The following 5 applications will be useful for you to solve that problem.

**Are you an online business or a small business owner operating your business day and night? You will encounter difficulties in communicating, balancing life, accounting or some of the daily management issues that you do not have enough time to solve. The following 5 applications will be useful for you to solve that problem.**

## 1. Dropbox

**Download Dropbox for Windows**

**Download Dropbox for Android**

**Download Dropbox for iOS**

**Download Dropbox for Windows Phone**

Do you want to send email with a capacity of over **25MB** and your email system does not accept? There is a simple solution. Sign up for an account on Dropbox and you'll instantly have **2GB** , allowing you to store and share files with anyone anywhere.

Dropbox is also a good solution if you need to access multiple customer files or work with customers on this common space.

In addition, you can use Google Drive, Box or One Drive. These applications have the same benefits as Dropbox. However, each application will have its own advantages and disadvantages. You will be the one who decides which application to use.

## **2. TeamViewer**

**Download TeamViewer for Windows**

**Download TeamViewer for Android**

**Download TeamViewer for iOS**

**Download TeamViewer for Mac**

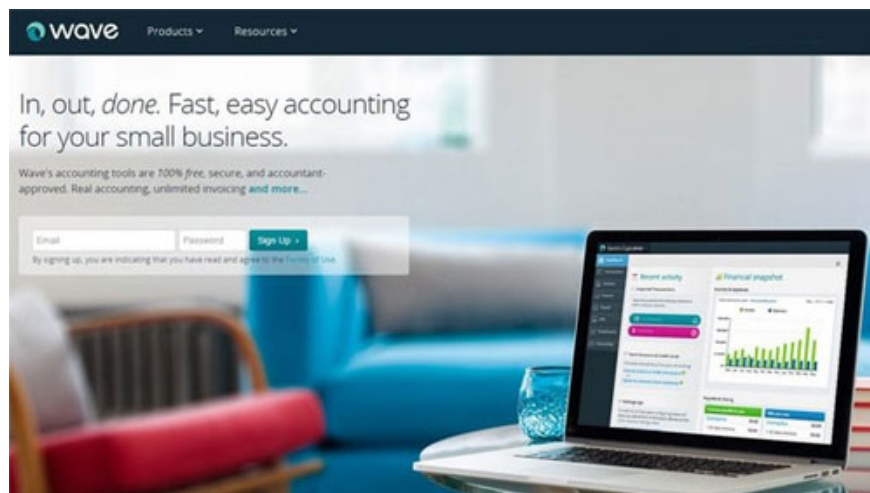

This is one of the favorite communication tools after Skype. Sometimes it is difficult to communicate smoothly over the phone or email when you need to show customers how to do it. And this is the time to use TeamViewer. You can access client computers remotely via TeamViewer, and control their computers.

This is something that phones or emails can't do. Direct access to customers' computers and show them how to do it, or help them do it. All through TeamViewer, so the problem is solved!

TeamViewer can use both Windows and Mac, so you don't need to worry about compatibility!

## 3. Wave Accounting

### Download Wave Accounting

The paper accounting system seems to be boring and not very ' *environmentally friendly* '. For small businesses, you may not need a paper or file accounting system, you can do all the accounting work on Wave Accounting web-based accounting software.

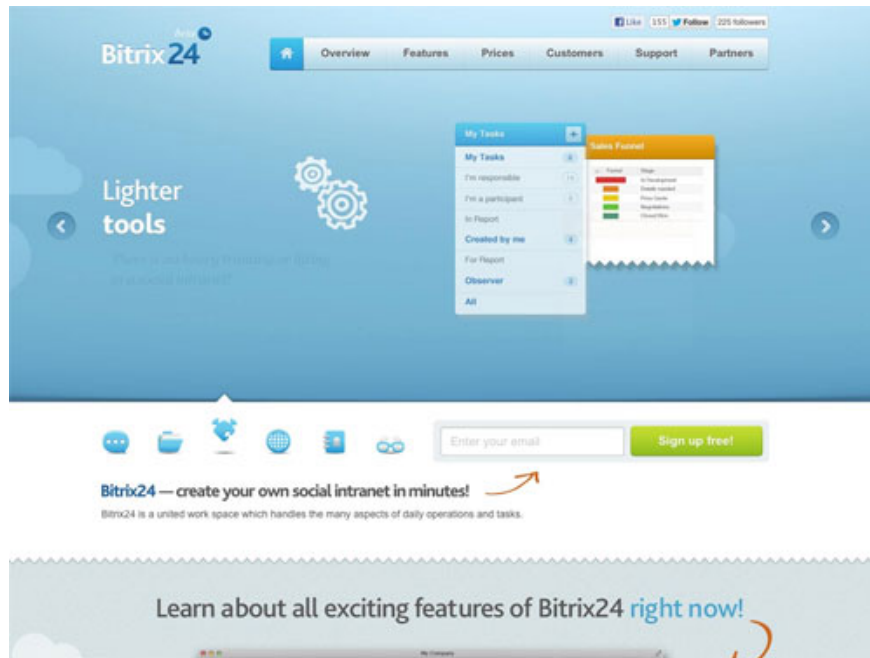

With Wave Accounting, you can manage and do all things like store invoices, issue invoices, vouchers, payment and online payroll. All forms are available and you just need to fill out the form. Simple and time-saving!

This software is completely free, unless you want to add features.

## 4. Bitrix24

### Download Bitrix 24 for Android

### Download Bitrix 24 for iOS

Want to optimize communication and interaction between employees / colleagues in the company? CRM is a solution. CRM is an acronym for the **Customer Relationship MANAGEMENT** , and Bitrix24 is a small web application for small businesses.

Bitrix24 is a CRM that has the feature of an internal social network, hosting, sharing file work, managing existing and potential customers, assigning jobs, reporting, and you can even call online. Next from this app! Moreover, this application is integrated for both Android and iOS so you can access it from your mobile phone.

The application allows **12 people** connection and storage space is **5GB** . You can use the mobile version, completely free.

## 5. Evernote

**Download Evernote for Windows**

**Download Evernote for Android**

**Download Evernote for iOS**

**Download Evernote for Windows Phone**

This application is used in most places. Evernote will manage your notes. It can synchronize from computer to mobile phone and vice versa.

Whenever you need to set a reminder reminder for a job, save your favorite website or simply share the note you just recorded for your colleagues, Evernote will do all this.
