**Which black and white printer is best? An updated list of the best black and white printers to buy, priced under 5 million VND.**

## Table of Contents:

- 1. Brother HL L2321D Black and White Laser Printer.**
- 2. Canon MF241d Black and White Laser Printer.**
- 3. Canon LBP2900 Laser Printer.**
- 4. Canon PIXMA GM2070 WiFi Black and White Inkjet Printer.**
- 5. HP 107a (4ZB77A) Black and White Laser Printer.**

## ***1. Brother HL L2321D Black and White Laser Printer***

### **Specifications:**

- Included ink cartridge: Approximately 2600 A4 pages (5% coverage)
- Print quality: 2400 x 600 DPI
- Print speed: 30 pages/minute
- Print lifespan: 65,000 pages
- Ink type: Powder ink
- Paper sizes: A4, A5
- Recommended print volume: 250-2500 pages/month
- Reference price: 3,090,000 VND

The Brother black and white laser printer is a single-function printer with higher durability than multifunction printers, making it ideal for home or small business use. Notably, it features automatic duplex printing, eliminating the need for manual reversing. With a printing speed of 30 pages per minute, documents are printed quickly, saving you time.

The included toner cartridge can print up to 2600 pages. When the printer runs out of toner, you can purchase a replacement TN-2385 toner cartridge for only 500,000 VND. Additionally, the Brother laser black and white printer's paper tray has a very large capacity, holding up to 250 sheets for input and 100 sheets for output. Rest assured, the paper tray is moisture and dust resistant, ensuring that the paper stored in the tray will maintain its original quality even after prolonged use.

USB 2.0 ports are commonly used with computers running Mac OS and Windows. Connecting a printer to a Windows computer, MacBook, and other compatible devices is also very easy and quick.

## ***2. Canon MF241d Black and White Laser Printer***

## Specifications:

- Included ink cartridge: Approximately 1600 A4 pages (5% coverage)
- Print quality: 1200 x 1200 DPI
- Print speed: 27 pages/minute
- Print lifespan: 80,000 pages
- Ink type: Powder ink
- Paper sizes: A4, A5, B5, Letter
- Recommended print volume: 250-2000 pages/month
- Reference price: 5,190,000 VND

The Canon MF241d black and white laser printer is a multifunction printer that can scan and copy in addition to black and white printing. Its automatic duplex printing feature makes printing easier, saving time and paper.

The printer boasts a printing speed of up to 27 pages per minute, perfectly meeting the needs of office environments. The 1200 x 1200 DPI print quality ensures clear text display without blurring or smudging. Even more impressive, the Canon MF241d monochrome printer features a smart control panel on the paper tray, allowing users to monitor the printing process.

Distinguished by their simple design, high printing speed, and excellent print quality, Canon color and black and white printers are trusted and chosen by many. If you're looking to buy a printer but don't know which brand to choose, this article sharing the 4 best Canon printers currently available will provide you with many suggestions.

### ***3. Canon LBP2900 Laser Printer***

#### **Specifications:**

- Included ink cartridge: Approximately 1600 A4 pages (5% coverage)
- Print quality: 2400 x 600 DPI
- Print speed: 12 pages/minute
- Print lifespan: 10,000 pages
- Ink type: Powder ink
- Paper sizes: A4, A5, B5
- Recommended print volume: 200-800 pages/month
- Reference price: 3,990,000 VND

The Canon LBP2900 laser printer has a compact design, is easy to install, and is suitable for use in small offices. Equipped with Canon's most advanced printing technology, this printer offers fast and superior image data processing compared to conventional models. The 2400 x 600 DPI print quality ensures clear text display, eliminating concerns about blurry or smudged prints.

The LBP2900 monochrome printer works by compressing print data into a smaller size, resulting in ultra-fast printing speeds. Its proprietary on-demand drying technology ensures rapid startup and warm-up times. As a result, your first print takes only 9 seconds, and it prints 12 pages per minute on A4 paper.

### ***4. Canon PIXMA GM2070 WiFi Black and White Inkjet Printer***

#### **Specifications:**

- Included ink cartridge: Approximately 5000 A4 pages (5% coverage)
- Print quality: 4800 x 1200 DPI
- Print speed: 12 pages/minute
- Ink type: Water-based ink
- Paper sizes: A4, A5, B5, Envelopes
- Recommended print volume: 150-1500 pages/month
- Reference price: 3,590,000 VND

The Canon PIXMA GM2070 WiFi black and white inkjet printer can print on one or both sides of the paper. In addition to black and white printing, it also supports color printing. When you need to print in color, simply purchase and install an additional Canon CL-741 color ink cartridge and you can start printing immediately.

According to the manufacturer, this black and white printer has a printing capacity of 13 photos per minute and 50 pages of documents in four minutes. This allows you to print large quantities of documents quickly, saving considerable time. The 1200 x 4800 DPI print quality ensures consistent and high-quality prints.

When printing in color, remember to wait a few minutes for the ink to dry and ensure the best possible quality of the finished print.

## ***5. HP 107a Black and White Laser Printer (4ZB77A)***

### **Specifications:**

- Included ink cartridge: Approximately 500 A4 pages (5% coverage)
- Print quality: 1200 x 1200 DPI
- Print speed: 20 pages/minute
- Print lifespan: 10,000 pages
- Ink type: Powder ink
- Paper sizes: A4, A5, B5, Envelopes
- Recommended print volume: 100-1500 pages/month
- Reference price: 2,460,000 VND

The HP 107a (4ZB77A) Black and White Laser Printer supports single-sided printing with a first-page print time of 8.3 seconds and a print speed of 20 pages per minute for A4 paper. With a maximum print volume of up to 10,000 pages per month and a resolution of 1200 x 1200 DPI, it ensures efficient and high-quality printing for users.

With energy efficiency in mind, this printer is an ideal choice because its operating power is only 320W, 33W in standby mode, and just 1.1W when not in use. Therefore, energy saving is optimized, so you no longer have to worry about the product consuming too much electricity.

During printer use, you may encounter several errors such as a damaged drum or a faulty toner cartridge. For toner cartridge errors, you can refer to our article on Canon 2900 printers not recognizing toner cartridges and how to fix them to find solutions.

With the suggestions above regarding affordable black and white printers, including single-sided and double-sided printers, you can consider choosing a product that suits your needs.
