

5 'terrible' 3D laptops are selling in Vietnam

Toshiba contributes to two models in which one uses 3D glasses without glass. Other names also appear are Asus, HP and Sony.

Toshiba contributes to two models in which one uses 3D glasses without glass. Other names also appear are Asus, HP and Sony.

3D is not a new technology but the laptops used in the market are quite small. Most are expensive from 40 to over 50 million dong so not many users have conditions to own. Toshiba is now the first and only name in Vietnam that now incorporates glassless 3D technology into its products.

Asus also joined with G73 towards users who are gamers from style to configuration " *crisis*". Sony and HP, meanwhile, serve individual customers with home entertainment needs with the Vaio F and Envy 17 3D.

Here are 5 "3D" laptop models being sold in Vietnam:

Toshiba Qosmio F750

Toshiba Qosmio F750

The Qosmio F750 is clearly the most remarkable model on this list. This is the first laptop in the world equipped with 3D screens without glasses. The machine has also officially started selling in Vietnam market last month.

With the F750, users can track both 3D and 2D content on the screen at a size of 15.6 inches with a Full HD resolution of 1,920 x 1,080 pixels. In order to adjust the viewing angle and to deliver a 3D image that is suitable for users, the webcam comes with the ability to monitor face activity and analyze the viewing angle to create a reasonable emitted image.

Qosmio F750 version sold in Vietnam equipped with configuration including Intel Core i7 processor, 8 GB RAM, hard drive 640 GB speed 7,200 rpm, NVIDIA GeForce GT 540M discrete graphics card capacity 2 GB VRAM.

This model has a reference price of VND 42 million.

Sony Vaio F

Sony Vaio F. (Photo: Tuan Hung).

Not only equipped with 3D screen, Vaio F is also a " *mobile theater* " with strong configuration, supports many entertainment features, surround sound speaker system, Blu-ray optical drive.

Sony Vaio F is officially distributed in Vietnam with a configuration including a 16.4-inch Full HD screen that supports 3D display, Intel Core i7-2820QM processor with 2.3 GHz speed, 8 RAM memory GB, Nvidia GeForce GT 540M discrete graphics card with 1 GB VRAM, 640 GB hard drive with 7,200 rpm and Blu-ray optical drive.

The device has a genuine price of VND 58,990,000 with 3D glasses and only one color to choose from is black.

Toshiba Qosmio X770

Unlike the "brother" F750, X770 is equipped with a larger 3D screen but must use glasses to view images and play multi-dimensional games. This model also possesses many advanced features such as Harman / Kardon speaker system, technology that converts images from normal resolution to high definition HD resolution.

In addition, the device can also transfer simulated 2D content to 3D and monitor it directly on the screen.

X770 has a very strong configuration including Intel Core i7-2630QM processor, 8 GB RAM, 1 TB hard drive, Nvidia GeForce GT 560M discrete graphics card with 1.5 GB VRAM capacity. It also comes with a USB 3.0 port with charging feature when the device is off and weighs 3.34 kg.

The Qosmio X770 has a reference price in Vietnam market of VND 48 million.

Asus G73SW-3DE

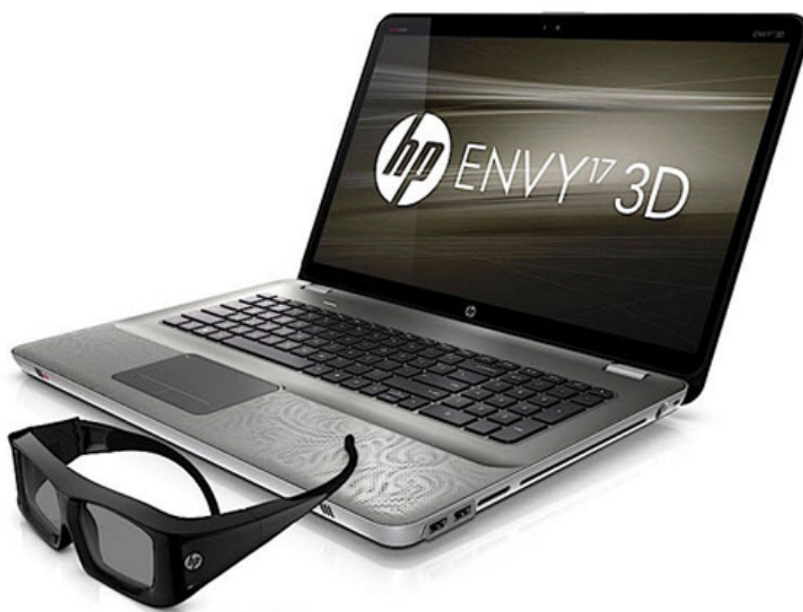

Asus G73SW-3DE.

Asus is the next representative on this list with the pitiful G73SW-3DE model. The design of the machine has many similarities with a powerful fighter. G73SW-3DE is suitable for gamers with good image support and 3D game play, powerful configuration.

Version sold in Vietnam equipped with configuration including Intel Core i7-2630QM processor with 2 GHz speed, 8 GB RAM, 1 TB hard drive, NVIDIA GeForce GTX 460M graphics card, 3D screen 17.3 inch resolution and pre-installed Windows 7 Home Premium 64 bit operating system.

Asus G73SW-3DE has a reference price in Vietnam market of nearly VND 50 million.

HP Envy 17 3D

HP Envy 17 3D.

Envy is quite popular HP series. In 2011, not only did it upgrade the configuration in 2011, but the computer maker also added 3D features to its high-end model. In contrast to Asus models geared towards gamers, the Envy 17 is for entertainment customers like movies, home entertainment.

The HP Envy 17 3D with configuration includes 2-core Intel Core i7-2630QM processor, 6 GB RAM, 640 GB hard drive, ATI Radeon HD 6850M graphics card, 17-inch 3D screen, 3 inch and pre-installed Windows 7 Home Premium 64 bit operating system.

This model has a reference price of about VND 40 million.
