Now let's see why 5Kplayer is superior to other software!

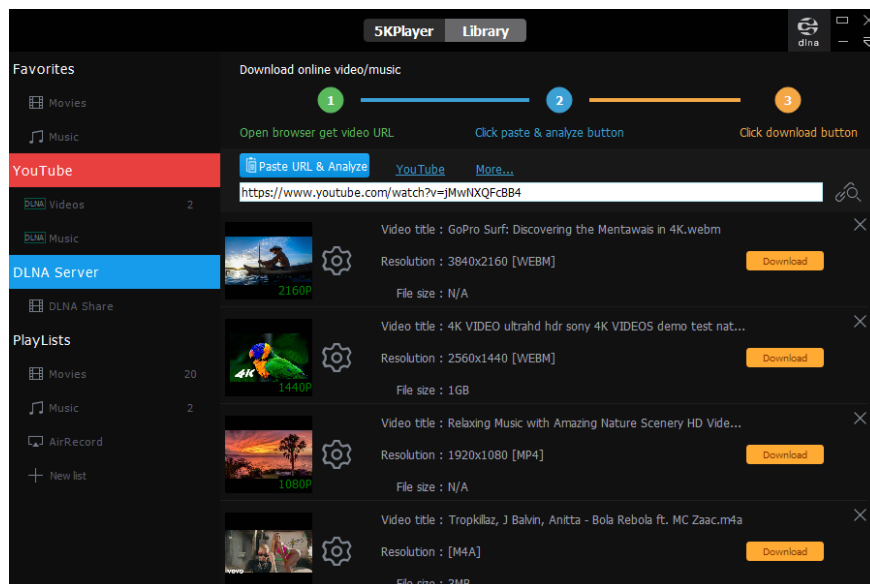

High quality multimedia streaming software

5Kplayer supports video and music playback in various formats such as MP4, H.265 / 264, VP8 / VP9, MTS, Webm, MKV, WMV, FLV and audio files such as MP3, AAC, AC3 and WMA, DVD disc, ISO file, etc. 5Kplayer is also supported by hardware acceleration technology of Nvidia, Intel and DXVA to produce smooth, high-quality 4K UHD video, especially without consuming much CPU resources, Brings you the wonderful audiovisual experience. The new version of 5Kplayer also supports the new streaming video format, m3u8.

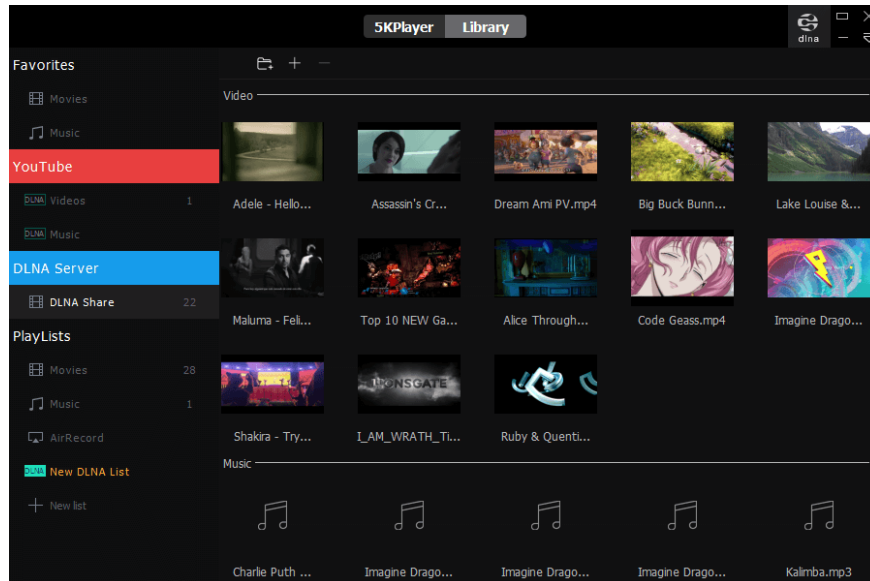

Software to download videos online for free

If you want to download videos and music from online websites, 5Kplayer is definitely a good support software. Free video download software is integrated with more than 300 online video websites such as YouTube, Facebook, Instagram, Vimeo, Vevo, etc. Video download operations are very simple, you just need to copy the link and paste into the download toolbox. 5Kplayer will automatically analyze the link and then you can choose the format and resolution if you need it. If the movie already has embedded subtitles, you can download it along with the subtitle file.

Multimedia streaming set

The 5Kplayer software has a built-in server that supports streaming on AirPlay and DLNA. IOS devices can mirror the screen to the computer, Apple TV in the same network connection, fast speed, free and without jailbreak. DLNA streaming makes it easy for users to share movies from Android phones, music to computers and share movies and music from computers to smart TVs such as Sony, Samsung, LG and Sharp. Enjoy watching videos on the big screen.

Edit Video and add subtitles for Videos

Version 5.8 adds a basic video processing feature that lets you trim, rotate videos, adjust playback speed, volume and color balance . Also if you need to display captions when watching videos or movie, you can right-click to choose whether to display embedded subtitles or external subtitles. When you add an external subtitle file, the

movie will display the subtitle immediately without rebooting.

Overall, 5Kplayer is an all-round video player, video downloader, media streaming and video cutter. If you need to use a software to play videos and listen to music regularly or download videos from online sites, 5Kplayer will be the best choice for you.
