

3 ways of watermelon trimming presents beautiful Mid-Autumn festival

You can recreate the lovely images of the Mid-Autumn Festival on a tray for kids with this beautiful 3-way watermelon trim!

1. How to decorate five fruits on Mid-Autumn Festival
2. Decorate the Mid-Autumn fruit tray with 7 ways to create shapes from grapefruit

Every year on the night of the 15th of the 8th lunar month, all over the country families gather together to prepare for the Mid-Autumn Festival. In the mid-autumn festival tray in addition to the baked goods and flexible cakes, fruit is an indispensable item on the antique tray to play the moon. For more eye-catching, mid-autumn moon trays, many people have created many ways to watermelon such as carp, pearl bunny, and gorgeous Milky Way stars. So, please take a look at the following watermelon trimmer.

Type 1: Pruning carp-shaped watermelon looks moon-night moon

To make this carp, the ingredients you need are: round watermelon, sharp knife, toothpick, spoon and spoon, bowl.

First place the watermelon horizontally, then use a toothpick to outline the shape of the carp on the melon to facilitate the creation of the following steps, spreading the bowl wide to make it easier to scoop the melon later. Use the spoon to scoop out the melon to create the shape. Only use a half circle of spoon to scoop the melon, insert it deeply into the melon shell for sharpness, these half circles follow each other in an oval shape.

Next use a spoon to scoop out the pickles to make fruit salad. Finally, you use a sharp knife to trim the lines that you used to paint before that you have a carp to display the fruits to the children for the Mid-Autumn Festival.

Type 2: How to trim a watermelon into an image of Mid-Autumn Pearl Rabbit

Just like how to trim carp-shaped watermelons, to prune the pearl bunny, you also need to prepare watermelons and regular fruit peeling tools. Next you slit the melon in the shape of a round rabbit with long ears, the decoration is quite easy. The way to do it is simple, but the result will surprise you: A funny, lovely Rabbit Rabbit carrying on me is full of delicious fresh fruits!

The melon lines only need to use straight strokes, even the round rabbit's face only needs to be incised with a straight line because it is the circular shell of the melon that contributes to a round incision. If you are not confident in drawing rabbit ears, look for the image of the bunny printed on the paper and the ear-shaped base to fit 1/2 long melon. The melon peel is used to decorate the beard shape, attaching the eyes with different fruit colors to stand out.

Type 3: How to trim a watermelon in the shape of a Milky Way star sparkling Mid-Autumn night

In the mid-autumn night, twinkling stars make the moonlight, making the moon light more and more beautiful. Get ideas from the night sky with stars and moon you can also create a colorful fruit plate. To be able to create these stars, it is extremely simple that you only need a melon, a pen and a knife that you can freely create.

First, use a ballpoint pen to draw stars such as stretching a trail of wavy light, then use a sharp knife to deftly sheath the bark and burrow into the star shapes you used before. The whole front of a melon is bright white stars, a bright green border and hidden behind a red melon background that highlights the stars. The Mid-Autumn Festival has just enjoyed delicious fruits, and admired the beautiful images like sparkling galaxies, nothing better!

Looking at the image people often think is too complicated but in fact this is just a simple, even easier type of melon trim than either type 1 or 2 above. You only draw the picture on the melon peel, cut the knife according to the shape, remove the green crust to reveal the white pulp, cut off the excess melon, and remove the melon from the shell. See how it works below!
