

# 20 most powerful figures in the world of technology

## part 2 - People change the world

In the previous section, we came together to explore 10 power names in the technology world. They are all billionaires and have great influence in their field. However, in this section, we will also meet more 'terrible' characters.

In the previous section, we came together to explore 10 power names in the technology world. They are all billionaires and have a great influence in their field. However, in this section, we will also meet more "terrible" characters. It can be said that they are the people who make up the modern world that we live in. Let's find out later.

### 10. Satya Nadella

Occupation, position: CEO of Microsoft

Country: United States

Age: 51

Satya Nadella is an Indian IT specialist. On February 4, 2014 he was selected as the general manager (CEO) of Microsoft Corporation to replace Steve Ballmer. Prior to that, he was the executive vice president of Microsoft's Cloud and Enterprise division, responsible for building and operating the company's computing platforms, development tools and cloud computing services. Since becoming the third CEO of Microsoft, Satya Nadella has worked seriously to steer the boat Microsoft to overcome difficulties and return to the position of the former ruler. Although Microsoft is still a software giant with revenue of \$ 95 billion, it is fair to say that for a long time they have lost their pioneering position in innovation and driving the market. of the technology world.

In 2012, Microsoft seemed to be on the verge of collapse. They had the first quarter of losses in company history, when their smartphone strategy failed. But Satya Nadella changed everything. He successfully released Windows 10 - a Windows version that attracted more than 110 million users in just three months. With clever policies, this CEO has turned Microsoft's competitors such as Salesforce and Oracle into strategic partners that benefit the company. In addition, he is the one who brought Microsoft into the Internet of Things market, which is rapidly developing with new databases, cloud services, and large data analysis services. All of this has contributed to making Microsoft the world's leading technology leader in capitalization after less than 5 years under the leadership of Indian CEO Satya Nadella .

## 9. Elon Musk

Occupation, position: Tesla CEO and SpaceX

Country: United States

Age: 47

Elon Musk is an American inventor, businessman, and billionaire. He is known as the founder of SpaceX and co-founder of Tesla Motors and PayPal. Until now, Elon Musk has invested, established or operated 18 companies, including the two most important innovative technology companies in the US, Tesla Motors and SpaceX. 2015 is a year that marks the great success of Elon Musk and its technology products, with the start of handing over the

world's most modern electric car running Tesla Model X to customers, and the launch. of a SpaceX missile attached to the international space station. These are also the two focal points that the billionaire identified as his development goal.

A little bit about the past, before reaching a myriad of successes and holding a fortune of up to 19.1 billion USD as of now, since young Elon Musk has been a prodigy, he went to Canada when he was 17 then the United States to study and pursue the dream of developing technologies that change the future of humankind. To realize this dream, Elon Musk's first accomplishment was to become a co-founder of PayPal in the late 1990s. After years of successful work with PayPal, he accumulated. giving me billions of dollars of capital and moving to invest and test future technologies, green energy and space conquest. At SpaceX he is the CEO and Head of Design, while at Tesla Motors he is the President, CEO and Product Architect. Musk is also the Chairman of SolarCity. ## 5. Sergey Brin

Occupation, position: Co-founder and president of Alphabet

Country: United States

Age: 45

Sergey Brin is an American businessman, who co-founded Google with Larry Page. They also succeeded in carrying out a complete restructuring of Google. This move made Google a subsidiary of a new joint stock company called Alphabet, chaired by Brin and Page as CEO. All other Google joint venture projects such as Nest and Google X, now also become separate companies owned by the Alphabet Group. This technology group generated \$ 66 billion in revenue in 2014.

Sergey Brin is now chairman of Alphabet and has an estimated asset of \$ 53.2 billion, making him the ninth richest person in the world (according to Forbes' billionaire list in 2018) as well as people with Ninth influence in the world (at the same level with Larry Page).

Sergey Brin expressed his passion for the Internet very early in his time at Stanford. Since he was sitting on university lectures, he and Larry Page created a search engine that later developed into Google as we are

currently using. He is also one of the youngest billionaires in the world.

## 4. Mark Zuckerberg

Occupation, position: Founder and CEO of Facebook

Country: United States

Age: 34

The leader of the world's largest social network is going through a year of not doing anything well. He had just had a hearing before the US Congress on the effects of Facebook in the US presidential election in 2016. In addition, Facebook was also fined in some countries when using customer information one. illegal way. However, these problems still cannot stop Facebook's development worldwide. Facebook claims that its website has one billion users a day and 8 billion daily video views, double the number reported in previous years. The company's stock has increased continuously and as a result Mark Zuckerberg's net worth has skyrocketed to \$ 65.8 billion.

Go back a bit to the past. Zuckerberg launched Facebook in his dorm room at Harvard University on February 4, 2004. In the process of creating, building and perfecting this social network, he received help from his classmates. and many other Harvard students. Since then, Facebook has grown rapidly, reaching one billion users in 2012.

In addition to talent and wealth. Mark Zuckerberg is also known for a generous heart. In October 2014, Zuckerberg and his wife Priscilla Chan donated US \$ 25 million to finance the fight against the Ebola virus, especially the swine flu epidemic in West Africa. On December 1, 2015, they announced they would give their 99% of their Facebook shares (equivalent to \$ 45 billion at the time) to the Chan Zuckerberg Initiative (according to Wikipedia), and there was a lot of activity. other charity Mark Zuckerberg deserves the title of the world's most talented and influential billionaire.

### **3. Larry Page**

Occupation, position: Co-founder and CEO of Alphabet

Country: United States

Age: 45

After a successful restructuring with Sergey Brin Google, Larry Page is currently the CEO of Alphabet Inc, Google's parent company. He has been in this role since July 2015, and is currently the current CEO of Google, run by Sundar Pichai. Alphabet is currently one of the companies that contribute to making great progress in many different industries in which the key is still high technology.

In the past, Larry Page and Sergey Brin have built and successfully developed Google - one of the leading technology companies in the world. From 1998 until now, the two of them have earned \$ 53.6 billion and \$ 53.2 billion respectively, and are on the list of the richest and most powerful people in the world. Specifically, the couple developed the company from a doctoral project at Stanford into one of the most powerful technology companies in the world. In addition to the popular search engine Google, the company has everything in hand, from home automation and self-driving cars to research that extends people's lifespan.

### **2. Jeff Bezos**

Occupation, position: Amazon co-founder and CEO

Country: United States

Age: 54

Jeff Bezos is a technology entrepreneur, an American philanthropist and investor. He is also one of the key players in the development of e-commerce as the founder, chairman and CEO of Amazon.com. It can be confirmed that Amazon.com is an undeniable superpower in the e-commerce world. In recent years, Amazon shares have skyrocketed, causing the wealth of Jeff Bezos founder and CEO to increase to \$ 120 billion. Thanks to the leadership and great steps Jeff Bezos has set, Amazon.com comes from a book-selling website that has expanded into a variety of different products. Amazon.com became the largest retailer on the Internet. Now they are also one of the world's leading companies in artificial intelligence and cloud computing.

On the property, Jeff Bezos also had an interesting race with Bill Gates for the position of the richest man on the planet. According to Forbes' ranking, July 27, 2017 with an estimated asset of more than \$ 90 billion, Bezos has surpassed Bill Gates to become the richest person in the world. But Bezos lost the title on the day when Amazon's stock fell. On October 27, 2017, Bezos once again overcomes Bill Gates to become the richest person in the world. On November 24, 2017, Amazon's stock price increased by more than 2.5%, helping Jeff Bezos's net assets for the first time reach \$ 100 billion (according to Wikipedia).

## 1. Bill Gates

Occupation, position: Microsoft co-founder, co-chairman of the Bill and Melinda Gates charity fund

Country: United States

Age: 63

No one can be more worthy than Bill Gates for the position of the most influential person in the technology world, in terms of both talent and personality. Bill Gates co-founded Microsoft in 1975 with his childhood friend Paul Allen. Both of them have built an iconic software company in the world together. He has always been on the list of the richest people in the world, and the richest man on the planet from 1995 to 2014. Currently, Bill Gates is holding the wealth of assets estimated at 95 billion USD. In fact, one of the reasons Bill Gates lost the richest person in the world is not because Microsoft has lost money or because your company has grown so fast, but because he has done too much charity. He and his wife are the executives of one of the world's most influential charities, the Bill and Melinda Gates. They founded this charity in 2000 after reading an article about curable diseases but still causing millions of child deaths in developing countries.

Since its founding, the organization has awarded about \$ 34.5 billion for a range of community activities including efforts to eliminate HIV, malaria and many other infectious diseases. They also support agricultural development, emergency relief, build global libraries, help the urban poor and invest in education.

Bill Gates and his good friend billionaire Warren Buffett have started the Giving Pledge project to encourage other billionaires to make more positive charity, and give away half or more of their assets. More than 135 billionaires have registered for this project.

Bill Gates: A genius with a great heart!
