

50 beautiful CV templates, personality to help you score with employers

Here are 50 unique CV designs that attract employers' eyes. Hope they will help you have a good impression in the eyes of employers right from the first job application.

1. Top 10 common errors in cover letters that need immediate correction

CV - the acronym for **Curriculum Vitae** in English, is one of the key components in the resume, and is a self-introduction document for employers, providing the company with an overview of Candidates apply.

The employer only spends about 6 seconds to view the Resume candidate - the length of a Vine video. Each job vacancy of a company is not only for you to apply, so to create an impression for employers, CV is the most important factor .Because of that, they will preliminarily evaluate each candidate.

It is important that you know how to make **your resume** stand out more than other CVs, especially when applying for a job in the design industry. Impressive resume designs will show employers that you are a potential candidate, full of creative ideas, and rich imagination.

However, **creative CV** designs cannot be used when applying for a position as a lawyer or economist, it is only appropriate for the position of designer and artist. Self-marketing yourself through resume is a new trend when applying for a job now, so make an impressive design.

Here are 50 unique CV designs that attract employers' eyes. Hope they will help you have a good impression in the eyes of employers right from the first job application.

DESIGN IDEOLOGY

I believe that design should be valuable and although it is disposable, the message can still linger on. Good design should not be predictable; it should exceed any expectations by launching original and innovative trends in visual dialogue.

THE CREATIVE PROCESS

학생시절 저는 Visual에만 집중 하였습니다.
 하지만 지금은 다양한 프로젝트의 경험을 통해 결과물이 나오기까지 사용자의 관점에서
 사람들과 충분한 대화와 제대로 갖춰진 토론을 통한 Useful한 기획력을 충분히 갖추어야
 한다는 것을 알 수 있게 되었습니다.

한 프로젝트를 진행하여 결과까지를 100% 보았을때 많은 부분에서 연구와 노력이 필요
 하였지만, 여기에 충분한 상상력 25%, 프로젝트를 이끌어 나갈 수 있는 20% 실행 능력,
 마지막으로 책임감을 가지고 한 가지에 미치도록 집중 할 수 있는 5% 끈질김. 이를 통해
 어떠한 프로젝트도 저의 디자인 철학으로 해결해 나갈 수 있습니다.
