

5 most attractive design laptops in 2010

Asus disguised with 'mobile theater' NX90, Apple made the world passionate about technology with the new generation MacBook Air.

Asus disrupts the "mobile theater" NX90, Apple has made the world passionate about technology with the new generation MacBook Air.

Apple and Sony are still very notable names for attractive laptop designs in the past year. Meanwhile, Asus contributes to the two models noted: the NX90 and Lamborghini "supercar" VX7.

Previous popular models such as MacBook Pro and Sony Vaio Z only change the hardware configuration so they do not appear in this list.

Here are 5 of the most attractive laptop designs in 2010.

Asus NX90

Asus NX90.

The NX90 is a true " *mobile theater* " as a product of a collaboration between the famous audio-visual equipment manufacturer of Denmark, Bang & Olufsen and one of the world's largest computer manufacturers, Asus.

The NX90 features a design that is aimed at a pair of speakers with a focus on large size but very thin on both sides of a large 18-inch screen. It has a polished aluminum exterior design, and the keyboard and speaker system are all black and luxurious. Another big difference is that the trackpad part, instead of one, Asus designed two trackpads on either side of the keyboard.

This model also has a " *terrible* " price in Vietnam of 4,200 USD (equivalent to more than 84 million VND).

MacBook Air 2010

The MacBook Air duo 2010.

It seems that Apple has " *forgotten* " the ultra-thin MacBook Air laptop after two years of launch with only a few minor changes, but unexpectedly last October, " *Apple* " unveiled two upgraded models with the same design. more statues than before.

The MacBook Air 2010 generation has two screen sizes of 11.6 and 13.3 inches. The duo also has an unibody style of Apple design and the thinness at the thinnest point is 0.3 cm and the thickest is 1.7 cm. The 11.6-inch model weighs only 1.06 kg, while the 13.3-inch model is 1.32 kg.

In addition to the impressive design, the new MacBook Air also has a fast boot time, the " **Instant On** " feature that helps the device to function almost instantly from the " *hibernation* " mode.

MacBook Air 11.6 and 13.3 inches are available in Vietnam in the form of portable with reference price of about 22.5 and 30.5 million respectively (price for the lowest configuration).

Asus Lamborghini VX7

Asus Lamborghini VX7. Photo: Engadget.

Lamborghini VX7 is one of the two latest laptops that carry the supercar brand to the Lamborghini reputation of Asus. The other model, the VX6, has a smaller screen and is actually a netbook, while the VX7 has much more impressive design lines.

Compared to other Lamborghini VX models, the VX7 clearly demonstrates the style of Lamborghini supercars with the rear reminiscent of typical "pit" taillights, its logo and sharp design lines.

VX7 is more advanced with 15.6-inch screen, Intel Core i7 processor, NVIDIA Enthusiast graphics card, 1.5TB hard drive and Bang & Olfsen ICE high-end speaker system.

This model is not currently available in Vietnam.

HP Envy 14

HP Envy 14.

Owning a number of upgrades compared to the previous 13-inch and 15-inch screens, the Envy 14 retains the "luxury" of HP's most advanced laptop series, Envy. This is also the model chosen by Wired magazine as a laptop of 2010.

The Envy 14 comes in an aluminum unibody-like aluminum alloy case, with a luxurious embossed finish. Simple function keys, chiclet keyboard with illuminated backlight are significant changes in this new Envy version.

Envy 14 still owns a pretty good configuration with the option of Intel Core i3, i5 and i7 processors, 14.5-inch screen with resolution of 1,600 x 900 pixels and the system supports the conversion of discrete graphics. The ATI Mobility Radeon 5650 and the integrated Intel graphics chip are much more attractive than their predecessors.

The device is currently worth selling in Vietnam with a reference price of over VND 23 million for the configuration using Intel Core i5 processor.

Sony Vaio P

Sony Vaio P.

The new Vaio P version that Sony has upgraded now has a bit of a change in design as the contours are rounded at the elegant and more elegant edges. When folded, Vaio P gives viewers the feeling of holding a notebook rather than a real computer. The new Vaio P is also equipped with an additional optical trackpad, the weight is even smaller than the previous model with only 0.59 kg compared to the previous 0.64 kg.

In addition, this model still retains the design and screen ratio of " *standalone* " like its " *predecessor* ".

Sony's new laptop priced at VND 20 million has 5 colors to choose from: blue, pink, orange, white and black.
