

## 5 laptops launched in July the best

The list is full of names like Alienware M11x, Qosmio X505 or Toshiba T235.

**The list is full of names like Alienware M11x, Qosmio X505 or Toshiba T235.**

Based on the evaluation of some new products launched in real terms, Laptopmag magazine has chosen the best laptop list between both hardware, appearance and price correlation.

**Alienware M11x uses Core i**

This model was evaluated by Laptomag with some advantages such as more powerful Intel Core i series processors, impressive design, good gaming capabilities and decent battery life. Even so, Alienware's products still have some disadvantages such as quite hot running machines and noisy fans.

Model sold in Vietnam has Intel Core i5 - 520UM configuration (2x1.06GHz, Max Turbo 1.86 GHz 4 Threads). Screen 11.6 inches Wide HD 1,366 x 768 pixels. Nvidia GeForce GT 335M discrete graphics card 1GB. 500 GB hard drive, 4GB RAM. Machine pre-installed operating system Windows 7 Home Premium 64-Bit. 8-cell battery.

It sells for about 29 million VND in Vietnam.

**ASUS U33Jc**

Located in a series of unique U series machines with bamboo casing of Asus, U33Jc also features high overall performance, luxurious glossy aluminum rim, good speakers, long battery life and high-definition video display technology wire according to laptopmag's initial reviews. However, this model still has some disadvantages such as the ability to handle graphics is not really high, the part below the left machine when running quite hot and the keyboard has no backlight.

ASUS U33Jc has a starting price of only 999 USD but is equipped with a strong configuration with Intel Core i3-330M processor, NVIDIA Geforce 310M graphics card, Nvidia Optimus technology, wireless high-definition video playback technology of Intel, standard USB 3.0, up to 4GB of RAM and 13.3-inch screen Machine is not available in Vietnam.

### **Toshiba Satellite T235 (Intel)**

This model is designed in a new style that impresses at the first sight of Toshiba. It has a good keyboard and has up to 3 color choices. The keyboard is one of the most outstanding advantages of this model with a long battery life of over 6 hours continuously according to Laptopmag's evaluation.

Satellite T235 is not currently available in Vietnam, the device is priced from US \$ 629 in the US including Intel Pentium U5400 processor, 4GB RAM, 320GB hard drive, 13.3 inch screen resolution of 1,366 x 768 pixels.

### **Toshiba Satellite T235D (AMD)**

The Satellite T235D has a better graphics performance than the Intel-based version, playing smooth HD video, though, there are still some disadvantages such as webcams for poor image quality, Small speakers and shorter battery life than Intel chips.

Satellite T235D has not yet appeared in Vietnam. The device is priced lower than the Intel chip with \$ 599 in the US market for the configuration including the AMD Turion II Neo K625 1.5 GHz, 4GB RAM, ATI Mobility Radeon HD 4225 graphics chip. , 320GB hard drive 13.3-inch screen resolution of 1366 x 768 pixels.

### **Toshiba Qosmio X505-Q890**

Performance of this high-end model of Toshiba is not to be debated, the X505 also has SSD hard drive for fast data access, standard HD screen and webcam for good image quality. However, the X505 still has an unavoidable disadvantage such as a large weight and a hot-air machine on the hand.

This premium version is not available in Vietnam yet. It has a price of about 1,899 USD for configuration including Intel Core i7-740QM processor with 1.73 GHz speed, 6GB RAM, 500GB hard disk speed of 7,200 rpm, 64GB SSD drive, Nvidia graphics card GeForce GTS 360M with 1GB VRAM and 18.4 inch screen resolution of 1,920 x 1,080 pixels.
