

3 best Apple Watch watch face customization apps

One of the biggest advantages of smartwatches in general and Apple Watch in particular compared to traditional watches is the ability to customize, change without limit for watch faces.

This helps users to never get bored with their watch even for daily use. Here are some great apps that let you create, customize, and download your Apple Watch watch face, so that you always have a fresh experience with your watch.

Facer

With thousands of watch face options available, Facer is one of the hugely popular apps in the Apple Watch community.

The large community of users also makes the number of watch faces available on Facer extremely rich. Users can easily access and use thousands of different designs, from minor background changes to a complete overhaul in the face design style. You will not find any limitations in terms of ideas here.

Facer's built-in editor allows you to easily design your own watch face and share it with other Apple Watch users. One of the biggest benefits you can find here is a partnership between Facer and popular brands like Tetris, Ghostbusters, Garfield, MVMT or Star Trek, which gives users access to a wide range of facial prototypes. Watches are licensed by these brands.

The Facer app itself is free, and watch faces created by community members can also be downloaded completely free.

Buddywatch

With the nickname 'Apple Watch stylist', Buddywatch is also an extremely popular app in the Apple smartwatch community.

With an intuitive, easy-to-use interface, it won't take you long to get acquainted with Buddywatch and create and search for yourself countless custom watch faces. In addition, the application will also make recommendations on choosing a strap to suit each individual watch face model. Of course, you can also download the watch face to your device as well as personalize it to the maximum style you want.

If you need any additional elements to perfect your watch face, Buddywatch will notify you of the apps you'll need. Using the search button allows you to browse through many categories of watch faces in different styles, including casual, luxury, health, sports . In addition, Buddywatch can also offer you suggestions. know which watch face model is better suited for each particular Apple Watch version.

Along with the app version, Buddywatch also has a web platform with a minimalistic, easy-to-use interface.

Watchfacely

Watchfacely is also a name worth experiencing. As soon as you open the app, you will see a list of all the most popular watch face models of the week. Keep scrolling down and you will see the latest watch faces, just added on the app. If you scroll down and tap 'View All', you'll see an endless list of watch face options available that you can download, with a variety of themes and design styles. Of course, there will also be options for you to tweak your own watch faces.

If you return to the home screen and look down under 'Popular This Week', you can see different theme cards corresponding to different categories of watch faces, such as #compact, #simple, #hustle. , #solar, #memoji.

With Watchfacely, you're sure to find the watch face model you want.
