

5 attractive laptops for students cost 10-15 million VND

The outstanding models such as ASUS Vivobook S400 or Sony Vaio Fit have touch screens to optimize the Windows 8 operating system experience while being reasonably priced.

The outstanding models such as ASUS Vivobook S400 or Sony Vaio Fit have touch screens to optimize the Windows 8 operating system experience while being reasonably priced.

Around September every year is always the exciting time of the laptop market when the school season starts. In particular, mid-range and low-cost laptops are most popular due to their suitability and tastes of students and students. However, compared to every year, most of the configuration upgrades and slight changes in design this year have witnessed significant changes.

The most significant is the touch screen to optimize for Windows 8 now available on some popular laptop models under **15 million** . This feature a year ago only appeared on high-end products and ASUS may be the pioneer in bringing this feature to the average consumer.

In addition, it is impossible not to mention the machines of **10 to 15 million VND**, which have a solid alloy design that is durable, strong enough to make graphics or play some games instead of just meeting the needs office as before.

Here are 5 notable laptop models for students in the price range of less than VND 15 million.

ASUS Vivobook S400

ASUS Vivobook S400.

The VivoBook series has been launched by ASUS since last year and is one of the first laptops in the world equipped with a touch screen at a price range of around **VND 10 million**. Recent new models like the S400 are bright in the price range of under VND 15 million thanks to good configuration, sleek and rugged design thanks to the alloy frame.

Machine is also a second ultrabook with only 1.8 kg weight. S400 has many configuration versions on sale in the market. At a price of nearly VND15 million, the S400CA-CA004H has a 14-inch touch screen with a resolution of 1,366 x 768 pixels. Well configured with Intel Core i3-3217U processor with 1.8 GHz speed, 4 GB RAM, hybrid hard drive (for near speed with SSD but higher capacity SSD) with 24 GB SSD and 500 memory chips GB storage.

The reference price for the above configuration model is **VND 14 million**.

The Vivobook line of ASUS has another notable representative, the X202E. This is one of the rare models with the cheapest touch screen on the market of about 9 million. It has an 11-inch screen that supports multi-touch optimized for Windows 8 with a compact size, enhancing mobility.

Sony Vaio Fit 14E

Sony Vaio Fit 14E.

Vaio Fit 14E is also quite attractive product for young users even with plastic cover but there are three colors to choose from are white, pink and black personality. This is also one of the models with a touch screen at an affordable price. Similar to Vivobook S400, the device uses a 14-inch screen with HD resolution of 1,366x768 pixels supporting multitouch. However, it does not have a hybrid hard drive for fast boot and access speeds like its ASUS counterparts.

Vaio Fit 14E version owns configuration including Intel Core i3-3227U processor with 1.9 GHz speed, 4 GB RAM, 500 GB capacity hard drive, GeForce GT 740M graphics processing chip with VRAM 1 GB. The reference price for the machine is **VND 15 million**.

ASUS X450CA

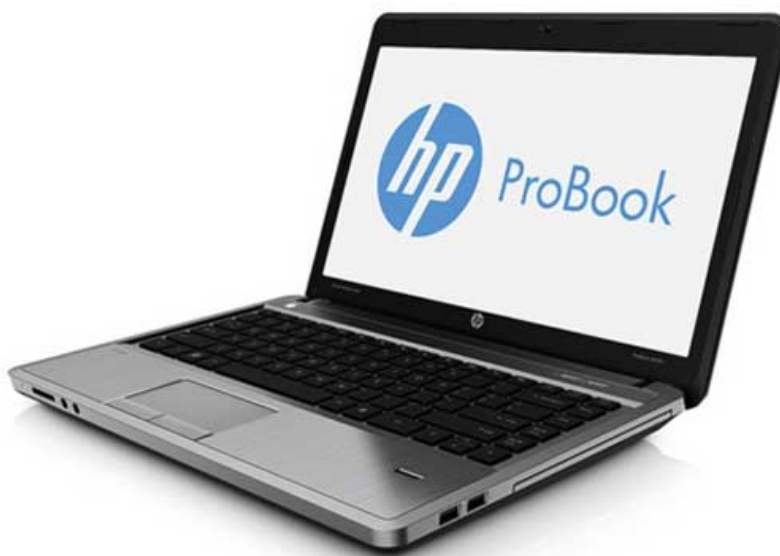

ASUS X450CA.

X450CA is ASUS 'strategic model for students with the goal of keeping the price attractive but well configured. The product also inherits the radial circle design by sinking like the high-class Zenbook. X450CA is quite thin and light (2.1 kg) when compared to the same price range model is a good speaker system for personal entertainment.

X450CA uses 14-inch HD resolution screen, LED backlight. Machines are selling in Vietnam with 4 price configurations from **8.5 to 12 million VND**. The highest version uses 1.8-GHz Intel Core i5-3337U chip, 4 GB RAM, 500 GB hard drive and DVD read / write optical drive.

Reference price is about **12.2 million VND**.

HP ProBook 4441S

HP ProBook 4441S.

Without many new technologies, but thanks to its stable performance, the ProBook 4441S is still one of the most remarkable mid-range laptops in the Vietnamese market. The machine has a luxurious aluminum scratched crust, good heat dissipation ability, but the machine is thick and weighs about 2.14 kg.

The ProBook 4441S version is equipped with a 14-inch screen with HD resolution of 1,366x768 pixels, a 2.5-GHz Core i3-3120M processor, 4 GB RAM, a 500 GB hard drive, a chip 1GB HD Radeon 7650 graphics and optical drive read DVD.

The reference price of the machine is **VND 12 million**.

Toshiba Satellite L40

Toshiba Satellite L40.

Toshiba in 2013 also changed the design to a more youthful and modern trend for the Satellite L Series with the L40 model. It uses a multi-colored metal shell combined with scratches on both the outside and the resting part inside. However, the machine is not yet outstanding in weight when weighing 2.1 kg, which is not different from the previous generation.

L40 has many configurations, notably L40-AS100B version using 14-inch screen, standard resolution of 1,366x768 pixels, Intel Core i3-3227M processor with speed of 1.9 GHz, RAM 4 GB, 500 GB hard drive. The reference price for this model is **11.3 million**.
