After installation, open the PDF file to rotate with Foxit Reader. Right-click on the document content, you will see the **Rotate Right** option , it will help rotate the document to the right 90 degrees.

Or you can also use the **Rotate Left** and **Rotate Right** features on the toolbar to rotate documents to the left, right as you like.

Once you've turned in the right direction, click **File > Save As** or press **Ctrl + Shift + S** to save the document.
