### SpeakingPal English Tutor

This application works by identifying user voices and interacting through video lessons.

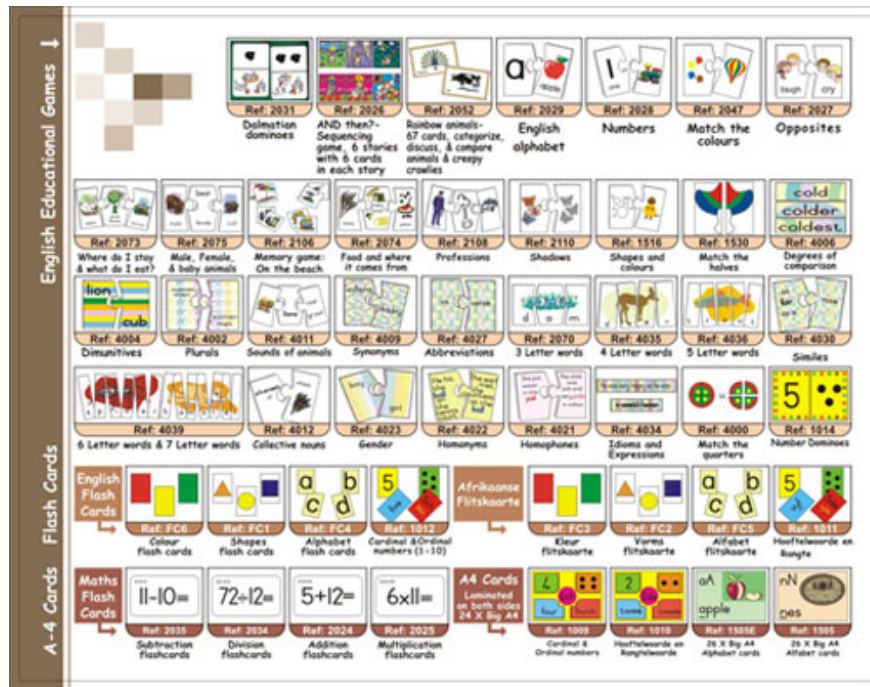

All you have to do is launch the application and start chatting with the characters, then record the response from the application.

Each part is packed in about 2 minutes. Thereby, the software will make a comparison table of native speakers' voice with users, make assessment tables and give scores after each lesson.

### English flashcards

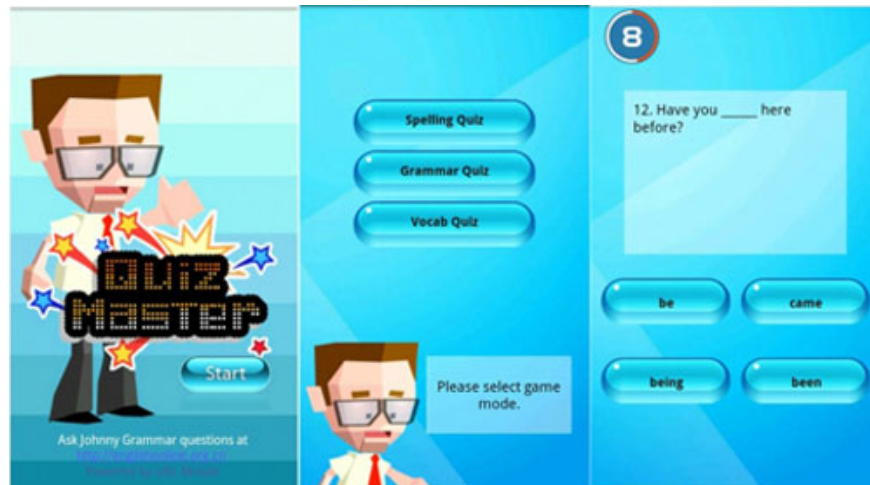

The main purpose of flashcards is to help users to memorize and remember English vocabulary. With thousands of words divided by topics such as family, home, weather, greetings, colors, clothes . Along with vivid illustrations the lessons of Flashcards will become extremely interesting. taste.

In addition, the software also has some other interesting features such as adding word choices to learn, transferring text to speech .

## Johnny Grammar's Quizmaster

This app will test your English grammar level with a 'virtual' native speaker named Johnny.

'Mr' Johnny will choose one of 3 levels of difficulty to ask grammar questions, vocabulary questions. In addition, there is a very interesting part that you should not ignore is '1000 words are often spelled incorrectly in English'.

## Big City

Big City is more like an intellectual game than a pure learning program. Because this software will take learners to London and follow the daily life of a group of citizens at Tony's café.

48 samples of conversations with comments and learners easily catch up with Big City software. Moreover, audio clips introducing characters as well as interactive exercises will help users improve their listening and speaking skills.
