

3D Animated Wallpaper: Put 3D animated wallpaper on the Desktop

Seeing every wallpaper when entering Windows makes you bored. You want a new feature for your PC. Then you can ask 3D Animated Wallpaper to help.

Seeing every wallpaper when entering Windows makes you bored. You want a new feature for your PC. Then you can ask 3D Animated Wallpaper to help.

The program will show up on the desktop instead of looking at the still images all the time, but it is a random 3D animation of the effects. You can select the frames that appear on the desktop. In addition, the program also allows you to set up a screen saver for 3D animation that is perfect and beautiful.

After running the program, simply select the corresponding item in the Animations section, click Apply to activate. Click Stop if you want to stop.

3D Animated Wallpaper program compatible every windows. Capacity 3589KB. Download at <http://www.3danimatedwallpaper.com>.
