

5 laptops ideal for people

As music streaming and cloud storage services become more and more popular, the optical drive in laptops is no longer a must-have feature for users who are constantly on the move. Therefore, 13.3-inch laptops have gradually removed DVD burners to become 'lame'.

As music streaming and cloud storage services become more and more popular, the optical drive in laptops is no longer a must-have feature for users who are constantly on the move. Therefore, 13.3-inch laptops have gradually removed DVD burners to become 'lame'.

However, the two parts cannot be 'cut', which is the battery life and screen size. If you are a technology fanatic and regularly store data on cloud services, the following laptops will be ideal for you on long trips.

1. Acer Aspire TimelineX 3820TG (Core i5 520M Processor 2.4GHz, 4GB RAM)

While Acer's previous Timeline laptops use only Intel CULV processors, the TimelineX 3820TG "winds up" with the powerful 2.4GHz Core i5 520M. The device impresses with the body that is covered with a polished metal cover. In addition, the battery life lasts up to 8 hours.

Configuration: Core i5 520M 2.4GHz processor, 13.3-inch LCD screen, ATI Mobility Radeon HD5650 graphics card, DVD external drive, Windows 7 Home Premium operating system.

2. Apple MacBook Air 2010 (Core 2 Duo processor 1.86GHz, 2GB, 128GB, 13.3-inch LCD)

The new MacBook Air of Apple is equipped with powerful Nvidia GeForce 320M graphics card but the battery life of the device is not "worn out". According to Apple, this laptop can run up to 7 hours. The price of the device is also more affordable than the first 'ultra-thin' generation of Apple.

3. Dell Vostro 3300 (Core i5 520M Processor 2.4GHz, 3GB RAM)

Dell Vostro is aimed at small and medium-sized businesses, but it is also a reasonable choice for individual users who do not need to dive. Although it does not have many entertainment features, the Vostro 3300 has an impressive configuration with an even cheaper price than personal mobile laptops.

Configuration: 2.13GHz Core i3 330M processor, 2GB RAM, 320GB hard drive, 13.3-inch LED screen, integrated graphics card, DVD burner, Windows Vista Home Basic operating system.

Price: 875.40 USD.

4. HP Pavilion dm3 (Intel Core 2 Duo ULV U7300 processor 1.3GHz, 4GB RAM)

The case is built from a silver-gray aluminum alloy with an external DVD burner that reduces the weight of the device to 1.9 kg. In addition, users can choose Intel processors or Intel's power-saving chips. It is also equipped with discrete graphics card, impressive battery life.

5. Lenovo ThinkPad Edge 13 (Core 2 Duo ULV SU7300 Processor 1.3GHz, 2GB RAM)

More eye-catching design than all previous ThinkPad business models from Lenovo, ThinkPad Edge inherited Lenovo's highly appreciated waterproof keyboard and Touchpad. The screen of the device is also bright.

The ThinkPad Edge 13 also gets the DVD drive type to reduce weight for the device.
