

## 5 note to not be blocked Facebook account

Facebook is becoming more and more strict with users, so you need to control your account well so that it is not permanently locked. Below we have mentioned five things you need to keep in mind to avoid being blocked from your facebook account.

Facebook is becoming more and more strict with users, so you need to control your account well so that it is not permanently locked.

### 1. Control activities on Facebook

You may not know that you have been involved in some unhappy activities on Facebook without following the **Activities** section every day. Because it is as simple as clicking on a link on Facebook, you may have malicious code hidden.

For example, automatically invite friends to join the application, automatically post a pornographic content or automatically participate in illegal activities, . Therefore, you will most likely be reported by people. with Facebook that you're shady, and Facebook will consider locking your account.

### 2. Don't make friends

Send a friend request to everyone you see as an action that takes you to a blocked path. Therefore, only send friend requests to those you really care about. In addition, you should also carefully review friend requests because strange friends will report badly to Facebook.

### **3. Do not post information like or bullshit**

Facebook is smart enough to detect junk information, the information is only for blatant likes. In order not to be blocked, it is best to operate on this social network in a transparent way.

### **4. Restricting account login in many devices, multiple locations**

Also an automated tool for Facebook, it is possible to assess whether the user account is being hijacked by hackers, through login account information from remote locations in short periods of time. or from many devices.

### **5. Declare your real email address, real name**

Make sure you're mastering your Facebook account email in order to promptly update all new information from Facebook, as well as regain your account when stolen. Besides, using a real name is also something you need to pay attention to, but it is not an important factor, because this operation is only to help you get your account back later.
