Article contents:

Method 1. Using physical buttons

Method 2. Using palm swipe to capture

Method 3. Using Assistant Menu

How to take a screenshot on a Samsung A21s phone.

Method 1: Taking a screenshot using physical buttons.

Step 1: Turn on the screen to the content you want to capture.

Step 2: Press the **Volume Down and Power** buttons simultaneously on the right side of the screen. The

screenshot will be successful when the screen flashes and you hear a camera shutter sound.

Method 2. Take a picture using Palm swipe to capture.

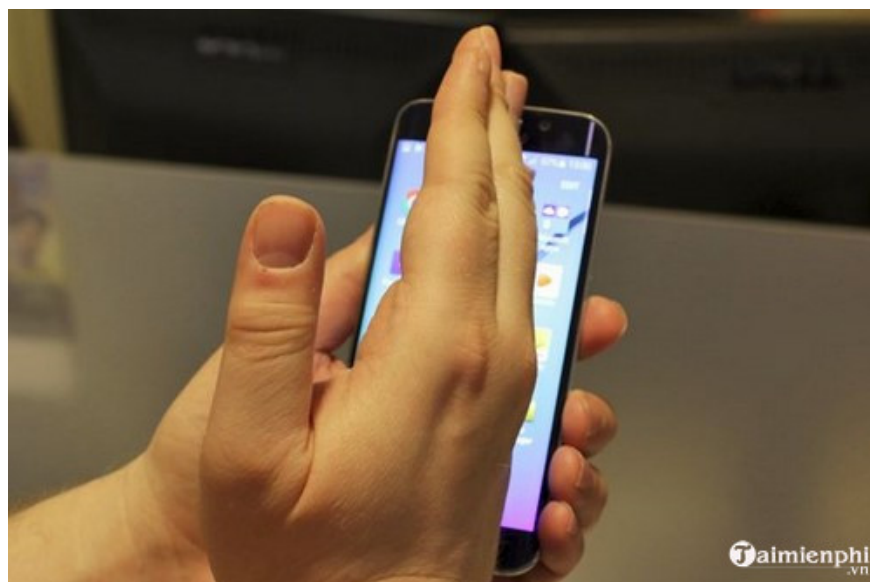

To activate the Palm swipe to capture feature on your Samsung A21s, follow these steps:

Step 1: Open **Settings** on your phone and select **Advanced features** .

Step 2: Find and tap on **Motion and gesture** .

Step 3: Slide the toggle switch for Palm swipe to **capture** to the right to activate it.

Step 4: To take a screenshot, place the edge of your hand on the screen and swipe from left to right (or vice versa).

Method 3. Take a screenshot via the Assistant Menu.

Step 1: Open Settings and select **Accessibility** .

Step 2: Tap **Interaction and dexterity**.

Step 3: Slide the toggle switch for **Assistant Menu** to the right to activate it.

You will now see **the Assistant Menu** icon with four squares on the screen.

Step 4: Find the content you want to record, tap the **Assistant Menu** icon , and select **Screenshot** to capture it.

Above, Taimienphi has introduced 3 convenient built-in screenshot methods for the Samsung A21s phone that don't require installing any third-party apps. Remember these tips and use them whenever needed. Additionally, you can find more ways to take screenshots on Samsung, iPhone, HTC, Sony Xperia, LG, Nexus, and other phones here.

Oppo has always been a pioneer in improving its camera quality, and the Oppo Reno 5 is the company's latest product, featuring many new functions, especially the screenshot function. Let's take a look at what's new about taking screenshots on the Oppo Reno 5.
