Canon printers are a trusted brand for many businesses and offices. Canon printers are designed and manufactured with compact sizes to suit any work environment, large or small, without compromising speed or print quality. Below are four of the **best Canon printers currently** available, based on criteria such as durability, printing performance, and price. Please refer to this information.

Should you buy a Canon printer? Get the latest updates on the best color printers, monochrome printers, thermal printers, and more.

Table of Contents:

1. Canon 2900 Printer (Canon Laser LBP2900).
2. Canon MF241D Multifunction Printer.
3. Canon PIXMA GM2070 WiFi Printer.
4. Canon LBP 6030w WiFi Printer.

1. Canon 2900 printer (Canon laser LBP2900)

The Canon 2900 printer is designed to be compact, suitable for businesses, small retailers, and offices with limited space. This printer impresses with its fast image processing capabilities and sharp print quality thanks to Canon's most advanced printing technology, achieving up to 2400 x 600 DPI. You won't have to worry about blurry or smudged prints.

The Canon 2900 printer operates by compressing print data into a smaller size, resulting in super-fast printing speeds. In addition, Canon's proprietary on-demand drying technology ensures rapid startup and warm-up times; the first print takes only 9 seconds, and subsequent prints reach 12 pages per minute on A4 paper.

Specifications

1. Ink cartridge included: Approximately 1600 A4 pages (5% coverage)
2. Print quality: 2400 x 600 DPI
3. Printing speed: 12 pages/minute
4. Print lifespan: 10,000 pages
5. Ink type: Powder ink
6. Printing paper: A4, A5, B5

During printer use, you may encounter several errors such as a damaged drum or a faulty toner cartridge. For toner cartridge errors, you can refer to our article on Canon 2900 printers not recognizing toner cartridges and how to fix them to find solutions.

2. Canon MF241D Multifunction Printer

The Canon MF241d printer not only prints in black and white but also integrates scanning and copying functions. Printing productivity is enhanced with automatic duplex printing, making printing easier, saving time and paper.

The Canon MF241d boasts a printing speed of up to 27 pages per minute and a 1200 x 1200 DPI resolution, ensuring optimal document display without blurring or smudging. Even more impressive, it features an intelligent control panel to help users monitor the printing process.

Specifications

1. Ink cartridge included: Approximately 1600 A4 pages (5% coverage)
2. Print quality: 1200 x 1200 DPI
3. Printing speed: 27 pages/minute
4. Print lifespan: 80,000 pages
5. Ink type: Powder ink
6. Printing paper: A4, A5, B5, Letter
7. Recommended print volume: 250-2000 pages/month
8. Reference price: 5,190,000 VND

3. Canon PIXMA GM2070 WiFi Printer

The Canon PIXMA GM2070 WiFi printer can print on one side or both sides of the paper, depending on user needs. It's a versatile printer that can print both black and white and color documents. When needed, simply purchase an additional Canon CL-741 color ink cartridge to print color documents with high resolution.

With a color printing speed of up to 13 images per minute and the ability to print 50 documents in four minutes, it meets the needs of high-volume document printing, saving users considerable time. A note when printing in color is to wait a few minutes for the ink to dry to ensure the best possible print quality.

Specifications

1. Ink cartridge included: Approximately 5000 A4 pages (5% coverage)
2. Print quality: 4800 x 1200 DPI
3. Printing speed: 12 pages/minute
4. Ink type: Water-based ink
5. Printing paper: A4, A5, B5, Envelopes

6. Recommended print volume: 150-1500 pages/month
7. Reference price: 3,590,000 VND

Recently, 3D printing technology and 3D printers have been widely used in various fields such as fashion, construction, and food, and are considered the trend of the future. To learn more about this new technology, this article, "What is 3D printing technology? What can 3D printers print?", will help you find the answers.

4. Canon LBP 6030w WiFi Printer

The Canon LBP 6030w WiFi printer is one of the most powerful printers currently available, boasting a printing speed of 7.8 seconds per first page and up to 18 pages per minute thereafter. Its compact design saves space.

Canon wifi printers support wifi internet; simply connect the printer and data transmission device to the same wifi network, and you can easily print the necessary documents quickly and conveniently.

Specifications

1. Ink cartridge included: Approximately 800 - 1200 A4 pages (5% coverage)
2. Print quality: 2400 x 600 DPI
3. Printing speed: 18 pages/minute
4. Ink type: Cartridge 325
5. Printing paper: A4, B5, Letter, A5
6. Recommended print volume: 200-800 pages/month
7. Reference price: 3,790,000 VND
