

5 new Ivy Bridge laptop chips sold in Vietnam

Toshiba and Asus are two manufacturers with many models using Intel Core i chips of the 3rd generation with Satellite M840, L840 and K45VM, K55VM.

Toshiba and Asus are two manufacturers with many models using Intel Core i chips of the 3rd generation with Satellite M840, L840 and K45VM, K55VM.

Intel began to allow computer manufacturers to market their latest processors using the processor this month. In theory, Intel's 3rd generation Ivy Bridge chip is 20% faster, 20% more energy efficient than Sandy Bridge chip. In addition, the graphics performance on the integrated Intel HD Graphics 4000 series is also much higher than that of 3000 years ago.

In the new laptop series, most of them are located in the mid-range segment with the price in the range of 14 to 20 million VND (including VAT). The microprocessor models are Intel Core i5 and i7, the low-end Core i3 chips have not yet appeared.

Below are the new models of Intel Core i processors, which will be sold in Vietnam.

Toshiba Satellite M840-1021G

M840 is in a series of new products introduced by Toshiba in Vietnam market last May. Version sold this month will be upgraded to use the latest processor line Intel Core i5-3210M 2.5 GHz speed. In addition, it also has 2 GB RAM memory, 500 GB hard drive, Intel HD Graphics 4000 graphics chip.

The M840 features a glossy mirror cover and three colors to choose from: brown, blue and pink. It weighs 1.99 kg, chiclet keyboard, large size touchpad and high-end SRS Premium Sound HD speaker system and features 2D to 3D content for viewing on HDTVs that support hologram technology .

Toshiba Satellite M840-1021G has a reference price of VND 13.3 million excluding VAT.

Dell Inspiron 14R 5420
