

20 sayings of billionaire Elon Musk for those who dare to dream

Elon Musk, 45-year-old billionaire from South Africa, has held many positions, from founder, CEO and Director of many large corporations and companies.

1. All about Elon Musk's life, career path and success
2. 16 secrets less known about technology village billionaire "Iron Man" Elon Musk
3. Details of the plan to turn a successful Mars man for only \$ 100,000 by Elon Musk

The 'multi-talented' man is probably the two most suitable words to describe Elon Musk. Becoming a millionaire at the age of 27 and by the age of 45, he became a top billionaire who holds many important positions, from the founder, CEO and Technical Director of SpaceX Aerospace Group; co-founder, CEO and product engineer of Tesla Motors; Co-founder of Zip2, as well as PayPal's co-founder . With such successes, Elon Musk is an ideal model for us to strive for.

At the age of 45, many people, when successful, often spend a lot of time to rest, but with Elon Musk it is the exact opposite, despite many successes, but not at those successes Elon Musk continue to make constant efforts to innovate and reach new heights in his career.

Here are 20 life sentences of Elon Musk to inspire those who dare to dream, read and feel for success like Elon Musk:

1. First create what is possible, and then what can happen will happen.

2. Receive very important comments. This allows you to immediately rethink what you have done and how to improve it.
3. If you wake up every morning and think tomorrow will be a brighter day, that day will be a good day for you.
4. Establishing a company is like baking a cake. You must have all materials in the correct ratio.

5. People will work better if they determine the goals and motives of the job. At that time, they will be motivated to work and feel more interested in work.
6. My biggest mistake is probably overweight to measure each person's talents instead of their personality. I think that each person needs to have a kind heart and that is important.
7. If you are a CEO, you will have to do many things that you do not want to get your hands on. But if you don't do those things, the company won't be able to succeed. No job is too inferior.
8. Instead of doing special jobs differently, complete them as efficiently as possible.

9. It is important that we learn how to be happy with our peers, otherwise your life and work will not be as expected.

10. I think an ordinary person can make himself extraordinary.

11. Work crazy. Take 100 hours to work each week.

If others spend 40 hours working, while your number is 100 hours, even if you do the same job, you will soon get results within 4 months instead of 1 year.

12. Some people don't want to change, but you need to embrace change if alternatives are a disaster.

13. Perseverance is very important. You should not give up unless you are forced to give it up.

14. People often have special prejudices for those who dare to risk. Everyone tries to make the job as safe as possible.
15. Pay attention to negative comments and be willing to receive them, especially from friends. Very few people want to hear suggestions but the comments are really helpful to them.
16. What makes people think critically? I think that thinking of ourselves has forced us to decide.
17. People should pursue things they are passionate about. That is their true happiness.

18. Talents are extremely important. Like when playing sports, the team that owns the better member is usually the winner, but the strength of the whole team will be multiplied when all members work together and compete based on the same strategy.
19. I think we have a duty to maintain the will of the people to ensure that it will not be eroded in the future.
20. Dare to fail. If you have never experienced failure, you have not really innovated.
