

5 best Bluetooth headphones of 2026

With so many options out there, it's hard to know where to start. If you're looking for some of the best Bluetooth headphones, here are 5 of the best currently available to buy.

Today, there are more wireless headphones than ever before. The range expands across designs, budgets, and features. You can even find specialized headphones for a myriad of situations and activities.

With so many options out there, it's hard to know where to start. If you're looking for some of the best Bluetooth headphones, here are 5 of the best currently available to buy.

Sony WH-1000XM5

Sony's WH-1000XM5 consistently tops the Bluetooth headphone charts for one reason: It's a high-quality, affordable, and highly functional headset. You won't have any trouble speaking or listening with it, as it features four beamforming microphones, AI noise cancellation for calls, and a dual-processor ANC system.

The Sony WH-1000XM5 is a high-quality headphone made from soft, lightweight leather. It comes with a protective carrying case, yet remains comfortable and stylish enough for on-the-go wear. Thanks to its rotating earcups, the WH-1000XM5 fits most people and will easily fit into any bag.

JBL Tune 770NC

Although not the cheapest Bluetooth headset on the market, the JBL Tune 770NC delivers surprisingly good performance. This Bluetooth 5.3 headset is versatile enough to seamlessly switch between hands-free calls and your favorite songs, and comes in three stylish colors.

The JBL Tune 770NC headphones feature responsive noise cancellation and pure bass. With the JBL Headphones App, you can customize your listening experience anytime and switch to a custom EQ.

Although these headphones don't have as many features as some of the higher-end options on the market, their durable construction and comprehensive feature set make the JBL Tune 770NC one of the most budget-friendly choices.

EPOS H3Pro

Using EPOS headphones for gaming and gaming headsets will never let you down. The EPOS H3Pro is no exception. This headset has a stylish and well-designed look, comfortable yet small ear cushions, and excellent noise isolation.

Many features set the EPOS H3Pro apart from its competitors. Despite its small size, it makes a surprisingly significant difference in everyday usability: a flip-to-mute microphone, individually replaceable components, and the flexibility to switch between Bluetooth and wired connections at will.

The sound quality also cannot be underestimated. You will immediately notice the excellent noise cancellation and surround sound when you try the headphones for the first time. If you use the EPOS H3Pro for calls, you will find the sound quality both incoming and outgoing is very impressive.

BlueParrot B350-XT

No headset offers better ambient noise reduction than the BlueParrot B350XT. This durable headset is robust enough for long-distance driving and effectively filters out road noise. Overall, it excels at providing an industry-leading hands-free calling experience.

The BlueParrot B350-XT is well-built, IP54 rated, with three buttons on the earcups to simplify volume or power control. In addition to making calls, the BlueParrot B350XT can be used for listening to music, streaming GPS, etc. – and it can operate at a range of up to 91m from the device.

B&O Beoplay H95

The Bang & Olufsen Beoplay H95 headphones boast advanced noise cancellation capabilities, ensuring you won't regret spending a significant amount of money on them. These headphones come with a carrying case and are available in six stylish colors: white, navy blue, gray, yellow, chestnut, and black.

Beoplays combines ANC with two 40mm titanium drivers featuring neodymium magnets, ensuring optimal sound transmission without dispersion. The Bang & Olufsen app allows users to select from preset sound profiles or customize their own EQ combinations. When fully charged, users enjoy up to 38 hours of continuous listening time with industry-leading sound quality.
