3. Tubi TV
4. FilmRise
5. ABC Family Channel
6. Live Tube
7. USTVNow
8. The Cooking Channel
9. Pluto.TV
10. BBC iPlayer
11. Popcornflix
12. TV TBD
13. Twitch
14. TV Land
15. Plex
16. YouTube
17. Adult Swim
18. TVPlayer
19. MovieZoot
20. NewsON

1. Charge

Charge is a free live broadcast service. It provides action movies, TV shows, sports, entertainment, etc.

Download the app in the official Kodi repo.

2. Comet TV

The Comet TV add-on is made by the same developer that created the Charge. Like Charge, it offers 24/7 live streaming.

The focus of Comet TV is science fiction programs. You will find old movies, series and classic TV shows, etc.

3. Tubi TV

Tubi TV is the first on-demand add-on list. It has more than 20,000 TV shows and movies, all of which are free and legal to watch. This application is ad-supported.

You will not find the latest blockbusters. In return, movies like Jeepers Creepers, Afterlife and Bandits can be found here. Like Netflix, the available content you see will vary depending on geographic location.

Tubi TV is available in the add-on BG store.

4. FilmRise

FilmRise's YouTube channel is one of the best ways to watch movies legally. This add-on gives you access to the same library from your Kodi application.

The company behind this application is a film buying and distribution company, so the quality of the available movies is very reliable.

5. ABC Family Channel

ABC Family brings a selection of the best family-friendly content from US TV network, ABC. Some content available without creating an account.

If outside of the US, you will need to use a VPN.

6. Live Tube

YouTube has been offering live streaming since May 2013, but by mid-2017, the minimum subscriber level has dropped to 100.

The change means that YouTube has become a live repository of content. You can find everything from music videos to news 24/7. This add-on makes live streams easy to browse and watch.

Live Tube is available in Fusion repo. Reference at:

7. USTVNow

USTVNow is a paid service for US citizens living abroad. For \$ 19 (440,000VND) / month, you can watch ABC, Fox News, ESPN, BBC America, AMC, etc.

On-demand content is also available.

8. The Cooking Channel

Who doesn't like to learn to cook better? The Cooking Channel, produced by the same team that is responsible for The Food Network, may be helpful in this case. There is a lot of content to refer to and new things are constantly being updated.

Again, users outside of the US will need to run a VPN.

9. Pluto.TV

Pluto.TV combines on-demand content and live TV channels. It provides access to mainstream channels like CNBC, Sky News, Bloomberg and Cheddar, as well as Internet-only channels like The Nerdist and IGN.

10. BBC iPlayer

If you're in the UK and pay a TV license fee, you can use the unofficial BBC iPlayer app. It provides live streaming of online TV channels and a library of content on demand.

Although not official, the app is available in the official Kodi repo.

11. Popcornflix

Popcornflix is ??not related to the controversial Popcorn Time movie streaming application. This add-on offers movies, trailers, clips, as well as free and legal TV series.

You can also view on the web or use the company's smartphone apps.

12. TV TBD

TBD TV is a channel for Millennials (the concept used to refer to those born in the period 1980-2000). Its content includes web movies, reality or pre-screened series of shows and featurettes (short films, usually documentaries, about 20-40 minutes long).

Besides, TBD TV also owns the copyrights of some feature films.

13. Twitch

Twitch is basically YouTube for gamers. You can watch others play your favorite games, listen to some comments (often hilarious) and chat with others.

14. TV Land

TV Land is a cable and satellite channel owned by Viacom in the United States, has been operating for more than 20 years.

The main content of TV Land is the TV series. TV Land offers an interesting combination of new and classic shows.

15. Plex

Plex is Kodi's major rival. So, if you are a Kodi user, why should you install Plex on Kodi?

You will have access to Plex's unofficial channels, which will help increase the amount of content available to you.

16. YouTube

YouTube boasts 400 hours of video uploaded every minute, 5 billion videos on the platform and 50 million content creators. Just install the YouTube add-on for Kodi and you can enjoy your favorite content.

17. Adult Swim

Adult Swim is a small adult-oriented branch of Cartoon Network. Adult Swim shows cartoons, mockumentary (a type of film or television program that depicts fictional events but is presented in the form of a documentary), sketch comedy (comedy with short segments), and programs direct action.

Adult Swim offers a large number of partnership programs, including King of the Hill, American Dad and Family Guy.

18. TVPlayer

TVPlayer is another add-on for people in the UK. If outside the British Isles, you will need to use a VPN.

TVPlayer offers more than 100 channels, including full UK top channels. The TVPlayer add-on is available through the Fusion repo. Reference at:

<http://fusion.tvaddons.co/>

19. MovieZoot

MovieZoot is a legal way to watch thousands of copyrighted movies. Quality varies dramatically, but you can be confident you'll find the latest movies.

You also get access to old classics like To Kill a Mockingbird, A Farewell to Arms and God Created Woman.

MovieZoot is available in Fusion repo. Refer at;

<http://fusion.tvaddons.co/>

20. NewsON

NewsON is a combination of the 5 largest television stations in the United States and offers 170 channels from 108 US cities. The NewsON add-on is geographically restricted, so you need to be in the US to be able to watch streams.

NewsON is one of the best ways to watch news live on Kodi.

These legitimate Kodi add-ons mean you'll never run out of content to enjoy, but if you're still looking for more, you can learn how to watch live TV on Kodi. And did you know that Kodi can act as a console to play retro games?
