

2017 is the year we ask Google how to do it.

The most searched keywords on Google in 2017, it turns out, are questions that are difficult to create: 'why' and 'how'?

The most searched keywords on Google in 2017, it turns out, are questions that are difficult to create: 'why' and 'how'?

The top most searched keywords on Google in 2017 do not surprise us. The three most searched words are Hurricane Irma (Hurricane Irma), iPhone 8 and iPhone X. This year's search engine is also dominated by guiding questions (How), headed by 'how to make ghostly slime '(slime),' how to make eclipse glasses' and 'how to buy Bitcoin'.

Last year, the world needed Google to guide a lot of things

Besides the top keywords mentioned above, Google also raised questions such as how much wall construction, how many refugees and storms in the world, how to freeze credit, do How to help Puerto Rico. When more and more people ask Google 'How?' The higher the accuracy of the results and the ranking of the algorithm.

According to a study, people trust Google more than other technology companies, especially when the Internet is full of false information.

However, in 2017, Google also brought in many inaccurate content, displaying the results from the infected pages . Because it almost dominates the search engines, Google is also 'monopolizing the truth online. . The ranking of their search results is even more important than ever.

Year in Search 2017 also features film actors, world news, movies.
