

# 6 Best Free Clipboard Management Tools for Windows

If you're looking for advanced clipboard management tools, there are many online. However, not all of them are free and effective. Below are 6 of the best free clipboard management tools for Windows.

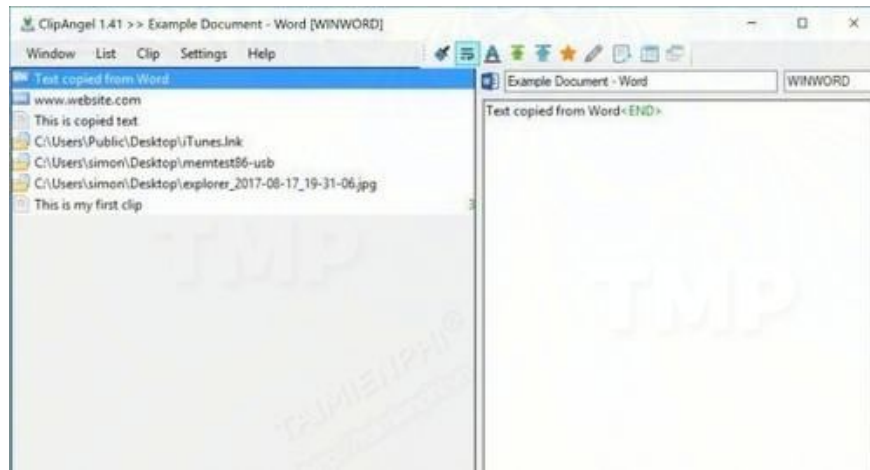

At a basic level, you can easily perform copy-paste operations using the Windows clipboard, such as copying images or details from a job application CV . However, at a more advanced level, the copy-paste function alone is not enough. Therefore, you will need the following 6 best free **clipboard management** tools for Windows.

## 6 Best Free Clipboard Management Tools for Windows

### *1. Clip Angel*

If you need to copy many different types of multimedia data, **Clip Angel** is a great choice. Clip Angel will view your clipboard and store a history of every item you copy, from text to folders and URLs.

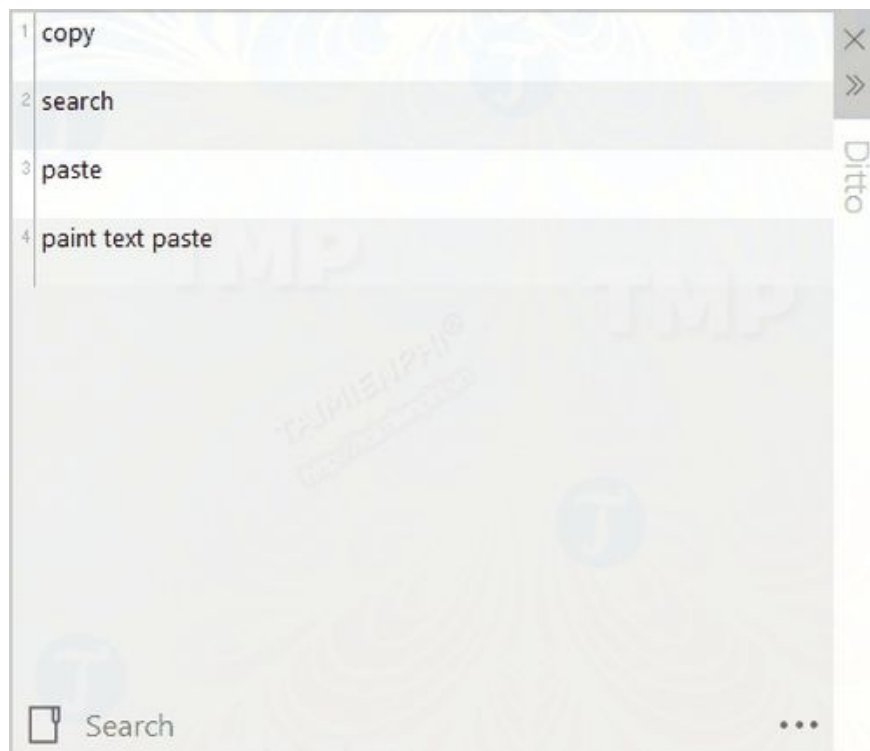

The tool even allows users to see the original location of the copied items by clicking on each item. To paste something, simply double-click in the list, including pasting files and folders into a specific folder.

## 2. Ditto

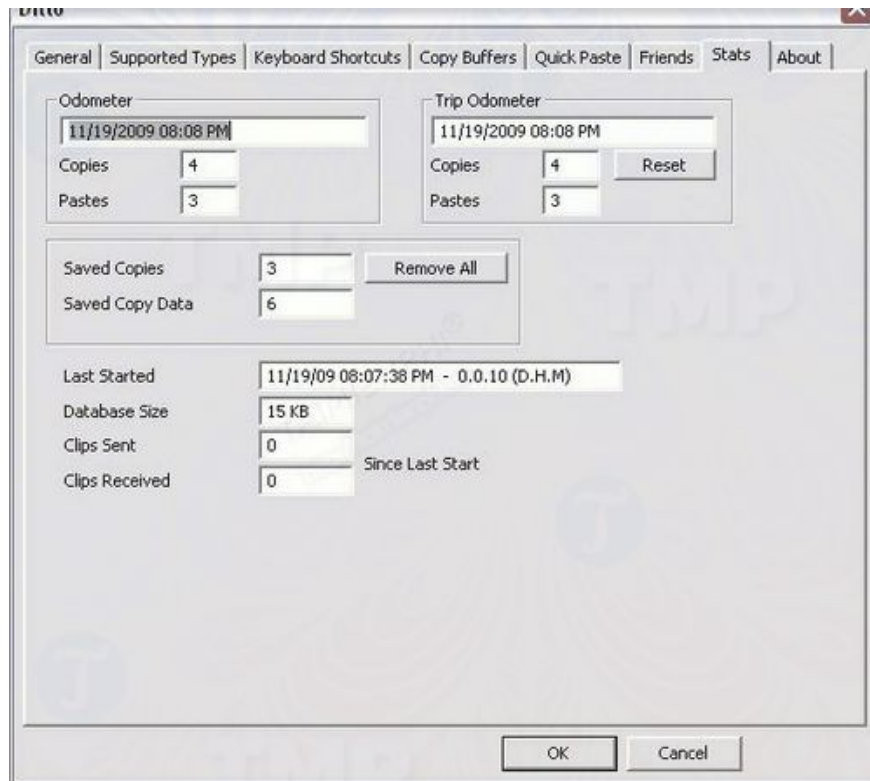

**Ditto** clipboard management tool supports various file types, with the ability to copy using the copy function or the Copy-Paste key combination. Like other clipboard management tools, Ditto allows users to create clipboard groups.

The most interesting feature of Ditto is that users can share clips between different systems. Users simply need to add system information in **the Friends tab** .

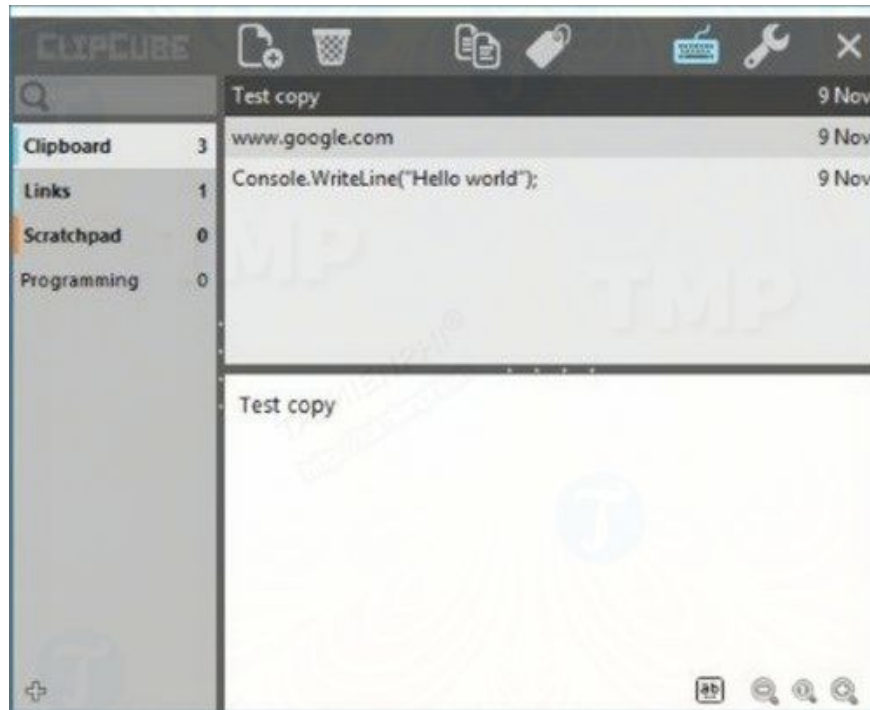

Ditto also provides statistics on the number of times the tool is used.

### 3. ClipCube

**ClipCube** is a suitable document management tool for programming and writing. Its tagging capabilities make it even more useful. There are three initial settings: clipboard, links, and scratchpad. The clipboard is where everything happens when you copy data; it deletes entries and then adds new ones you type. You can also save old data by tagging or adding it to the scratchpad.

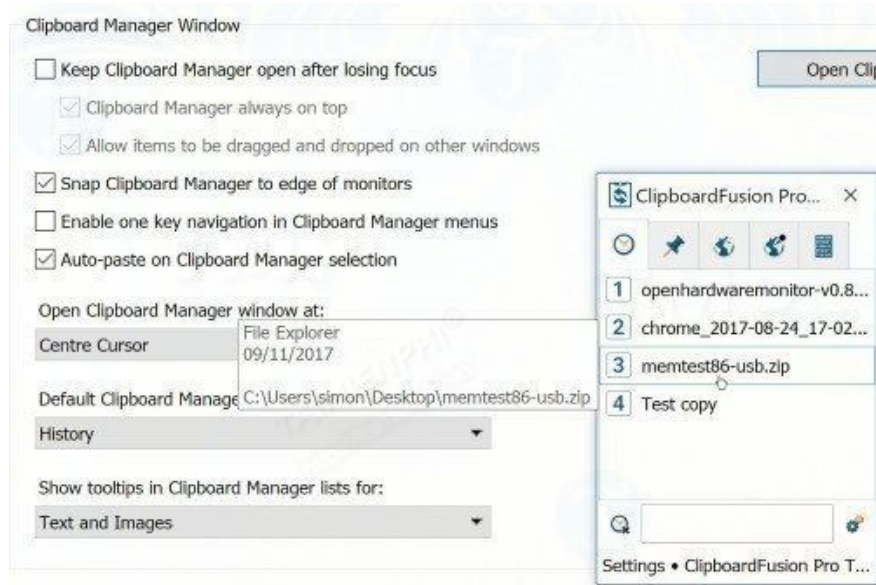

By double-clicking an item in ClipCube, you can place it at the top of the list and load it into the Windows clipboard for pasting.
