

5 models of FEG drill machines are best for families and builders

5 models of FEG drill machines from China with affordable price, diversified models, good quality, stable drilling capability will be the best choice for families and construction people.

Not just in China, the quality is not guaranteed. This is quite a misconception, if choosing to buy standard Chinese goods, the durability is not inferior to the brands of Japan, Germany or America. FEG is a major Chinese brand specializing in the production of drilling machines, angle grinders and iron cutters. Although developing in Vietnam market is not long, FEG drilling machine is very trusted by users. Let's find out more about FEG brand drill.

Why is the FEG drill machine trusted?

FEG drill machine has quite attractive price

FEG drillers range in price from VND 450,000 - VND 3,150,000, which is suitable for the cost of users. Only this amount will be difficult to find a good drilling machine from big names like Bosch, Makita, Stanley.

Drilling machine FEG mainly uses electricity so it operates stably, strong drilling force.

The design of drilling machine is firm and beautiful

Drilling machine FEG is designed with strong red color and strong, using high quality materials for high durability, no fear of rust, good insulation. Plastic material withstands impact during work.

FEG drill comes complete with accessories

The FEG drill usually comes with a set, so you don't have to find the right tool to avoid losing time and cost. Genuine durable accessories.

Drill has a variety of features

This is a brand of cheap drilling machines, but the features are still fully equipped such as drilling machines of famous brands such as:

1. Dynamic drilling mode
2. Hammer drill mode
3. Reverse drilling

4. Speed lock button
5. Support auxiliary handle to reduce vibration when drilling

Some of the best-selling FEG drills today

1. FEG concrete drilling machine EG-560 - Reference price: 1,289,000 VND

FEG EG-560 multifunctional design: concrete drilling and drilling. Concrete drilling machine has a concrete drilling system. The main handle of rubber wrap should hold extremely firmly. The accompanying FEG EG-560 drill machine consists of 3 drill bits: 8, 10, 12 and 2 chisels: pointed, flattened, which will greatly support your work.

The auxiliary handle can rotate 360 degrees. The machine uses the SDS pair so it is possible to install multiple drill bits of different diameters.

Specifications:

1. Capacity: 1,500W
2. Beating speed: 0 - 4,200 times / minute
3. No-load speed: 850 rpm
4. Concrete drilling diameter: 4mm - 32mm
5. Made in China
6. Warranty 3 months

2. Drilling machine FEG EG-515 - Reference price: 490,000 VND

Electric drill comes with extra handle, depth gauge so you can drill holes more accurately. Ability to drill wood with 25mm diameter, 13mm diameter steel drill.

The portable drilling machine EG-515 has a pair opening tool to replace the drill bit quickly. It allows to adjust the drilling speed easily, with the retention button to maintain the drilling operation continuously.

Specifications:

1. Capacity: 650W
2. No-load speed: 2,600 rpm
3. Wood drilling diameter: 25mm
4. Steel drill diameter: 13mm
5. Weight: 2kg
6. Made in China
7. Warranty 3 months

3. 26mm concrete drill FEG EG-2601 SRE - Reference price: 1,050,000 VND

FEG EG-2601 SRE comes complete with accessories such as 3 drill bits with 6, 8, 10 and 2 chisels: 1 point, 1 flat, plastic container. Hammer drills can both drill concrete and punch concrete. On the body of the machine, there is a switch of the magnetic switch: hammer, drill hammer and drill. The SDS terminal replaces the drill very quickly.

Specifications:

1. Capacity: 800W
2. Dam speed: 0 - 4,400 times / minute
3. No-load speed: 0 - 900 rpm
4. Concrete drilling diameter: 26mm
5. Weight: 3kg
6. Made in China
7. Warranty 3 months

4. FEG EG-550 dynamic drill (26mm) - Reference price: 1,090,000 VND

FEG EG-550 has a quality certification stamp on the camera body. Metal frame should be extremely solid. Dynamic drill with hammer function will support concrete drilling better and stronger. It comes with a brush kit, auxiliary handle, pointed chisel tip and carrying case.

Specifications:

1. Capacity: 900W
2. Dam speed: 0 - 4,450 times / minute
3. No-load speed: 0 - 700 rpm
4. Concrete drilling diameter: 26mm
5. Weight: 5.5kg
6. Made in China
7. Warranty 3 months

5. Concrete drilling machine FEG 2606SRE (800W) - Reference price: 1,090,000 VND

FEG concrete drill can be converted in 3 modes: drilling, hammering and hammering. This is a genuine FEG drill with anti-counterfeit stamps on the body. Machine with 2 chisels and 3 drill bits 6, 8, 10. Metal depth gauge is always shiny.

Specifications:

1. Capacity: 800W
2. No-load speed: 0 - 900 rpm
3. Concrete drilling diameter: 26mm
4. Weight: 5.3kg
5. Made in China
6. Brand: China
7. Warranty 3 months

Above are the best suggestions for those who are in need of buying cheap and quality drilling machines.
