

4 best face swap sites

Face swapping is one of many ways to have fun with photos. Online tools and websites make it possible to perform face swap edits without any advanced editing skills.

Whether you're curious to see what your face would look like when swapped with your friend's or want to get playful by adding an old person's face to a baby's body, there are a number of websites allows you to do that. Here are 4 of the best face swap sites available today.

1. Face Swapper

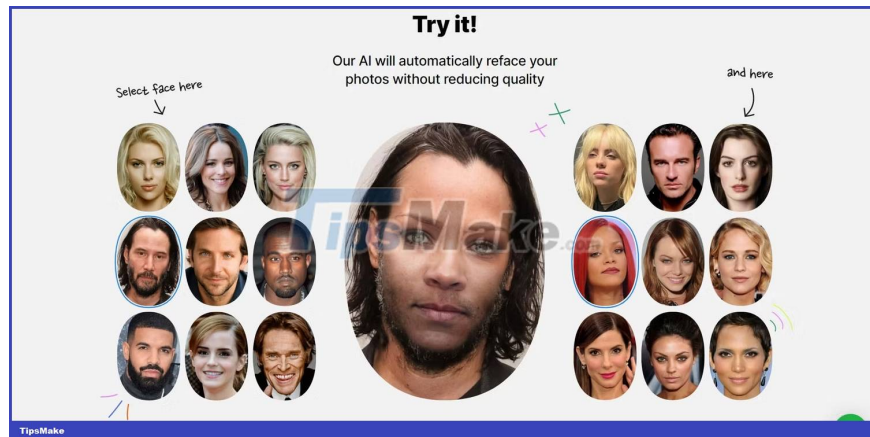

If you're looking for a simple face swap tool that doesn't require a lot of complicated editing steps, this is the tool you need. Face Swapper has a simple interface that allows you to simply upload or drag and drop images.

After uploading your photo, you will have to choose a face from the list of images provided. You can choose to view a list of male or female faces.

You are not required to choose from the list provided as there is the option to upload the original image to swap faces. Once you've selected the face you want to swap, click Swap Face Now, then download the edited image.

2. Icons8

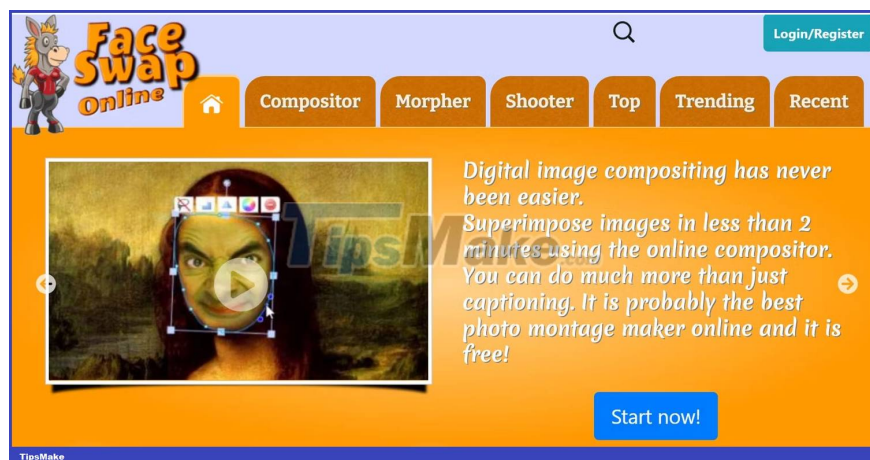

Icons8 is a platform that offers a variety of design tools. Among these tools, you will find an AI-powered face swap tool. This tool allows you to perform quality face swaps with high resolution.

When you visit Face Swapper on Icons8, you can try out the tool by swapping the faces of famous people on the page. If you want to swap multiple faces at once, you can do it using the multi-face swap feature.

With Icons8 Face Swapper, you just need to upload your photo and let the technology do the work. You can access this tool via a 3-day free trial. After that, you can pay \$19/month or \$99/year.

3. Face Swap Online

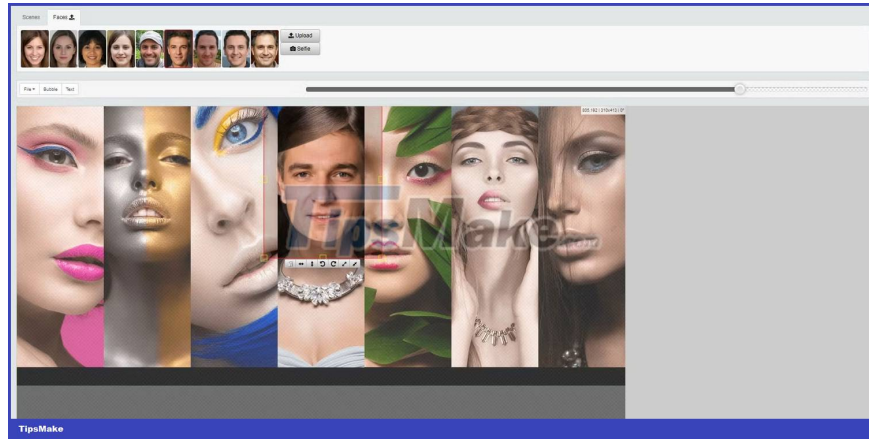

There are quite a few similar automatic face swapping tools you can access, but Face Swap Online offers something different. Face Swap Online is for anyone with a desire to do things manually. Here you will learn how to do realistic face swaps using the compositing tool.

If this seems too difficult for you, the good news is that you don't have to figure it out yourself. On the Compositor page, you'll find a step-by-step demonstration that shows you how to add a face to another image.

You can use the editing tools provided to make sure the images blend together harmoniously. The tool also offers additional stickers that you can add to your face swap edits.

4. ChangeFaces.com

ChangeFaces.com is a tool that provides you with a collection of funny photo scenes and allows you to change the faces in the photos.

With this tool, you can explore face swapping in a unique way. You can choose from a set of faces on the website to swap. To add your own images, you can take a selfie or upload a photo from your device.

The best part is, some of the scenes in the photos are group photos allowing you to change multiple faces. Once you're done, you can download the photos in your preferred format and share them with your friends.
