

5 Best Free Windows 10 Computer Cleaning Software 2024

Are you confused about which junk cleaning software is suitable? Hoang Ha PC will suggest the best free Win 10 computer junk cleaning software for you.

Iolo System Mechanic - Clean Up Your Entire Computer System

One of the best rated Win 10 computer cleaning software by users today is **iolo System Mechanic**. This software increases the computer's processing speed by deleting junk files and turning off applications running in the background of the computer. In addition, it also clears the cache to free up space. The advantages of iolo System Mechanic software can be listed as follows:

Besides the advantages, this software also has limitations in terms of usage time. If you install iolo System Mechanic for a fee, you will need to reinstall it after one year.

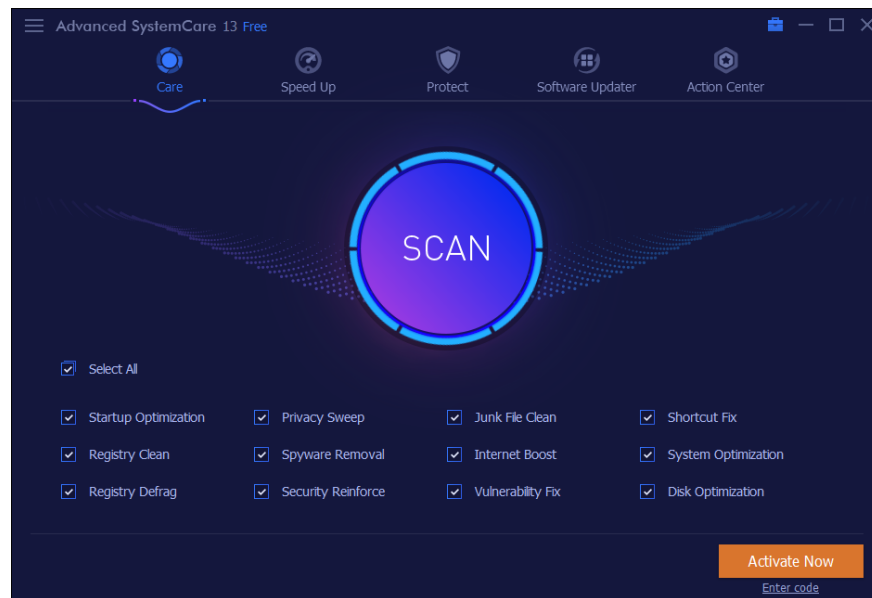

Iolo System Mechanic - Clean Up Your Entire Computer System, Remove Unnecessary Files

IObit Advanced SystemCare - Software to Protect, Fix Errors, Clean and Optimize Computer

Next, IObit Advanced SystemCare is a Win 10 computer cleaning software that is known to be easy to use because of its automatic system. This is demonstrated by the fact that with just one click, you can handle the problem. For computers running sluggishly with low memory capacity, installing this software is absolutely great. Here are some advantages of IObit Advanced SystemCare:

- Handle everything simply and conveniently.
- Helps users understand the machine's performance.
- Manages disk space, RAM and CPU quite well.
- Besides, you can refer to some disadvantages of the software to consider and choose.
- Use other software to perform the task.
- Anti-virus capability is still low compared to other software.

PC Decrapifier - Unnecessary Software Removal Tool

PC Decrapifier is designed to improve the speed of your computer by improving the underlying cause of the problem. It helps find and remove unnecessary or hidden applications from your computer. The advantages of this software over other software are:

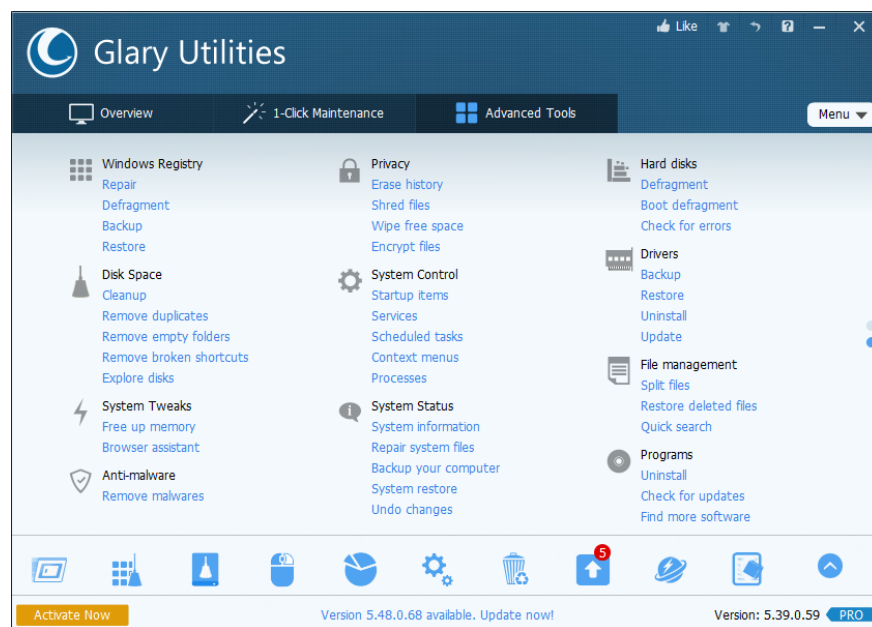

- Can uninstall the most difficult applications.
- The steps to clean up the trash are presented in detail and clearly.
- In addition, the disadvantage of PC Decrapifier is shown by the fact that it does not have a portable version.

Glary Utilities - Clean Computer Junk, Speed ??Up PC System

Finally, one of the five most popular Windows 10 computer cleaning software is Glary Utilities. Similar to other cleaning software, it also has the function of cleaning the computer, deleting cache, access history, and junk data. In addition, this software also performs operations quickly with just one click. Some of the advantages of Glary Utilities can be mentioned as:

- Ability to improve computer processing speed well.
- For files that are too large, the software's ability to cut and re-join files is a big advantage.
- Check, find and remove broken links.
- In addition, Glary Utilities also shows disadvantages that need to be noted when installing and using such as:
 - Set up program language with many specialized terms.
 - Can only give error but not show the cause of error.
 - There are still no advanced optimization and repair options.

Glary Utilities - Clean Computer Junk, Speed ??Up System to Help Work and Study More Productively
