

3 laptop models ideal for business people working remotely from the 'season'

When choosing a laptop for business people, in addition to the requirements of thin and light to meet the needs of flexible work anytime, anywhere, laptops must also own a luxurious appearance with powerful configuration, excellent performance and calculation. advanced security features.

The demand for working from home due to the complicated development of Covid-19 caused the laptop market to grow significantly in the past two months. Among many laptops designed for business users, LG gram is one of the ideal options, with significant technological improvements in 2020. LG gram trio with screen sizes of 14, 15 and 17 inch helps users optimize productivity through outstanding advantages.

LG gram 14 "- model" expensive "

LG gram 14 inch is the model that owns the most compact appearance in the 3 laptops improved by LG this year. Similar to its predecessor, the LG gram 14 has an amazingly thin profile, measuring only 16.7mm and weighing just 999g, just like the name of this laptop. With a laptop weighing less than 1kg, users can work anywhere. When working from home, a compact laptop allows users to change seats in the living room, kitchen or garden, . as a mental shock, reducing feelings of boredom, fatigue, especially increased inspiration for work.

Besides, the thin and light appearance does not make this 14-inch laptop "weak" in configuration. With the 10th-generation Intel Core processor and integrated Intel Iris Plus graphics processor, LG gram 2020 delivers up to two times more graphics performance than the 8th generation. So, not just in the model 14 inch, all LG gram 2020 laptop models support creating professional content with HEVC encoding 2 times faster, allowing users to experience stunning images through smooth 4K HDR video playback . Strong performance in a compact design makes this model become the most popular laptop model of LG at the moment.

LG gram 15 "- super light despite its large size

Not only does the LG gram 15 "model not only possess an ultra-light weight of 1120g, but the screen is also 15.6in. bring LG gram 15 "with both requirements above to anywhere to work and play.

Remarkably, this model retains impressive battery life, even when operating with significantly improved performance, thanks to the upgraded battery capacity from 72Wh to 80Wh. After fully charging the battery,

users can use LG grams up to 18.5 hours, comfortably work for 1, even 2 days without having to worry about plugging in.

In terms of visibility, the LG gram 2020 screen features an IPS panel of Full HD resolution (1920X1080), which delivers vivid, clear images with outstanding color accuracy and no distortion at all angles. look.

LG gram 17 "- ideal for multitasking

If your job requires a laptop with a larger screen size but still meets the compact criteria, surely the 17-inch LG gram model is the ideal choice.

In addition to owning all the advantages of two 14 and 15 inch models, the 17 inch model is also equipped with a 16:10 screen, Wide Quad Extended Graphics Array resolution (WQXGA), turning the machine into a laptop. 17-inch screen in a 15.6-inch body. LG gram 17 "screen size and aspect ratio is suitable for graphic design tasks, video editing, and can display more information on the screen, helping to increase productivity when users perform any task, especially when working remotely, users or have to meet online, read documents, note information . at the same time.

In addition, the 2020 LG gram models also impress when allowing for charging, data transfer and display via a single Thunderbolt port, helping users forget the worry of wires and increase work efficiency. In addition, the new generation LG gram laptop products also provide superior information security for businesses thanks to the power button with fingerprint recognition function. The LG gram 2020 notebook series also meets the MIL-STD-810G military durability standard with superior shock resistance, enduring performance in all conditions.

Currently, LG gram 2020 has a listed price of VND 29 million to VND 42.5 million for 14 to 17 inch versions. You can also quickly book these laptops in the period from April 1 to April 30, 2020 for attractive deals. Specifically, when ordering LG gram 2020 products, users will have the opportunity to receive attractive gift sets worth 6,000,000 VND, including: 1 fashion shock-proof bag, 1 Logitech pebble mouse, 1 WD SSD hard drive 512 GB.
