

4 steps to change the default Download folder on Firefox

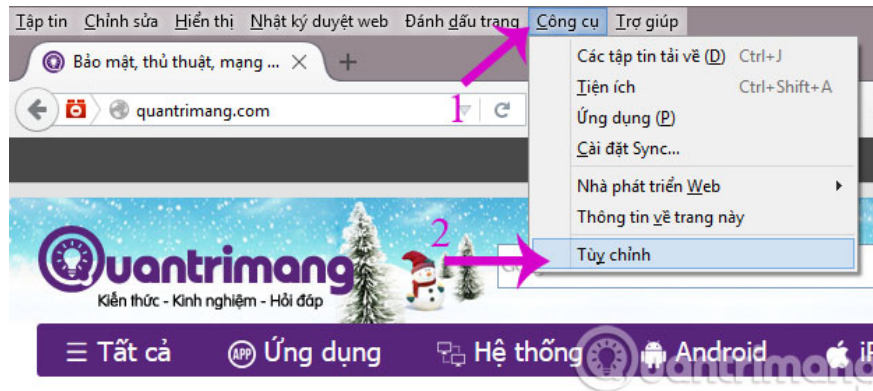

Like Chrome browser, after installation, Firefox will also set the default Download folder. To change this directory and ask Firefox to always ask where to download the file, you can refer to our guide below.

Like Chrome browser, after installation, **Firefox** will also set the default Download folder. To change this directory and ask Firefox to always ask where to download the file, you can refer to our guide below.

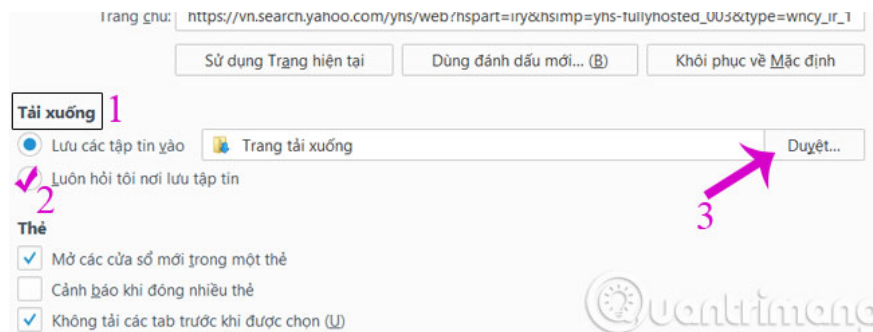

Step 1 : Open Firefox browser, click on the **3 dash** icon in the upper right corner and select **Options**

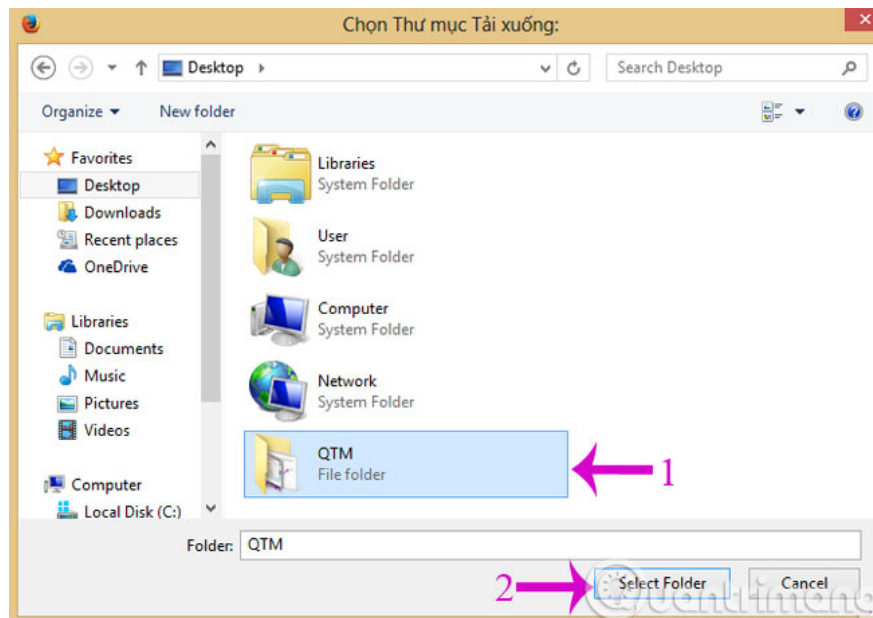

Or you can click on the **Tools** menu, select **Custom**

Step 2 : In the **Options** interface, find the **Download** section and then click **Browse** next to the line **Save the files** . Also tick the box **Always ask me where to save the file** (if desired).

Step 3 : In the new dialog box that opens, select the other Download folder and click **Select Folder**

So, you have successfully changed the Download folder as you like. Very simple, right?

1. Quickly switch open Firefox tags to private browsing mode
2. How to save bookmarks on Firefox to your computer?

3. Display saved passwords on web browsers
