

## 5 excellent entertainment laptops

Of the 5 laptops that are highly appreciated for the following entertainment support, some are equipped with HD DVD or Blu-ray drives, while others are featured in the audio system, while others are honored. power and processing speed.

**Of the 5 laptops that are highly appreciated for the following entertainment support, some are equipped with HD DVD or Blu-ray drives, while others are featured in the audio system, while others are honored. power and processing speed.**

In order to win a place in the following top 5 mobile entertainment machines, a laptop can't simply have a high-quality screen and a regular DVD drive. If not equipped with an HD DVD or Blu-ray drive, at least it must have an excellent quality audio system and a gorgeous widescreen display. Besides, an excellent entertainment laptop must also be equipped with remote control, a built-in TV tuner or be able to play CDs / DVDs without entering Windows. Of course, the money spent to own such a machine is not cheap at all.

### 1. Apple MacBook Pro

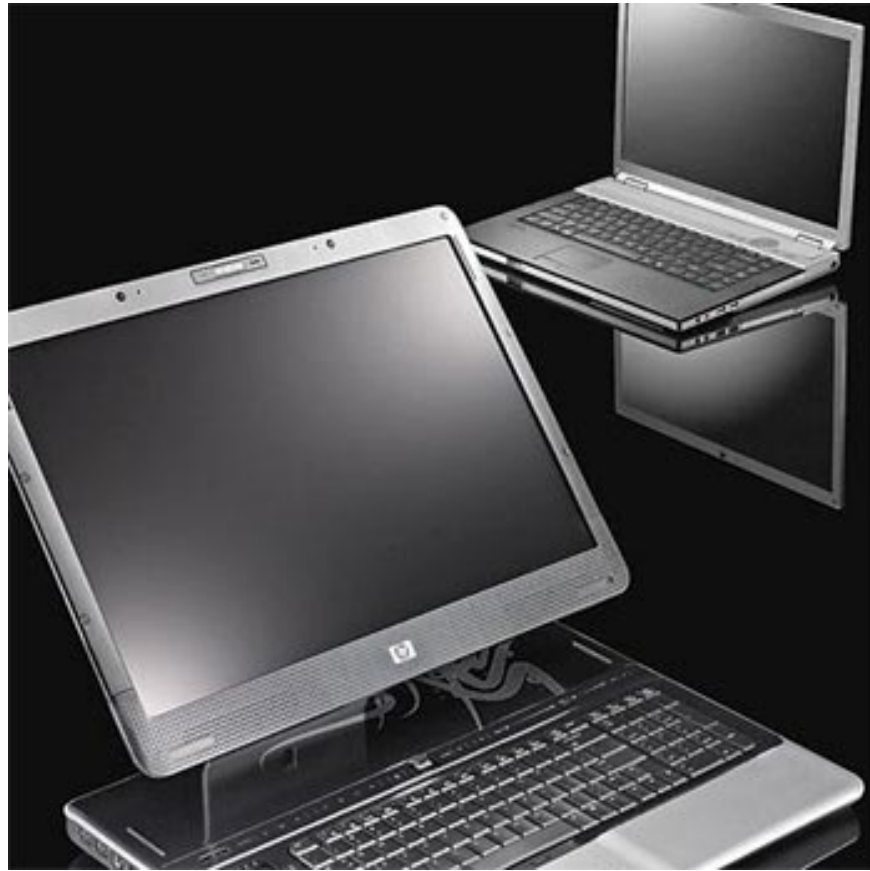

MacBook Pro has a slender body, attractive but capable of working extremely powerful. *Photo: Filippocorti*

With a slew of attractive components, along with the abundance of features and light weight, no 17-inch laptop can match, Apple's MacBook Pro is really a dream for users who uphold the power. handling and real quality of the machine. The entertainment support of this laptop can be said to be "free", due to the integration of leading software, as well as a remote control, making resource management easy and convenient. More convenient.

However, in exchange, those who want to own the "fastest Windows Vista laptop in the world" (by PC World poll) will have to spend a significant amount of money.

## **2. HP Pavilion HDX**

HP Pavilion HDX is also known as Dragon laptop, because it has a bigger appearance than other desktop replacement laptops. Besides, the entertainment feature set that HDX owns also belongs to the most serious goods today.

HP Pavilion HDX is equipped with widescreen screen with diagonal up to 20 inches, HD DVD drive and TV tuner. In addition, the remote control of the device also helps users a lot in managing photo resources, music and movies, through communication with HP MediaDirect application.

## **3. Lenovo Y410**

Lenovo Y410 is integrated with subwoofer subwoofer. *Photo: Gizmodo .*

If you talk about selling price, only Acer Aspire 4710 and Dell Inspiron 1420 can compete with Lenovo Y410. However, the other two competitors are far less than Y410 in terms of entertainment support. Lenovo's product is one of the few entertainment laptops currently integrated with subwoofer subwoofer. Besides, the Shuttle interface that Lenovo equips for this device also makes it possible for users to enjoy multimedia utilities more easily, without having to go through the operating system.

#### **4. Sony Vaio VGN-AR49G**

Sony Vaio VGN-AR49G costs nearly \$ 4,500.*Photo: Infosyncworld .*

Vaio AR is the most advanced entertainment laptop line of the manufacturer from Japan, and is also the first laptop in the world to be integrated Blu-ray drive. Users will not have to worry about the entertainment support of Sony Vaio VGN-AR49G, because it is equipped with high-speed processor Intel Core 2 Duo T7500 2.2 GHz, 2 GB RAM and hard drive 320 GB. In addition, this laptop also has a high-end Nvidia GeForce 8600M GT graphics card and a TV tuner.

However, the price of nearly \$ 4,500 of Sony Vaio VGN-AR49G can also make many people "sweat". If you don't "afford" such a high cost, consumers can refer to the cheaper Vaio FZ line, but also equipped with a Blu-ray drive.

## 5. Toshiba Qosmio G40
