

5 laptops have super smooth screens

Vaio Duo 11, Acer Aspire S7, Dell XPS 12 all equipped with Full HD screen on small size and 13 inch MacBook Pro also has Retina version.

Vaio Duo 11, Acer Aspire S7, Dell XPS 12 all equipped with Full HD screen on small size and 13 inch MacBook Pro also has Retina version.

Apple is the "start-up" for the ultra-sharp screen laptop battle with the new MacBook Pro models with the screen even higher than the current Full HD standard. Windows computer makers soon followed up the 1,920 x 1,080 pixel resolution to the standard for their high-end products. Some manufacturers such as Sony or Dell, Acer also added touch-sensitive panels that are compatible with Windows 8 operating system.

5 laptop models with the highest resolution screens today:

13 inch MacBook Pro Retina

13 inch MacBook Pro Retina.

Apple is often at the forefront of technology companies when it comes to bringing high-resolution screens to mobile devices and the new MacBook Pro Retina is no exception. The newly released 13-inch screen version has no screen resolution of 2,560 x 1,600 pixels, but is much lighter than the previous 13-inch MacBook Pro.

However, the 13-inch version also comes with a number of differences compared to the larger screen model due to the low-profile configuration of "elder" , lack of discrete graphics, memory integration in the slightly lower standard version. , only 128 GB.

Version using Intel Core i5 processor, 8 GB RAM, 128 GB SSD hard drive with reference price in Vietnam market is 38.8 million.

Acer Aspire S7

Acer Aspire S7.

S7 is quite high in design but the most powerful and attractive in this product is the sharp screen with IPS panel and the resolution is Full HD 1,920 x 1,080 pixels. Not only that, S7 also supports touch features, scratch-resistant glass and ultra-thin border.

The selling version of Acer S7 in Vietnam uses the configuration with Intel Core i7-3517U chip with speed of 1.9 GHz, 4 GB DDR3 RAM memory, 128 GB SSD hard drive, Intel HD Graphics 4000 graphics chip .

The reference selling price is VND 30 million.

Asus Zenbook Prime UX31A

Asus Zenbook Prime UX31A.

The second generation of the ultrabook Zenbook from Asus still retains its rugged and slim design, but greatly upgrades the internal hardware and screen. Full HD screen, long battery life is the most outstanding feature of this model.

The cheapest UX31A version is distributed in the domestic market with Core i5 chip, 4 GB RAM, 128 GB SSD hard drive with reference price of 27.4 million VND.

Dell XPS 12

Dell XPS 12.

The XPS 12 uses an IPS screen of 12.5 inches in Full HD resolution, weighing 1.52 kg and less than 25 mm thin. The frame is made of aluminum and the shell is made of carbon fiber just like on its previous XPS 13 model.

Version sold in Vietnam will be equipped with Intel Core i7 3rd generation processor speed of 1.9 GHz, 8 GB RAM, 256 GB SSD hard drive. The graphics processing chip of the machine is Intel HD 4000, the model has a 1.3 megapixel resolution camera in front of the screen.

Reference price of the product is 39.9 million.

Sony Vaio Duo 11

Sony Vaio Duo 11.

Vaio Duo 11 equipped with 11.6-inch touch screen resolution of Full HD 1,920 x 1,080 pixels. Support for the device, Sony also included a stylus with a built-in exclusive Active Clip software that allows users to crop selected images on the screen and save them right in the notes.

Vaio Duo 11 version sold in Vietnam market equipped with Intel Core i5-3317U processor speed of 1.7 GHz, 4 GB RAM, 128 GB SSD hard drive, graphics chip Intel HD Graphics. The device is quite fully port connected to VGA, USB 3.0, HDMI; LAN and SD card reader, MS Duo. Sony says its battery is about 4.5 hours.

The machine with genuine selling price is reported to be VND 29.99 million.
