1. 1. InstaMeme
2. 2. Meme Generator
3. 3. Mematic
4. 4. Meme Producer
5. 5. Meme Factory
6. 6. Make a Meme +

1. InstaMeme

InstaMeme is one of the leading meme creators on the market. It has nearly 1000 templates available with an option to create your own meme. InstaMeme is built on an easy to use and stylish platform. This meme creator comes with a real-time WYSIWYG editor, which provides a preview of how the meme will look after making changes.

This is one of the applications you should download. Try InstaMeme and create your own unique meme!

Download InstaMeme.

2. Meme Generator

This is a top meme creator with many interesting features to be proud of. This app also gives you preview and many other features like using your photos to create memes. You can save the image to your gallery or share it instantly with friends anywhere.

This application has a Pro version along with a free download. Both versions are identical, with just one difference being the free version adding watermark on your image.

Download Meme Generator.

3. Mematic

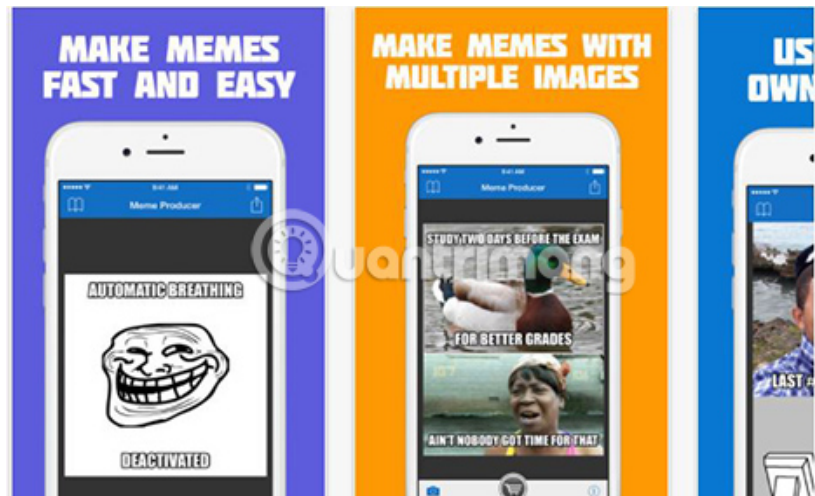

Undoubtedly, Mematic is a good application for creating meme, but it has limitations with text fonts and colors. However, you don't need to worry, because you can buy the Pro version for \$ 2.99 (69,000VND), giving you all

the features you need.

In the Pro version, you can add your text with the desired font. After saving the image to the library, you are ready to share it with others.

Download Mematic.

4. Meme Producer

Honestly, this app will make you a little disappointed when you first see the user interface. Meme Producer's interface looks very outdated as if it was created for older iPhone models.

But in return, this app offers some interesting features. You can also use meme versions created by other users. These versions can be sorted by popularity, relevance and sharing them.

Download Meme Producer.

5. Meme Factory

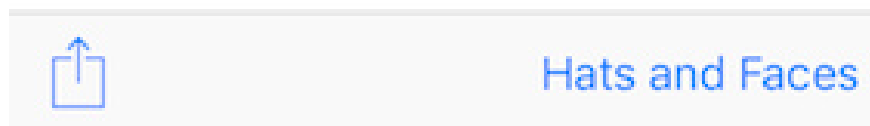

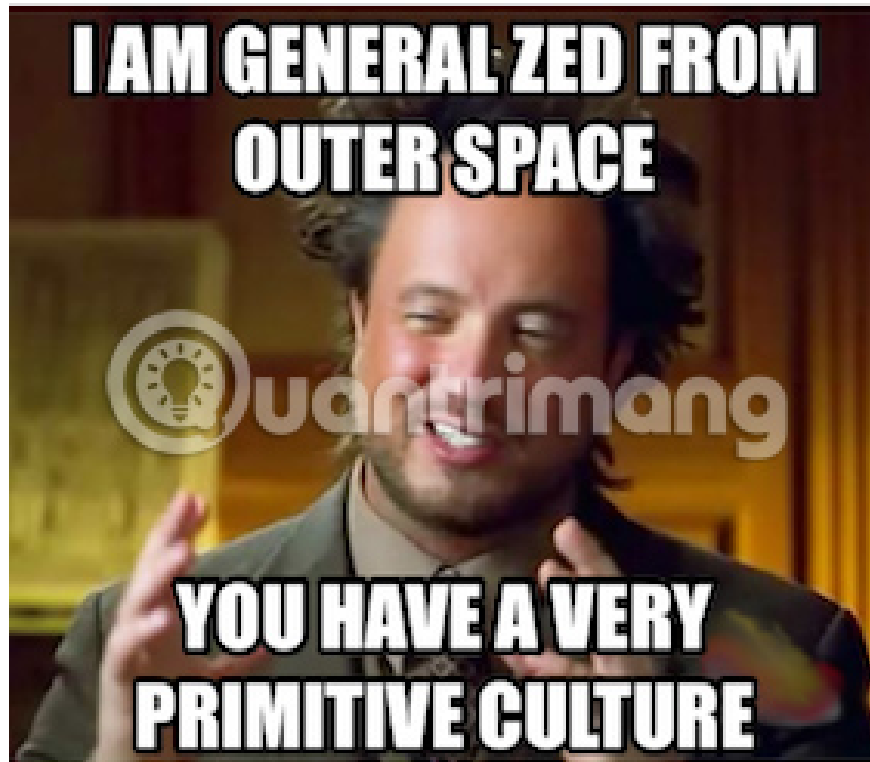

Meme Factory works on the traditional idea of asking users to join this app's social network and then allowing them to change their collection of meme templates.

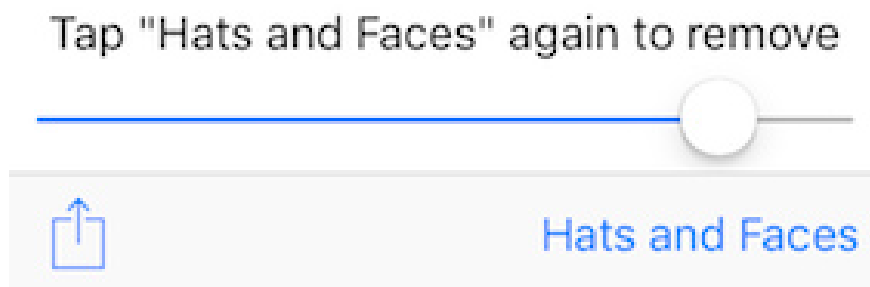

When subscribing to an app's social network, you can easily create meme and share them on other social networks. Meme Factory is just a simple application, nothing difficult to understand.

6. Make a Meme +

Make a Meme + will really make you excited, because it provides additional features that serve your creativity. You can use the change between 2 uppercase and lowercase options. You also have a **Know Your Meme** button to use in case you are not familiar with a certain meme. Then just add your own piece of text to be okay.

The interesting thing is then you have a bunch of different 'angry faces', which you can put on your original face in the meme. If the face does not match the first part of the original image, there is a slider to make the new face size arbitrary or smaller. You can freely adjust accordingly.

If you don't like what you have added, touch '**Hats and Faces**' again and the details will disappear from the image.

Download Make a Meme +.

It's interesting when our smartphones are turning into useful mobile design tools. The proliferation of applications such as Canva, as well as Buffer's Pablo image generators, are making it easier to create sharable images on the phone.

And if you love meme, you can choose one of the apps above or consult the best online meme creators that **TipsMake.com** has suggested.
