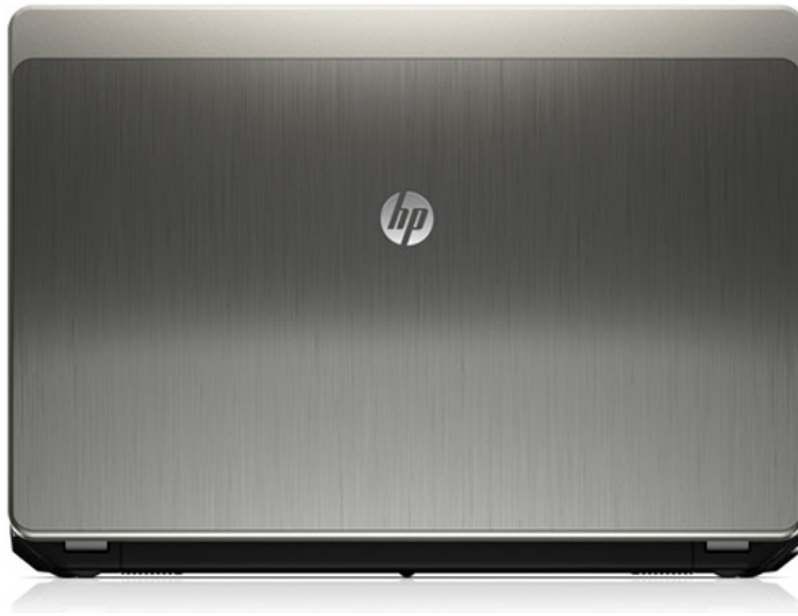

- USB 3.0 port for copying data 10 times faster than USB 2.0 (available on certain ProBook lines).
- Powered USB port for external DVD drive without additional adapter (ProBook 4230s).
- SRS Premium Sound loudspeaker system allows to enjoy symphonies with the most realistic sound, enabling remote conferencing without having to use external speakers.
- Hard drive encryption system helps store data.
- HP Face Recognition technology for face recognition (new generation).
- HP Fingerprint Sensor fingerprint recognition technology helps data security to avoid revealing passwords and also reduces the time to enter passwords when accessing different applications.
- Computrace Pro: enables customers to activate and purchase integrated lost tracing service on the machine
- ArcSoft Total Media Suite helps to play, edit and create videos, audio files quickly and beautifully.
- Connection Manager helps you to control wireless connections comprehensively (3G, 4G, Wi-fi, Ethernet and Bluetooth).
- HP ProtectTools provides remote management features, helping to set security measures for users easily.
- HP QuickWeb allows access to Internet, Email, contacts and calendar in just 5 seconds without having to start Windows.
- HP trueVision HD enables HD quality video conferencing via Webcam even in low light.
- Dual Micro system helps filter noise very well when using VoiceChat.
- HP Power Assistant measures, reports the amount of energy consumed.
- HP ProBook Professional Series is designed in a " *green*" trend *with* 90% recyclability when recycled.
