Step 2: Copy the video link address to download in mp3 format. Then, paste it into the voicemail box and click Get link. You can see the image below for better understanding.

Step 3: At this point, the x2 convert tool will automatically convert to the mp3 file you need to download. Normally, it will take you from 30 seconds to 1 minute. If the video is long, the download time will be longer and vice versa.

Among the 5 ways to download mp3 music from youtube, **x2 convert is ranked among the top tools with the fastest file download speed.** Even videos up to several hours long can be done with this tool.

2. Download mp3 from youtube using online tool Listentoyoutube

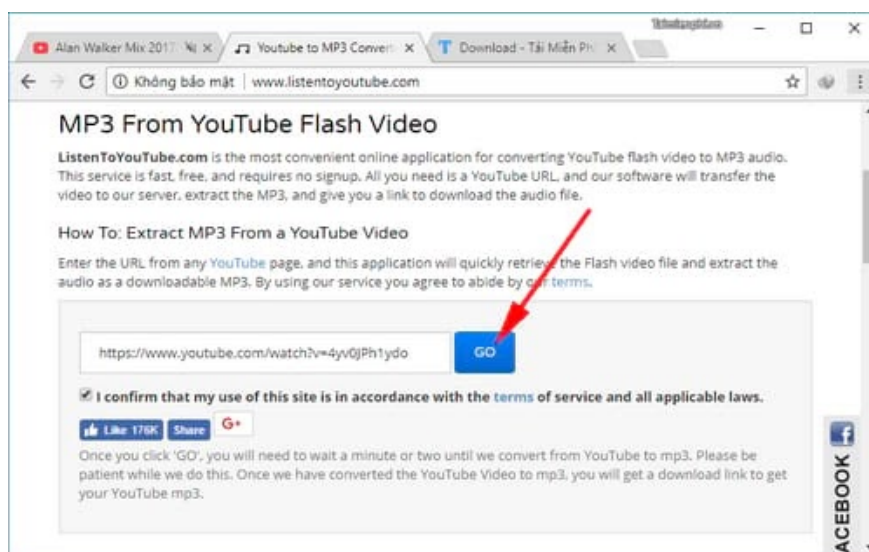

Listentoyoutube is the second ranked tool after x2 convert. Surely, anyone can download music this way. You just need to follow the steps in the right order:

Step 1: First, **click on the website: <https://listentoyoutube.cc/>**

Step 2: You will see the dialog box below as shown in the picture. **Paste the copied link address into that box** . Then, check the box to agree to the website's terms of service.

Step 3: Move your mouse and **click on the 'GO' button to go to the next page.**

Step 4: Finally, **click on the Download mp3 button to download the music as desired.**

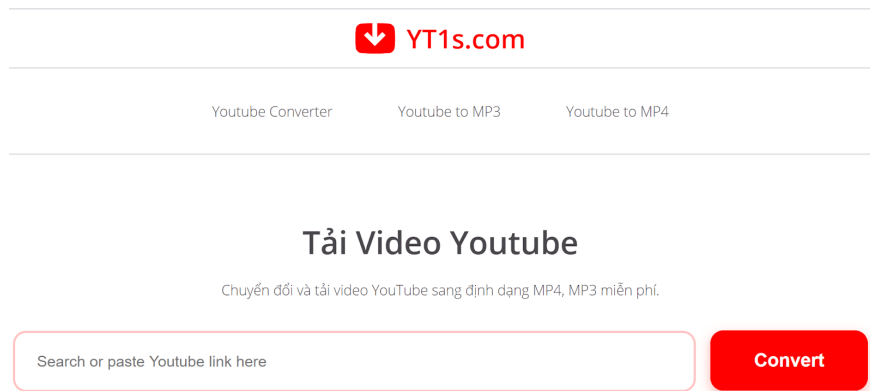

In general, **the way to download mp3 music from youtube using the online tool Listentoyoutube is not complicated** . However, the web interface uses English, so it will cause a small obstacle. But this does not cause any interruption when using this method.

3. Go to YT1s.com

Another website you should keep in mind when downloading mp3 from youtube is the website YT1s.com. The plus point of YT1s is that the interface allows users to choose the language that suits them. The steps to use this tool are as follows:

Step 1: Similar to x2 convert and Listentoyoutube, **you need to access the official website: <https://yt1s.com/>**

Step 2: Turn on your favorite music video on YouTube and copy **the link, then paste it into the voicemail box with the red border as shown in the photo.**

Step 3: To get the download link, **just click on the 'Convert' box.**

One thing that makes users love using YT1s.com to download mp3 music from youtube is that the website allows video formats. Therefore, you can listen to music files on many devices with different configurations.

4. Download Mp3 from YouTube using y2mate

The fourth way to enjoy listening to mp3 music from youtube is to use Y2mate. The time to download mp3 from youtube when using this method only takes about 2-5 minutes. The steps you need to perform include:

Step 1: <https://www.y2mate.com/> is the website link you need to access.

Step 2: Open YouTube at your favorite song and copy the link address. Next, paste this link address into the blank box below.

Step 3: In just a few seconds, you will see the website change interface to another page position. Now, scroll down and switch to the mp3 tab, then click on the download item.

So in just a moment, you can listen to your favorite song anytime without having to use youtube videos. Because youtube videos will limit access to other applications. For example, you cannot listen to music on youtube while surfing facebook. But when using mp3 format, this becomes easy and convenient.

5. Access MP3Fibe

The last way to **download Mp3 from youtube** is to use the MP3Fiber tool. Similar to the above methods, you will also perform the following simple operations to get the mp3 music link.

Step 1: You access the website: <https://mp3fiber.com/>

Step 2: In the blank dialog box, you should paste the video link that needs to be converted to mp3.

Step 3: Next, you choose high or low format in Choose a file type to convert to.

Step 4: Finally, click Download now.
