

## 5 best, best-selling portable parasitic saws today

Sawing machine is a very essential product in carpentry, mechanical engineering. If you are looking to buy a sawing machine, you should not ignore the 5 best portable parasitic saws, the best selling TipsMake.com share.

Hand held sawing machine is the most commonly used product because it has a compact design, easy operation, there are many levels to adjust the rotation speed so it is trusted by carpenters and mechanics.

### What is the sawing machine used for?

The portable sawmill also known as Saber Saw is an electrical device with a compact design that can be used to cut straight lines or curves on materials such as wood, steel and plastic easily.

Each type of material will be equipped with a different blade, just replace the appropriate blade so you can cut the material with many extremely effective shapes.

### 5 most popular portable parasitic saws today

#### 1. Total sawing machine Total TS205656 - Price: 580,000 VND

Total sawing machine has 6 levels of speed adjustment, easy to adjust cutting angle to help cut wood and steel more effectively. Total sawing machine uses brushless motor, equipped with 570W power to cut 8mm thick steel, simple 65mm wood cutting.

### Specifications:

1. Steel cutting ability: 8mm
2. Wood cutting ability: 65mm
3. Capacity: 570W
4. Motor: Brushless motor
5. No-load speed: 800 - 3,000 rpm
6. Item Weight: 2.1kg
7. Made in China
8. Brand: Germany
9. Warranty: 6 months

### 2. Maxpro MPJS800 VLQ sawmill - Price: 950,000 VND

Maxpro serrated saw machine is equipped with a pipe connected to a dust bag that will bring a clean working space. Capacity up to 800W will support cutting of wood, steel, and plastic. The case is made of plastic, and the metal base is good at impact.

### Specifications:

1. Wood cutting ability: 35mm
2. Plastic cutting ability: 80mm
3. Steel cutting ability: 10mm
4. Capacity: 800W
5. No-load speed: 500 - 3,000 rpm
6. Product weight: 2.2kg
7. Made in China
8. Brand: China
9. Warranty: 6 months

### 3. Makita 4327 sawmill - Price: VND 1,380,000

Makita sawing machine can adjust speed up to 6 levels to meet many different requirements when using. Makita 4327 is designed very firmly, high idle speed and 450W capacity will help you cut 65mm thick wood simply, cut 6mm thick steel.

### Specifications:

1. Cutting steel: 6mm
2. Cutting wood: 65mm
3. Lining: 18mm
4. Capacity: 450W
5. No-load speed: 500 - 3,100 rpm
6. Product weight: 1.9kg
7. Made in China
8. Brand: Japan
9. Warranty: 6 months

### **4. Total sawing machine Total TS2081006 800W - Price: 780,000 VND**

Total TS2081006 designed with high friction grip handle ensures safety. Total sawing machine has 5 speed adjustment, not only cutting wood, iron, but also cutting bricks with 12mm thickness.

### Specifications:

1. Cutting wood: 110mm
2. Cutting iron: 8mm
3. Brick cutting: 12mm
4. Capacity: 800W
5. No-load speed: 800 - 3,000 rpm
6. Product weight: 2.8kg
7. Made in China
8. Brand: Germany
9. Warranty: 6 months

### 5. Makita sawmill 4326 - Price of 1,350,000 VND

Makita 4326 is manufactured according to modern Japanese technology, so it is stable, smooth, low vibration when cutting wood and iron. Robust saw machine, powerful, often used to cut materials at 90 degree angle.

### Specifications:

1. Wood cutting ability: 65mm
2. Iron cutting ability: 6mm
3. Lining: 18mm
4. No-load speed: 0 - 3,100 rpm
5. Capacity: 450W
6. Product weight: 1.9kg
7. Made in China
8. Brand: Japan
9. Warranty: 6 months

In short, if you want to buy a large sawmill that is both durable and good, these 5 genuine saws are worth considering.
